Airman At Yalta:

Airman at Yalta Laurence S. Kuter, 1955 An inside account by the man who represented the Army Air Forces at the Yalta Conference **Airmen and air theory a review of the sources** Phillip S. Meilinger, 2001 This part of the book reviews the state of American airpower biography and autobiography I have set certain parameters to define the boundaries of my discussion I discuss biographies and autobiographies anthologies and oral histories of military officers who served in senior positions Thus although the stories of great aviators like Eddie Rickenbacker Charles Lindbergh and Chuck Yeager are important those men did not command large forces either in combat or in peace they had only a temporary effect on the development of strategy and doctrine Similarly excluded are civilian political leaders and industrialists like Stuart Symington and Donald Douglas even though they played key roles In their own spheres What follows are the stories some published some not of America s greatest military airmen some told by themselves others by biographers The order of presentation is roughly chronological according to the time during which these men served The fact that a surprising number of air luminaries do not appear here means that much work remains to be done **Roosevelt's Lost Alliances** Frank Costigliola, 2013-02-24 This study brings to light key overlooked documents such as the Yalta diary of Roosevelt s daughter Anna the intimate letters of Roosevelt s de facto chief of staff Missy LeHand and the wiretap transcripts of estranged advisor Harry Hopkins The book lays out a new approach to foreign relations history [George C. Marshall: Organizer of Victory, 1943-1945](#) Forrest C. Pogue, 2020-06-08 This volume covers the Allied shift to the offensive in early 1943 to the defeat of Germany in May 1945 During this period the indomitable Chief of Staff gained growing respect and trust from Roosevelt and Churchill and unparalleled respect from Congress and the country The profound differences with our British Allies the selection of Eisenhower to command the invasion force the Mac Arthur Nimitz feud in the Pacific the machinations at Yalta the decision not to try to beat the Russians to Berlin and the establishment of the occupation zones are covered in detail The Military Engineer The years 1943 45 were years of fulfillment during which the greatest of American Chiefs of Staff saw the army that he had raised committed to the struggle against the Axis in accordance with the strategical plan that he had devised and persuaded his allies to accept there is little doubt that the decision to keep Marshall in Washington and send Eisenhower to command the 1944 Normandy invasion was fortunate for the nation and Mr Pogue s substantial volume is filled with material to show why this was so a rewarding volume Gordon A Craig The New York Times For those who wish to understand the American war effort this is the place to begin Also the book for those who want to meet an old fashioned hero In sum a magnificent book about a magnificent man Stephen E Ambrose Washington Post An outstanding example of modern biography Robert Kirsch Los Angeles Times This book is a careful sensitive evaluation of an individual whose contribution to the Allied victory in World War II was unsurpassed In addition it is a fine description of the events and personalities of that conflict As such this book is a valuable addition to the literature of recent military history David J Alvarez Military Affairs In

this volume scholars see Marshall at his best as soldier and statesman and Pogue at his best as biographer and historian The product of this happy combination is a basic and indispensable work on World War II It will be difficult to equal let alone surpass the excellence of this volume Harry L Coles The Journal of American History The best volume of biography I have ever been privileged to read If any student of the future or any citizen for that matter can read but one book in his effort to get a clear understanding of the most climactic period in our history this is the one Ira Eaker Aerospace Historian This is biography at its best A first rate history of the two climactic years of the war One of the best works yet written about the war It is global in scope deeply researched thorough written with clarity and forcefulness Louis Morton The American Historical Review Pogue provides a well documented and readable account of Marshall s career from 1943 45 Pogue makes an important contribution to World War II historiography John M Carroll The Review of Politics For understanding the great decisions and personalities of the war that began the Cold War this may be the most stimulating and the most indispensable book Marshall would be proud of what Pogue has written not because it is favorable but because it is fair Noel F Parrish The Journal of Southern History An excellent account Pogue does Marshall justice Willard F Barber Military Affairs The surely definitive George C Marshall biography a heavily documented text which incorporates or quotes from the Marshall papers and related material the emphasis on the professional career continues while still attempting to build a portrait of the human being behind the braid this continues the detailed stately march through that calm dedicated supersubstantial call to national service which here ends with the German surrender in May of 1945 but is to be continued on the diplomatic shoals Kirkus Reviews Military historian Pogue tops his previous fine efforts with this superb study of his subject at the turning point of humankind s greatest armed conflict This is biography at its best Pogue s talent is exceeded only by his ability to write as forcefully and interestingly as any first ranked novelist The result is a biography which crackles with exciting drama and makes reading it not only an intellectually profitable experience but one that is also pleasurable An epochal mural of a world at war An outstanding and eminently readable biography Princeton Alumni Weekly Pogue is to be applauded The book is indispensable to an understanding of the war and to an appreciation of the part played by Marshall and others in the unfolding drama Armin Rappaport Pacific Historical Review Splendid A superb biography John F Melby Pacific Affairs This is really the record not just of one great war but of an infinity of little wars New York Post

Professional Journal of the United States Army, 1956 Military Review, 1956 *Organizer of Victory, 1943-1945* Forrest C. Pogue, 1973 United States Air Force History Carl Berger, 1971 **Special Bibliographic Series** US Army Military History Research Collection, 1977 Churchill-Roosevelt-Stalin Herbert Feis, 2015-12-08 This is the story of the great coalition formed by the United States Great Britain and Soviet Russia to combat the Axis in World War II Mr Feis traces the ideas and purposes that governed each member of this alliance and the gradual separation between the West and Russia as victory over Germany was achieved While adding new information and new interpretation Mr Feis comprehends this one war and three wills as a whole

relating diplomacy and strategy to each other against the background of circumstance The acts and characteristics of the dominating figures Churchill Roosevelt Stalin emerge in new historical perspective as the story tells what they did and why The narrative begins early in 1941 as the coalition is emerging and ends after the collapse of Germany in 1945 Among the elements are the early grasping of the Soviet government for territorial claims the continuous discussion over strategy the dramatic difficulties with the Soviet authorities over control of Italy Poland and Rumania the variations in the plans for Germany including dismemberment the Casablanca Moscow Cairo Teheran and Yalta conferences the spreading disquiet over Soviet intentions in Europe and the Far East Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Dept. of the Air Force,1959 *The Guns at Last Light* Rick Atkinson,2013-05-14 In the first two volumes of his bestselling Liberation Trilogy Rick Atkinson recounted how the American led coalition fought through North Africa and Italy to the threshold of victory Now he tells the most dramatic story of all the titanic battle for Western Europe D Day marked the commencement of the European war s final campaign and Atkinson s riveting account of that bold gamble sets the pace for the masterly narrative that follows The brutal fight in Normandy the liberation of Paris the disaster that was Market Garden the horrific Battle of the Bulge and finally the thrust to the heart of the Third Reich all these historic events and more come alive with a wealth of new material and a mesmerizing cast of characters With the stirring final volume of this monumental trilogy Rick Atkinson s remarkable accomplishment is manifest He has produced the definitive chronicle of the war that unshackled a continent and preserved freedom in the West

Air Corps News Letter ,1950 **Air Force Pamphlet** ,1956 Architect of Air Power Brian D. Laslie,2017-10-06 A biography of the pioneering four star general chronicling his influence on the United States Air Force At age 36 Laurence S Kuter 1905 1979 became the youngest general officer since William T Sherman He served as deputy commander of allied tactical air forces in North Africa during World War II and helped devise the American bombing strategy in Europe Although his combat contributions were less notable than other commanders in the Eighth Air Force few officers saw as many theaters of operation as he did or were as highly sought after After World War II he led the Military Air Transport Service Air University Far East Air Forces and served as commander in chief of the North American Air Defense Command NORAD Despite these accomplishments and others however Kuter remains widely underappreciated In Architect of Air Power Brian

D Laslie offers the first biography of this important but unsung pioneer whose influence can be found in every stage of the development of an independent US Air Force From his early years at West Point to his days at the Air Corps Tactical School to his leadership role at NORAD Kuter made his mark with quiet efficiency He was an early advocate of strategic bombardment rather than pursuit or fighter aviation fundamentally changing the way air power was used and later helped implement the Berlin airlift in 1948 In what would become a significant moment in military history he wrote Field Manual 100-20 which is considered the Air Force's declaration of independence from the Army Drawing on diaries letters and scrapbooks Laslie offers a complete portrait of this influential soldier Architect of Air Power illuminates Kuter's pivotal contributions and offers new insights into critical military policy and decision making during the Second World War and the Cold War Praise for Architect of Air Power Laslie expertly brings into focus perhaps the least known of the major Air Force personalities of World War II and the early Cold War Kuter was the indispensable behind the scenes man in those years and this book fills a similarly indispensable gap in our understanding of the people and ideas that propelled the nation's air arm to independence and prominence Thomas Alexander Hughes author of Over Lord General Pete Quesada and the Triumph of Tactical Air Power in World War II Laslie's outstanding work on Laurence Kuter is the first full and highly effective look at this exceptionally important airman It gives the reader ample evidence of Kuter's central role in making America the quintessential airpower nation during the course of the twentieth century This will be the book on Kuter for many years to come Robert S Ehlers Jr author of The Mediterranean Air War Airpower and Allied Victory in World War II Personal Papers in the United States Air Force Historical Research Center ,1990 **Air University Periodical Index** ,1958
