**Rocking the Classics** Edward Macan,1997-01-09 Few styles of popular music have generated as much controversy as progressive rock a musical genre best remembered today for its gargantuan stage shows its fascination with epic subject matter drawn from science fiction mythology and fantasy literature and above all for its attempts to combine classical music s sense of space and monumental scope with rock s raw power and energy Its dazzling virtuosity and spectacular live concerts made it hugely popular with fans during the 1970s who saw bands such as King Crimson Emerson Lake and Palmer Yes Genesis Pink Floyd and Jethro Tull bring a new level of depth and sophistication to rock On the other hand critics branded the elaborate concerts of these bands as self indulgent and materialistic They viewed progressive rock s classical rock fusion attempts as elitist a betrayal of rock s populist origins In *Rocking the Classics* the first comprehensive study of progressive rock history Edward Macan draws together cultural theory

musicology and music criticism illuminating how progressive rock served as a vital expression of the counterculture of the late 1960s and 1970s Beginning with a description of the cultural conditions which gave birth to the progressive rock style he examines how the hippies fondness for hallucinogens their contempt for Establishment approved pop music and their fascination with the music art and literature of high culture contributed to this exciting new genre Covering a decade of music Macan traces progressive rock's development from the mid to late sixties when psychedelic bands such as the Moody Blues Procol Harum the Nice and Pink Floyd laid the foundation of the progressive rock style and proceeds to the emergence of the mature progressive rock style marked by the 1969 release of King Crimson's album *In the Court of the Crimson King* This golden age reached its artistic and commercial zenith between 1970 and 1975 in the music of bands such as Jethro Tull Yes Genesis ELP Gentle Giant Van der Graaf Generator and Curved Air In turn Macan explores the conventions that govern progressive rock including the visual dimensions of album cover art and concerts lyrics and conceptual themes and the importance of combining music visual motif and verbal expression to convey a coherent artistic vision He examines the cultural history of progressive rock considering its roots in a bohemian English subculture and its meteoric rise in popularity among a legion of fans in North America and continental Europe Finally he addresses issues of critical reception arguing that the critics largely negative reaction to progressive rock says far more about their own ambivalence to the legacy of the counterculture than it does about the music itself An exciting tour through an era of extravagant mind bending and culturally explosive music *Rocking the Classics* sheds new light on the largely misunderstood genre of progressive rock

*No One to Meet* Raphael Falco, 2025-09-15 A groundbreaking appreciation of Dylan as a literary practitioner WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE The literary establishment tends to regard Bob Dylan as an intriguing if baffling outsider That changed overnight when Dylan was awarded the 2016 Nobel Prize in Literature challenging us to think of him as an integral part of our national and international literary heritage *No One to Meet* Imitation and Originality in the Songs of Bob Dylan places Dylan the artist within a long tradition of literary production and offers an innovative way to understand his unique and often controversial methods of composition Dylan expert Raphael Falco traces the similarities between the way Dylan borrows digests and transforms traditional songs and what Renaissance writers called imitatio Although Dylan's lyrical postures may suggest an avant garde consciousness *No One to Meet* shows that Dylan's creative process creatively expands methods used by classical and Renaissance authors Drawing on numerous examples including Dylan's previously unseen

manuscript excerpts and archival materials Raphael Falco illuminates how the ancient process of poetic imitation handed down from Greco Roman antiquity allows us to make sense of Dylan s musical and lyrical technique By placing Dylan firmly in the context of an age old poetic practice No One to Meet deepens our appreciation of Dylan s songs and allows us to celebrate him as what he truly is a great writer     *The Saturday Review of Politics, Literature, Science and Art* ,1870
