Treatment Roland R. Watson, 2013-11-11 A major national goal is to improve the health of the populace while advancing our opportunities to pursue happiness Simultaneously there are both increasing health costs and increasing demands that more be accomplished with less financial support With the number of deaths attributable to drug abuse especially of tobacco in the US at about 250 000 per year the annual cost of drug addiction is over 150 billion Improved treatment methods can both reduce these costs and improve health by preventing the continued exposure of abusers to the toxic effects of alcohol and other drugs This fourth volume of Drug and Alcohol Abuse Reviews focuses on the strategies currently thought best for the treatment of drugs of abuse A variety of approaches to drug abuse treatment employ those psychosocial factors that are

known to influence drug use in youth and adults Although the main emphasis is on the treatment of illicit drug use a major cofactor in damaging the health of drug users is nicotine tobacco addiction whose treatment is also reviewed And the roles of learning and outpatient services are shown to affect treatment significantly Thus the problems confronted and solutions used in drug abuse treatment have here been analyzed in concise reviews that deal with the evidence for today s best hypotheses and conclusions Some emphasis is also placed on reviewing new compounds used to prevent cocaine and opioid dependence

Alton L. Blakeslee, 1952 **Narratives of Addiction** Kevin McCarron, 2022-01-03 Narratives of Addiction Savage Usury is the first book to argue in the face of more than a century s received wisdom that drug addiction and alcoholism are undoubtedly evidence of individual moral flaws However the sense of morality that underlies this book is completely severed from Christianity Instead it is influenced in particular by the writings of the nineteenth century German philosophers Arthur Schopenhauer and Frederick Nietzsche both of whom insisted that a genuine morality was actually incompatible with Christianity The sequence of chapters moves from addictions on the streets into rehab clinics and finally into the meetings of Alcoholics Anonymous and Narcotics Anonymous This is the first book to argue that the search for pleasure drives alcoholism

and drug addiction and not the numbing of pain Throughout the book I reject the claims of the medical profession as embodied by the American Medical Association that drug addiction and alcoholism are diseases and further argue that they do not have the authority to tell hundreds of millions of Americans that addiction is not a moral failing I also query throughout the book the claims of neuroscience psychology and the social sciences that addictions to alcohol and drugs are attributable to causes that their specific disciplines are best suited to understand I argue that there is nothing complex about addiction it is a simple behavioural disorder The language routinely employed to discuss addiction is similarly not complex just confused and so it is also the rhetoric of addiction discourse especially its use of simile metaphor and euphemism that this book evaluates
