*The Talmud Yerushalmi and Graeco-Roman Culture* Peter Schäfer, Catherine Hezser, 1998 This volume continues the studies on the most important source of late antique Judaism the Talmud Yerushalmi in relation to its cultural context The text of the Talmud is juxtaposed to archaeological findings Roman law and contemporary classical authors The attitude of the Rabbis towards main aspects of urban society in the Mediterranean region of late antiquity is discussed Hereby Rabbinic Judaism is seen as integrated in the cultural currents prevalent in the eastern part of the Roman Empire From reviews of the first volume The essays in this volume do not seek to establish a global approach to the task or any general methodological principles Caution is everywhere apparent This is an excellent beginning and more is promised It would be good if this initiative prompted more Talmudic scholars to take the Greek background of Palestinian rabbinism seriously and finally put paid to the tendency to consider it as in some way separated from or in conflict with late antique Hellenism
