Albrecht Durer epitomizes the Northern Renaissance and is one of the most celebrated artists of all time. But despite our substantial knowledge about him, he remains elusive. Beginning in 1891, the National Gallery of Victoria started making acquisitions sufficiently significant to make its collections of Durer one of the most important in the world. Over 150 b/w plates, a four-page fold-out color plate, and essays on the artist's life, 15th-century life in Nuremberg during one of the great transforming periods of European history, and on the book arts make this an invaluable addition to Durer literature. The Essential Dürer Larry Silver, Jeffrey Chipps Smith, 2011-11-29 Albrecht Dürer 1471-1528 perhaps the most famous of all German artists embodies the modern ideal of the Renaissance man; he was a remarkable painter, printmaker, draftsman, designer, theoretician, and even a poet. More is known about his thoughts and his life than about any other Northern European master of his time, since he wrote extensively about himself, his family's history, his travels, and his friends. His woodcuts and engravings were avidly collected and copied across Europe, and they quickly established his reputation as a master. Praised in life and eulogized in death by such thinkers as Martin Luther and Erasmus, he served Emperor Maximilian and other leading church and secular princes in the Holy Roman Empire. Although there is a vast specialized literature on the Nuremberg master, *The Essential Dürer* fills the need for a foundational book that covers the major aspects of his career. The essays included in this book, written by leading scholars from the United States and Germany, provide an accessible, up-to-date examination of Dürer's art and person, as well as his posthumous fame. The essays address an array of topics from separate and detailed studies of his paintings, drawings, printmaking, and sculpture to broader concerns such as his visits to and interactions with Venice and the Netherlands, his personal relationships, and his relationships with other artists. Collectively, these stimulating essays explore the brilliance of Dürer's creativity and the impact he had on his world, exposing him as an artist fully engaged with the tumultuous intellectual and religious challenges of his time.

The Dissemination of Saint George in Early Modern Art Alison C. Barker, 2025-02-10 Focusing on England, the German-speaking territories, and the Italian peninsula, this book examines how Saint George's image crossed boundaries and was disseminated. Alison Barker attempts to dissolve the boundary of the Alps through examination of images of Saint George, the travelling saint. She argues

that George's status as chivalric hero and Christian martyr made him uniquely qualified to cross boundaries in this way especially through the networks of courts and court culture Her research demonstrates how the highly recognisable iconography of Saint George's image meant something different depending on where he was represented and who was looking at him Through four case studies that examine how he was depicted and viewed across boundaries of space and media this book charts a multi layered cultural network linking different artists and audiences from three regions Each case study makes a claim about Saint George and how he acts and is used by four sections of society rulers artists corporate groups and the broad masses The book will be of interest to scholars working in art history religious history and Renaissance studies

Dürer's Knots Susan Dackerman, 2024-09-10 An important new examination of Islamic themes in the art of Albrecht Dürer Albrecht Dürer's depictions of Muslim figures and subjects are considered by many to be among his most perplexing images This confusion arises from the assumption that the artist and his northern European contemporaries regarded the Muslim Levant as an exotic faraway land inhabited by hostile adversaries not a region of neighboring empires affiliated through political and mercantile networks Susan Dackerman casts Dürer's art in an entirely new light focusing on prints that portray cooperation between the Muslim and Christian worlds rather than conflict and war enabling us to better understand early modern Europe through its visual culture In this beautifully illustrated book Dackerman provides new readings of three of the artist's most enigmatic print projects Sea Monster Knots and Landscape with Cannon situating them within historical contexts that reflect productive collaborations between Christendom and Islam from the artistic and commercial to the ideological and political Dackerman notes how Gutenberg's development of printing shares an inextricable relationship to the 1453 Ottoman siege of Constantinople While Gutenberg's workshop produced a call to crusade and other publications antagonistic to the Muslim East Dürer's prints she shows instead emphasize instances of affiliation between Christendom and Islam A breathtaking work of scholarship Dürer's Knots shows how the artist's prints of Muslim subjects give expression to the interconnectedness of Christian Europe and the Islamic East
