Wiesen,2005-07-01 In what appears to be an accident a military transport making its approach to a small civilian airstrip plummets abruptly from the sky The official Air Force report reveals that a brief disruption in the airport s electrical power had occurred just before the crash The sudden loss of runway lighting the investigation concludes caused the pilot to lose his bearings It was a no brainer Case closed Or was it If it had been that simple why were the alarms resonating in the compulsive brain of Noel Parke New York regional director of the Department of Homeland Protection As Parke and his long term associate Hiram Willoughby dig deeper into the events immediately preceding the crash they begin to discover an inconsistency here and a contradiction there Suddenly their growing suspicions gain new life as Dr Natalie Bernard top scientist at the Energy Warfare Complex arrives on the scene with a shocking revelation What had brought down the plane she is convinced was not the darkened runway but an intense beam of microwave energy from an ultra advanced weapon that she herself had designed for the Air Force Someone probably on her own research team had stolen her blueprints and replicated the prototype And now the most sophisticated weapon on the planet was in the wrong hands In Times Square the lights begin to flicker But don t worry it s just a warning The Electrician wants tons of money or he ll shut off the lights everywhere for years at a time Noel Parke must find a way to stop him before the city plunges into a silent darkness from which it may never recover Silent Darkness is not science fiction It is a warning of what lies at the corner of today and tomorrow

**The Terrorist Trap, Second Edition** Jeffrey D. Simon,2001-12-07 The bombings of the Murrah Federal Building in Oklahoma City and of the World Trade Center in New York City have joined a long history of terrorists acts against the United States In this newly updated edition of his book Jeffrey Simon reaches back to the founding days of the Republic to tell a story that is both instructive and alarming Simon uncovers the dynamics of a deadly conflict that affects all Americans His in depth interviews with terrorists and their victims with reporters government officials and others bring to life a tale of presidents and terrorists media and society all entangled in a drama of international violence The Terrorist Trap traces the government response to terrorism from the days of Thomas Jefferson and the Barbary Pirates to William Jefferson Clinton s confrontation with homegrown terrorism It explores the terrorist trap the psychological political and social elements that make terrorism unlike any other conflict With the end of the Cold War and the defeat of Saddam Hussein s army in the Gulf War many believed that the threat of terrorism had been significantly reduced But Simon shows how terrorism grows out of political economic and social grievances that can never be fully resolved as events in Israel and elsewhere continue to demonstrate Living with terrorism will be an inescapable part of life in the twenty first century Simon
