**Karen Tei Yamashita** A. Robert Lee, 2018-04-30 Karen Tei Yamashita's novels, essays, and performance scripts have garnered considerable praise from scholars and reviewers and are taught not only in the United States but in at least half a dozen countries in Asia, South America, and Europe. Her work has been written about in numerous disciplines in the humanities and social sciences. Karen Tei Yamashita's *Fictions of Magic and Memory* is the first anthology given over to Yamashita's writing. It contains newly commissioned essays by established international scholars, a recent interview with the author, a semiautobiographical keynote address delivered at an international conference that ruminates on her Japanese American heritage, and a full bibliography. The essays offer fresh and in-depth readings of the magic realist canvas of *Through the Arc of the Rain Forest* (1990), the Japanese emigrant portraiture of *Brazil Maru* (1992), Los Angeles as a rambunctious geopolitical and transnational fulcrum of the Americas in *Tropic of Orange* (1997), the fraught relationship of Japanese and Brazilian heritage and labor in *Circle K Cycles* (2001), Asian American history and politics of the 1960s in *I Hotel* (2010), and *Anime Wong* (2014), a gallery of performativity illustrating the contested and inextricable nature of East and West. This essay collection explores Yamashita's use of the fantastical, the play of emerging transnational ethnicity, and the narrative tactics of reflexivity and bricolage in storytelling located on a continuum of the unique and the communal of the past and the present, and that are mapped in various spatial and virtual realities.

**Approaches to Teaching the Works of Jorge Luis Borges** José Eduardo González, 2025-01-02 Often considered a writer who transcends national borders, Jorge Luis Borges also aimed to reinvent the history and traditions of his own country, Argentina. His unconventional works appeal to students who nonetheless can find his richly intertextual prose challenging. Addressing courses in Spanish and in English, this volume offers innovative approaches that help students navigate the texts, engage with them emotionally and creatively, and understand the time and place of their production while connecting them to the present. Part 1, Materials, provides detailed biographical information about Borges as well as print and digital resources. The essays in part 2, Approaches, offer strategies for discussing his writing process, his manuscripts, and the material history and translation of his texts. Contributors also examine Borges's influences, which include film, mythology, history, and ideas of Islam and Judaism; the author's interest in humor and games; and resonances with other literary works.

*AB Bookman's Weekly*, 1996 *The Epic Journey in Greek and Roman Literature* Thomas Biggs, Jessica Blum, 2019-05-23 From Homer to the moon, this volume explores the epic journey across space and time in the ancient world.

*American Book Publishing Record*, 2003 *Book Prices: Used and Rare*, 1994 Edward N. Zempel, 1994

**Borges and Kafka** Sarah Rachelle Roger, 2017 Sarah Roger investigates Jorge Luis Borges's development as an author in light of Franz Kafka's influence and in consideration of Borges's relationship with his father, a failed author. She explores how reading Kafka helped Borges mediate and make productive use of his own relationship with his father.

**The Humanities and the Dynamics of Inclusion since World War II** David A. Hollinger, 2006-04-14 The

role played by the humanities in reconciling American diversity a diversity of both ideas and peoples is not always appreciated This volume of essays commissioned by the American Academy of Arts and Sciences examines that role in the half century after World War II when exceptional prosperity and population growth coupled with America s expanded political interaction with the world abroad presented American higher education with unprecedented challenges and opportunities The humanities proved to be the site for important efforts to incorporate groups and doctrines that had once been excluded from the American cultural conversation Edited and introduced by David Hollinger this volume explores the interaction between the humanities and demographic changes in the university including the link between external changes and the rise of new academic specializations in area and other interdisciplinary studies This volume analyzes the evolution of humanities disciplines and institutions examines the conditions and intellectual climate in which they operate and assesses the role and value of the humanities in society Contents John Guillory Who s Afraid of Marcel Proust The Failure of General Education in the American University Roger L Geiger Demography and Curriculum The Humanities in American Higher Education from the 1950s through the 1980s Joan Shelley Rubin The Scholar and the World Academic Humanists and General Readers Martin Jay The Ambivalent Virtues of Mendacity How Europeans Taught Some of Us to Learn to Love the Lies of Politics James T Kloppenberg The Place of Value in a Culture of Facts Truth and Historicism Bruce Kuklick Philosophy and Inclusion in the United States 1929 2001 John T McGreevy Catholics Catholicism and the Humanities 1945 1985 Jonathan Scott Holloway The Black Scholar the Humanities and the Politics of Racial Knowledge Since 1945 Rosalind Rosenberg Women in the Humanities Taking Their Place Leila Zenderland American Studies and the Expansion of the Humanities David C Engerman The Ironies of the Iron Curtain The Cold War and the Rise of Russian Studies Andrew E Barshay What is Japan to Us Rolena Adorno Havana and Macondo The Humanities Side of U S Latin American Studies 1940 2000     **Behind the Great Wall** James Whitlark,1991 This work explores what lies behind the fantastic barrier in a borderland that C G Jung called the unconscious the avant garde writer Kafka termed incomprehensible and Whitlark argues is an entire spectrum of muted awareness     The Lesson of the Master Norman Thomas Di Giovanni,2004-12-30 Jorge Luis Borges wrote Fame is a form of incomprehension perhaps the worst Since his death Borges has been inducted into the world literary canon through the efforts of a number of influential critics and the Borges estate Central to this project has been the publication of a group of grand volumes whose greatest achievement has been to make available in English works that had previously remained obscure even in Spanish The five year collaboration 1967 1972 between Borges and Norman Thomas di Giovanni produced the translations that brought Borges his burgeoning global English readership The Lesson of the Master a memoir and essays is an indispensable work for Borges readers and his growing legion of students and scholars Di Giovanni was the only translator to have Borges on hand on a daily basis to contradict or authorize his work In addition di Giovanni is not burdened with an over reverence for his subject but is on the contrary playful robust and witty The Lesson of the Master
