Alchemical Lectures for Free Masons, 2024-05-02. Previously circulated only among a select audience thanks to a single rare facsimile reproduction, 1979, these Lectures are translated and presented here for the first time to English-speaking readers in a completely renewed and restored edition aimed at making them finally accessible and consultable. Of paramount importance for Masonic education and the understanding of esoteric symbolism in general, they are truly intended for all Masonic degrees. These Lectures were not written solely to be read. On the contrary, the explicit intent was and remains to offer to the man of desire and good will, albeit profane, a series of real tools for spiritual growth and a sextant to navigate towards the true Light. Do not expect me to speak to you about the Square and Compass in the same way as you will find them described in many Masonic books. It will be entirely different. While I advise you to read these books that will make you Wise, I will endeavor to make you a Sage. R. B.

Secret Practices of the Sufi Freemasons Baron Rudolf von Sebottendorff, 2013-01-17. Reveals the secret spiritual exercises of the Bektashi Order of Sufis. Shows how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Explains how to transform the soul into the alchemical Magnum Opus by combining Masonic grips and the abbreviated letters of the Qur'an. Includes a detailed biography of Baron von Sebottendorff. Originally published in Germany in 1924, this rare book by Baron Rudolf von Sebottendorff reveals the secret spiritual exercises of the Bektashi Order of Sufis, as well as how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Sebottendorff explains how the mysterious abbreviated letters found in the Qur'an represent formulas for perfecting the spirit of the individual. When combined with Masonic hand signs and grips and conducted accordingly to a precise schedule, these formulas incorporate spiritual power into the body and transform the soul from its base state into a noble, godlike state, the Magnum Opus of the medieval alchemists. Laying out the complete program of spiritual exercises, Sebottendorff explains each abbreviated word formula in the Qur'an, the hand gestures that go with them, and the exact order and duration for each.

the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements lead by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis

The Magus of Freemasonry Tobias Churton, 2006-06-27 A comprehensive look at the life of Elias Ashmole who represents the historic missing link between operative and symbolic Freemasonry Explores the true role of occult and magical studies in the genesis of modern science Explains the full meaning of the term magus which Ashmole exemplified Elias Ashmole 1617 1692 was the first to record a personal account of initiation into Accepted Freemasonry His writings help solve the debate between operative and speculative origins of Accepted Freemasonry demonstrating that symbolic Freemasonry existed within the Masonic trade bodies Ashmole was one of the leading intellectual luminaries of his time a founding member of the Royal Society a fellowship and later academy of natural philosophers and scientists alchemist astrological advisor to the king and the creator of the world's first public museum While Isaac Newton regarded him as an inspiration Ashmole has been ignored by many conventional historians Tobias Churton's compelling portrait of Ashmole offers a perfect illustration of the true Renaissance figure the magus As opposed to the alienated position of his post Cartesian successors the magus occupied a place at the heart of Renaissance spiritual intellectual and scientific life Churton shows Ashmole to be part of the ferment of the birth of modern science a missing link between operative and symbolic Freemasonry and a vital transmitter of esoteric thought when the laws of science were first taking hold He was a man who moved with facility between the powers of earth and the active symbols of heaven

Freemason's Book of the Royal Arch Bernard E. Jones, *The Initiatory Path in Fairy Tales* Bernard Roger, 2015-06-15 Hidden within age old classic stories lie the hermetic teachings of alchemy and Freemasonry Explains how the stages of the Great Work are encoded in both little known and popular stories such as Cinderella Snow White and Little Red Riding Hood Reveals the connection between Mother Goose and important esoteric symbols of the Western Mystery tradition Demonstrates the ancient lineage of these stories and how they originated as the trigger to push humanity toward higher levels of consciousness In his *Mystery of the Cathedrals* the great alchemist Fulcanelli revealed the teachings of the hermetic art encoded in the sculpture and stained glass of the great cathedrals of Europe What he did for churches his disciple Bernard Roger does here for fairy tales Through exhaustive analysis of the stories collected by the Brothers Grimm Perrault and others Roger demonstrates how hermetic ideas especially those embodied in alchemy and Freemasonry can be found in fairy tales including such popular stories as Cinderella Snow White Sleeping Beauty and Little Red Riding Hood as well as the tales attributed to Mother Goose The goose has long been an important esoteric symbol in the Western Mystery

tradition The stories told under the aegis of Mother Goose carry these symbols and secrets concealed in what hermetic adepts have long called the language of the birds Drawing upon the original versions of fairy tales not the sanitized accounts made into children s movies the author reveals how the tales illustrate each stage of the Great Work and the alchemical iterations required to achieve them He shows how the common motif of a hero or heroine sent in search of a rare object by a sovereign before their wishes can be granted is analogous to the Masonic quest for the lost tomb of Hiram or the alchemist s search for the fire needed to perform the Great Work He also reveals how the hero is always aided by a green bird which embodies the hermetic understanding of the seed and the fruit By unveiling the secret teachings within fairy tales Roger demonstrates the truly ancient lineage of these initiatory stories and how they originated as the trigger to push humanity toward higher levels of consciousness
