Vinci produced a string of operas during a brief career of little more than a decade. He died mysteriously. He was hailed by connoisseurs of the later 18th century as one of the originators of the classical style.

**An Album of 18th Century Venetian Operatic Caricatures Formerly in the Collection of Count Algarotti** Sybille Pantazzi, 1980      **Giambattista Tiepolo** Jon L. Seydl, 2005. Giambattista Tiepolo 1696-1770 was the greatest Italian painter of the eighteenth century, best known for his monumental frescoes and epic altarpieces. The scale of these paintings is immense, even overpowering. Yet some of Tiepolo's finest work can be found in the small oil sketches that he often made in preparation for these grand commissions. Published to coincide with an exhibition at the J. Paul Getty Museum, *Giambattista Tiepolo: Fifteen Oil Sketches* brings together a group of the artist's oil sketches from the Courtauld Institute in London that spans his entire career and reveals the amazing confidence and fluidity with which he created these paintings. The unusual intimacy of these preparatory sketches, made directly on the canvas with no preliminary underdrawing, reveals a great artist's vigorous imagination at work. The exhibit will run from May 3, 2005 to September 4, 2005. An introductory essay situates these works within the context of eighteenth-century art and Tiepolo's life and career.

Holmes provides a rare look behind the scenes into the world of early eighteenth-century Italian opera. Based on a rich store of newly recovered documents, mainly the personal papers of Luca Casimiro degli Albizzi, this social history illuminates the complexities of staging opera in the 1720s and 30s: the role of the impresario in planning an operatic season; financial and artistic difficulties; the importance of patronage; the power of individual singers and composers; considerations of set design; and the practice of altering librettos. A member of an illustrious Florentine family, Albizzi 1664-1745 served as one of the

principal impresarios of the Pergola Florence's earliest and greatest opera theater He also carried on an active correspondence with impresarios in other cities freely giving his advice on various economic and artistic concerns Holmes uses the Albizzi family archives the most abundant and varied material yet available about an eighteenth century impresario and his theater to deepen our knowledge of an extraordinary but little understood period in Italian opera This book will appeal to anyone curious about operatic history     Racar, Revue D'art Canadienne ,1981     *Holbein to Hockney* Martin Clayton,Royal Collection (Great Britain),2004 The Royal Library at Windsor Castle houses one of the world's greatest collections of drawings Collected by individual monarchs over the last five centuries they range from portraits by Hans Holbein recorded in the collection on the death of King Henry VIII in 1547 to drawings by contemporary artists such as David Hockney presented to and commissioned by The Queen during the current reign Charles II acquired an unrivalled group of studies by Leonardo da Vinci along with many other drawings by the artists of the Italian Renaissance George III purchased thousands of drawings by the greatest artists of the seventeenth and eighteenth centuries such as Poussin Bernini and Canaletto and Queen Victoria and Prince Albert commissioned many hundreds of watercolours as mementoes of their lives together     **Canadiana** ,1984     The Glory of Venice Jane Martineau,Andrew Robison,Royal Academy of Arts (Great Britain),National Gallery of Art (U.S.),1994-01-01 This text examines the whole range of the arts in Venice during the 18th century It includes paintings pastels and gouaches drawings watercolours prints sculpture furniture and other decorative arts together with essays considering major aspects of the art of the period     *Music, Books on Music, and Sound Recordings* Library of Congress,1983
