

Airplane In American Culture

Roger E. Bilstein, Roger Bilstein

Airplane In American Culture:

The Airplane in American Culture Dominick Pisano, 2003 A fascinating account of America's relationship with the airplane

The American Culture of War Adrian R. Lewis, 2017-09-08 Now in its third edition *The American Culture of War* presents a sweeping critical examination of every major American war since 1941 World War II Korea Vietnam the First and Second Persian Gulf Wars U S operations in Iraq and Afghanistan and the war against ISIS As he carefully considers the cultural forces that surrounded each military engagement Adrian Lewis offers an original and provocative look at the motives people and governments used to wage war the discord among military personnel the flawed political policies that guided military strategy and the civilian perceptions that characterized each conflict This third edition features A new structure focused more exclusively on the character and conduct of the wars themselves Updates to account for the latest evolving scholarship on these conflicts An updated account of American military involvement in the Middle East including the abrupt rise of ISIS The new edition of *The American Culture of War* remains a comprehensive and essential resource for any student of American wartime conduct

The Airplane in American Culture Dominick Pisano, 2003 A fascinating account of America's relationship with the airplane

Russian Aviation, Space Flight and Visual Culture Vlad Strukov, Helena Goscilo, 2016-09-13 Among the many successes of the Soviet Union were inaugural space flight ahead of the United States and many other triumphs related to aviation Aviators and cosmonauts enjoyed heroic status in the Soviet Union and provided supports of the Soviet project with iconic figures which could be used to bolster the regime's visions self confidence and the image of itself as forward looking and futuristic This book explores how the themes of aviation and space flight have been depicted in film animation art architecture and digital media Incorporating many illustrations the book covers a wide range of subjects including the representations of heroes the construction of myths and the relationship between visual art forms and Soviet Russian culture and society

The Cultural Memory of Africa in African American and Black British Fiction, 1970-2000 Leila Kamali, 2016-12-10 This book offers a new approach to reading the cultural memory of Africa in African American fiction from the post Civil Rights era and in Black British fiction emerging in the wake of Thatcherism The critical period between the decline of the Civil Rights Movement and the dawn of the twenty first century saw a deep contrast in the distinctive narrative approaches displayed by diverse African diaspora literatures in negotiating the crisis of representing the past Through a series of close readings of literary fiction this work examines how the cultural memory of Africa is employed in diverse and specific negotiations of narrative time in order to engage and shape contemporary identity and citizenship By addressing the practice of remembering Africa the book argues for the signal importance of the African diaspora's literary interventions and locates new paradigms for cultural identity in contemporary times

The Reader's Companion to American History Eric Foner, John A. Garraty, 2014-01-14 An A to Z historical encyclopedia of US people places and events with nearly 1 000 entries all equally well written crisp and entertaining Library Journal From the origins of its native peoples

to its complex identity in modern times this unique alphabetical reference covers the political economic cultural and social history of America A fact filled treasure trove for history buffs The Reader s Companion is sponsored by the Society of American Historians an organization dedicated to promoting literary excellence in the writing of biography and history Under the editorship of the eminent historians John A Garraty and Eric Foner a large and distinguished group of scholars biographers and journalists nearly four hundred contemporary authorities illuminate the critical events issues and individuals that have shaped our past Readers will find everything from a chronological account of immigration individual entries on the Bull Moose Party and the Know Nothings as well as an article on third parties in American politics pieces on specific religious groups leaders and movements and a larger scale overview of religion in America Interweaving traditional political and economic topics with the spectrum of America s social and cultural legacies everything from marriage to medicine crime to baseball fashion to literature the Companion is certain to engage the curiosity interests and passions of every reader and also provides an excellent research tool for students and teachers

Flight Patterns Roger E. Bilstein, Roger Bilstein, 2008-12-01 From 1918 to 1929 American aviation progressed through the pioneering era establishing the pattern of its impact on national security commerce and industry communication travel geography and international relations In America as well as on a global basis society experienced a dramatic transformation from a two dimensional world to a three dimensional one By 1929 aviation was poised at the threshold of a new epoch Covering both military and civil aviation trends Roger Bilstein s study highlights these developments explaining how the pattern of aviation activities in the 1920s is reflected through succeeding decades At the same time the author discusses the social economic and political ramifications of this robust new technology Aviation histories usually pay little attention to aeronautical images as an aspect of popular culture Thoughtful observers of the 1920s such as Stuart Chase and Heywood Broun considered aircraft to be an encouraging example of the new technology workmanlike efficient and graceful perhaps representing a new spirit of international good will *Flight Patterns* is particularly useful for its discussion of both economic and cultural factors treating them as integrated elements of the evolving air age

The Wind and Beyond: The ascent of the airplane James R. Hansen, 2003

Encyclopedia of Contemporary American Culture Robert Gregg, Gary W. McDonogh, Cindy H. Wong, 2005-11-10 As a meeting point for world cultures the USA is characterized by its breadth and diversity Acknowledging that diversity is the fundamental feature of American culture this volume is organized around a keen awareness of race gender class and space and with over 1 200 alphabetically arranged entries spanning the American century from the end of World War II to the present day the Encyclopedia provides a one stop source for insightful and stimulating coverage of all aspects of that culture Entries range from short definitions to longer overview essays and with full cross referencing extensive indexing and a thematic contents list this volume provides an essential cultural context for both teachers and students of American studies as well as providing fascinating insights into American culture for the general reader The suggestions for further reading which follows most

entries are also invaluable guides to more specialized sources

The Double-edged Sword Zoltán Simon,2003 This examination of American novels from 1900 to 1940 traces the literary treatment of the technological sublime a simultaneous awe and fear of technology The American technological sublime is a construct that can be useful in understanding the often conflicted and ambivalent reactions of enthusiasm and anxiety exaltation and depression associated with the patterns of development experienced in the US in this transitory period The first four decades of the 20th century saw the culmination of the technological sublime in America the loss of the innocently one sided enthusiasm and technological republicanism of the 19th century to a fragmented often paranoiac and largely pessimistic vision of technology that became dominant of the literature after World War II After an evaluation of earlier scholarship on the American technological sublime the study examines four important decades in the development of the American technological sublime and some of the literary responses to it

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet,2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

The Alaskan Saga of Thomas Churchill O'Brien Thomas William,1999-12 A hilariously funny satire of life in Alaska as seen through the misadventures of a warm hearted but bumbling neophyte

Realizing the Dream of Flight National Aeronautics and Space Administration,2005-12-31 These essays in celebration of the Wright brothers first flight 100 years ago grew out of presentations by a group of prominent scholars in 2003 at a conference sponsored by the NASA History Division and held at the Great Lakes Science Center in Cleveland Ohio The volume focuses on the careers of some of the many men and women who helped to realize the dream of flight both through the atmosphere and beyond These accounts are original and compelling because they examine the history of flight through the lens of biography

Airplanes, the Environment, and the Human Condition Hans A. Baer,2019-07-23 The number of airplane flights worldwide continues to grow and is one of the many drivers of climate change This book examines the aviation industry from an anthropological perspective focusing on the sector s environmental impact and the challenges facing attempts to shift to more sustainable solutions Hans Baer outlines how airplanes have become a key component of modern cultural and social life and how the world system has become increasingly dependent on them to function He critically

examines current efforts to mitigate the climatic impact of the air travel and argues for a significant move away from air transport suggesting that such a shift may only be achieved through a more fundamental change in the world system

Thesaurus of ERIC Descriptors ,1969 **Realizing the Dream of Flight** Virginia Parker Dawson,Mark D. Bowles,2005 **American Literary Dimensions** Ben Siegel,Jay L. Halio,1999 This is the first of two volumes commemorating Friedman s life and work and includes essays on American literature poetry and remembrances Empire of the Air Jenifer Van Vleck,2013-11-01 Jenifer Van Vleck s fascinating history reveals the central role commercial aviation played in the United States ascent to global preeminence in the twentieth century As U S military and economic influence grew the federal government partnered with the aviation industry to deliver American power across the globe and to sell the idea of the American Century to the public at home and abroad The airplane promised to extend the frontiers of the United States to infinity as Pan American World Airways president Juan Trippe said As it accelerated the global circulation of U S capital consumer goods technologies weapons popular culture and expertise few places remained distant from Wall Street and Washington Aviation promised to secure a new type of empire an empire of the air instead of the land which emphasized access to markets rather than the conquest of territory and made the entire world America s sphere of influence By the late 1960s however foreign airlines and governments were challenging America s control of global airways and the domestic aviation industry hit turbulent times Just as the history of commercial aviation helps to explain the ascendance of American power its subsequent challenges reflect the limits and contradictions of the American Century **American Military Aviation** Charles Joseph Gross,2002 Discusses major developments in aircraft doctrine training and operations The author also provides discussions of airlife in flight refueling military budgets industry and inter service squabbling He deftly sketches the evolution of the air arms of each of the different services and provides clear analysis of military budgets
