Albert And The Angels:

Albert and the Angels Leslie Norris, 2000 As Christmas approaches young Albert and his talking dog that only he can hear try their best to find a replacement for the special medallion that Albert's mother lost long ago

Reading Proclus and the Book of Causes Volume 1 Dragos Calma, 2019-05-15 Reading Proclus and the Book of Causes published in three volumes is a fresh comprehensive understanding of Proclus' legacy in the Hellenic Byzantine Islamic Latin and Hebrew traditions The history of the Book of Causes an Islamic adaptation of mainly Proclus' Elements of Theology and Plotinus' Enneads is reconsidered on the basis of newly discovered manuscripts This first volume enriches our understanding of the diverse reception of Proclus' Elements of Theology and of the Book of Causes in the Western tradition where universities and religious schools offered unparalleled conditions of diffusion The volume sheds light on overlooked authors' texts literary genres and libraries from all major European universities from the 12th to the 16th centuries

The Discovery of Being and Thomas Aquinas Christopher M. Cullen, SJ, Franklin T. Harkins, 2019 While there has been agreement among followers of Aquinas that being insofar as it is being being qua being is the subject of metaphysics there is not agreement on how this being qua being is to be understood nor on how we come to know the being that is the object of metaphysical investigation The topic of what being is as the object of the science of metaphysics and how to account for the discovery of the being of metaphysics have emerged as central problems for the contemporary retrieval of Aquinas and for the larger project of post-Leonine Thomism in general This lack of agreement has hampered the retrieval of Aquinas's metaphysics The collection of essays within The Discovery of Being and Thomas Aquinas is divided into three major parts the first set of essays concerns the foundation of metaphysics within Thomism the second set exemplifies the use of metaphysics in fundamental philosophical issues within Thomism and the third set employs metaphysics in central theological issues The Discovery of Being and Thomas Aquinas allows major scholars of the different types of Thomism to engage in a full scale defense of their position as well as expanding Thomistic metaphysics to the discipline of theology in important ways

Dancing with Angels in Heaven Garnet Schulhauser, 2021-07-07 Dancing with Angels in Heaven is the fifth book in the pentalogy of the author's encounters with his spirit guide that began when he was confronted on the street by a homeless man named Albert who turned out to be a wise spirit in disguise The author's first four books Dancing on a Stamp Dancing Forever with Spirit Dance of Heavenly Bliss and Dance of Eternal Rapture recount his dialogue and astral trips with his guide who took him to the Spirit Realm and other planets in our galaxy In his fifth book the author recalls a trip to the Spirit Side to observe an orientation class about planet Earth for souls planning to incarnate on our planet In this session souls learn about the origin of the universe the true nature of souls the preparation of Life Plans for each new incarnation the purpose of a human journey on Earth the role of spirit

guides and guardian angels in our lives the joyful transition of souls back to the Spirit Side in the afterlife and the illuminating aspects of the Life Review we will all enjoy after leaving our bodies behind The book confirms that God Source does not make rules for us to follow and does not judge or punish souls for what they did on Earth which means that all souls return to the Spirit Side regardless of what they did during their lives In the Spirit Realm he was thrilled to meet several famous historical figures including Albert Einstein Marie Antoinette and Mother Teresa who recalled the wisdom they had gained from their lives on Earth The author describes an astral excursion to a distant planet inhabited with intelligent reptiles who are able to convert energy from their sun into sustenance for their bodies as well as a trip to Earth in a parallel universe where humans learned to drastically reduce pollution by developing a technique to teleport people and goods from place to place without burning fossil fuel On the Earth plane the author travelled to the underground caverns in Area 51 where he saw the spacecraft that crashed near Roswell New Mexico in 1947 along with the bodies of the little aliens who perished in the mishap Albert confirmed to the author that these aliens are one of several advanced and benevolent ET races who have been visiting our planet for eons And his most fascinating experience was listening to a conversation with three wise Masters Jesus Mohammad and Moses who discussed returning to Earth some day as a much needed messiah to lead humans onto the path of spiritual enlightenment

Angels and Demons Serge-Thomas Bonino, 2016 Angels occupy a significant space in contemporary popular spirituality Yet today more than ever the belief in the existence of intermediary spirits between the human and divine realms needs to be evangelized and Christianized Angels and Demons offers a detailed synthesis of the givens of the Christian tradition concerning the angels and demons as systematized in its essential principles by St Thomas Aquinas Certainly the doctrine of angels and demons is not at the heart of Christian faith but its place is far from negligible On the one hand as part of faith seeking understanding angelology has been and can continue to be a source of enrichment for philosophy Thus reflection on the ontological constitution of the angel on the modes of angelic knowledge and on the nature of the sin of Satan can engage and shed light on the most fundamental areas of metaphysics epistemology and ethics On the other hand angelology insofar as it is inseparable from the ensemble of the Christian mystery from the doctrine of creation to the Christian understanding of the spiritual life can be envisioned from an original and fruitful perspective

To Stir a Restless

Heart Jacob W. Wood,2019 To Stir a Restless Heart tells for the first time the story of how Thomas Aquinas conversed with his contemporaries about the dynamics of human nature s longing for God and documents how he deliberately utilized Greek Arabic Hebrew and Latin sources to develop a version of Aristotelian natural desire that was uniquely Augustinian natural desire seeks the complete fulfillment of human nature insofar as is possible and so comes to rest in the highest end that God offers to it Depending on whether God offers the free gift of grace to humanity one and the same natural desire can come to rest in knowing God through creatures or seeing God directly „And on this Rock I Will Build My Church“. A New Edition of Philip Schaff's „History of the Christian Church“ Muhammad Wolfgang G. A. Schmidt,2017-07 This voluminous work on Church History by Philip Schaff 1819 1893 was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A D 1 to the History of the Reformation in Germany and Switzerland 1517 1648 Being still a popular text in North America this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes each of them containing the text of two volumes of the original edition Schaff s work unlike other works in the field covers a multitude of church history related aspects from church doctrine policy events and processes to aspects of social moral and family life arts and more It is a very comprehensive text extremely well written and readable rich in material and sources used and attests to the excellence of protestant German theological scholarship under the influence of emerging Historical Critical Biblical Exegesis at his time This third volume in this series covers the period from Gregory VII to the eve of the Protestant Reformation A D 1049 1517

The Travelers Joseph Lima Sconce, 2013-07-25 The main theme of my book is that the afterlife is real and substantial and that all of us when we arrive there at some point will soon realize this Our spiritual bodies are very much like our natural bodies except that the spiritual bodies are in perfect shape Life in the afterlife is at least superficially very much like life on Earth People in the spiritual world live in real places beautiful cities or country locations in heaven and noisome slums in hell People there work as they do on Earth willingly and joyously in heaven not so in hell They also enjoy time off from work which is marvelous in heaven and within strict limits somewhat enjoyable in Hell We are full human beings in the afterlife up to and including that dreaded word for most religions sex But in the spiritual world time and space function differently being fluid and connected to our thoughts and emotions deception is nearly impossible and the economy is a moneyless one

Aristotle in Aquinas's Theology Gilles Emery, Matthew Levering, 2015 Aristotle in Aquinas's Theology explores the role of Aristotelian concepts principles and themes in Thomas Aquinas's theology Each chapter investigates the significance of Aquinas's theological reception of Aristotle in a central theological domain the Trinity the angels soul and body the Mosaic law grace charity justice contemplation and action Christ and the sacraments In general the essays focus on the Summa theologiae but some range more widely in Aquinas's corpus For some time it has above all been the influence of Aristotle on Aquinas's philosophy that has been the centre of attention Perhaps in reaction to philosophical neo Thomism or perhaps because this Aristotelian influence appears no longer necessary to demonstrate the role of Aristotle in Aquinas's theology presently receives less theological attention than does Aquinas's use of other authorities whether Scripture or particular Fathers especially in domains outside of theological ethics Indeed in some theological circles the influence of Aristotle upon Aquinas's theology is no longer well understood Readers will encounter here the great Aristotelian themes such as act and potency God as pure act substance and accidents power and generation change and motion fourfold causality form and matter hylomorphic anthropology the structure of intellection the relationship between knowledge and will happiness and friendship habits and virtues contemplation and action politics and justice the best form of government and private property and the common good The ten essays in this book engage Aquinas's reception of Aristotle in his theology from a variety of points of view historical philosophical and constructively theological **History of the Christian Church, Volume V: The Middle Ages.
