Alcohol as a Social Problem William Wesley Haverstock (Jr.), 1949

Social Problems and Public Policy Lee Rainwater, 1974 Deviance is by definition a social problem Since deviant behavior violates the normative expectations of a given group deviance must be regarded as a problem for that group since all groups of people want their norms to be enforced Many modern societies place considerable value on personal liberty so much so that interference with personal choices to deviate from group norms can be justified only in terms of the potential damage that particular kinds of behavior might do to the legitimate interests of others Sociological research suggests that the social problem associated with deviance is often the behavior of individuals who violate norms cannot be justified in terms of basic values of liberty social order or justice In other kinds of deviance though the social problem is that people or in a more organized way social institutions interfere with individual liberty and self realization Each selection in this volume has been chosen to cover a full range of substantive problematic issues a range of social science perspectives that can be brought to bear on issues of all kinds and a range of social science methodologies used in studying modern society Deviance and Liberty is divided up into thirty nine contributions and five main parts ranging from Modern Perspectives on Deviance and Social Problems Deviant Exchanges Gambling Drugs and Sex Deviant Personal Control Illness Violence and Crime Deviance Identity and the Life Cycle and Moral Enterprise and Moral Enforcement It is a welcome addition to the libraries of those interested in the study of deviance or society as a whole

Understanding Drugs, Alcohol And Crime Bennett, Trevor, Holloway, Katy, 2005-04-01 Bennett and Holloway
sUnderstanding Drugs Alcohol and Crime is the best most up to date and comprehensive examination for the United Kingdom of interactions among drugs alcohol and crime The authors exhaustively and authoritatively survey current knowledge in the UK and from many other countries on drug and alcohol use as cause and consequence of crime and the effects of law enforcement and treatment responses Clearly written unfailingly lucid and admirably accurate this book will be the indispensable work on British drug policy for many years to come Professor Michael Tonry University of Minnesota Law School USA What makes this book particularly interesting is the refreshingly non judgmental presentation which conveys the essence of very important issues in contemporary society Therefore this is an ideal text not only for students but also for policy makers drugs and alcohol counsellors treatment agencies and everyone interested in doing research on drugs alcohol and crime Nicoletta Policek University of Abertay Dundee The publication is not only an excellent summary of the existing research in Great Britain and to a lesser extent from other jurisdictions it is a foundation for future research by evoking and at times provoking questions and offering a variety of possible responses Hirsch Greenberg University of Regina What is the connection between drugs alcohol and crime What works in reducing drugs and alcohol related crime The book provides a succinct overview of current theory and research on the links between drugs alcohol use and crime It discusses the legal and social context of drug and alcohol use and identifies current levels of consumption Focusing on the UK context it also takes into account international research where appropriate Detailed review of the research literature on the connections between drug use and crime Examines the current government anti drugs policy and assesses the effectiveness of programmes that have been used to reduce drug and alcohol related crime The book concludes that future government drugs policy should pay particular attention to the lessons learned from research on the connection between drug and alcohol use and crime Ideal for criminology criminal justice social policy and social work students this book will also be a useful source of information for policy makers the police probation workers social workers drugs and alcohol counsellors treatment agencies sentencers voluntary agencies Drug Action Teams and others with an interest in research on drugs and crime *Current Social Issues* Sison Q. Jarapa, Tito S. Segarra, 1997 *Responding to Drinking Problems* Stan Shaw, Alan Cartwright, Terry Spratley, Judith Harwin, 2023-12-01 In the 1970s family doctors social workers researchers and administrators had been aware of the inadequacy of the response to drinking problems for some time However there had been no systematic examination of why

such agents felt negatively about drinkers and disinclined to respond to them Originally published in 1978 this book develops a radical new perspective on the prevalence and causes of drinking problems combining reviews of historical and contemporary literature with the authors own research studies This perspective is then linked to the need for an integrated response from both medical and social services with a particular accent on the need for a community response By focusing on the relationship between helper and helped a solution is sought to the question which has troubled the field for many years why are agents like family doctors and social workers so inadequate in recognising and responding to people with drinking problems The crucial aspects within the therapeutic relationship are pinpointed and experimental studies are described which show how training casework supervision and the redeployment of expertise can help improve recognition rates and responses to individual drinkers This book thus expresses the need for major changes both in our attitudes and understanding of people with drinking problems and the difficulties of agents who try to help them It should still be of historical interest to social scientists and those involved in helping people with drinking problems Research Advances in Alcohol and Drug Problems H.M. Annis,H.D. Cappell,F.B. Glaser,M.S. Goodstadt,L.T. Kozlowski,2013-11-11 This is the tenth volume in the Research Advances series and the seventh published by Plenum Press Volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol illicit drugs and tobacco We include also a brief history of the Center for Alcohol Studies that gives Mark Keller s unique perspective on this noted institution Two of the chapters are decidedly longer than the others very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to accommodate such reviews Again the editorial board has changed After several years of service Reginald G Smart has stepped down New to the board are Helen M Annis Michael S Goodstadt Lynn T Kozlowski and Evelyn R Vingilis This is likely to be the sole volume for which Goodstadt is on the board since before completion of this volume he moved from the Addiction Research Foundation to the Center for Alcohol Studies Rutgers University **The Insanity of Alcohol** Paul C.
