Akira Volume 1 No 20 Revelations:

The Book of Revelation G. R. Beasley-Murray, 2010-07-01 Dr Beasley Murray has made a special study of the Revelation the notorious difficulties of which have challenged and fascinated him for many years An essential key to the understanding of its enigmatic character is the realization that it comes within the category of apocalyptic literature in which acknowledged symbols were used to disguise the real meaning According to the author that which to the uninitiated modern reader appears grotesque imagery spoke with power to John s fellow Christians Due weight is also given to the Christology of the book which the author sees as inseparable from its eschatology

The Abyss in Revelation Edward Gudeman, 2021-09-07 It is generally accepted that Revelation s heavenly scenes were intended to demonstrate that God continued to exercise his control even when the audience s experience might suggest otherwise In The Abyss in Revelation Edward Gudeman argues that even though the scenes of the underworld and its inhabitants are describing reality from the opposite perspective they declare God s sovereignty and power in an equally powerful way Examining the motif and imagery of the abyss and the sea in Old Testament New Testament Greco Roman and Second Temple Jewish writings Gudeman identifies traditions that John appropriates in Revelation in order to create his unique vision of the abyss Gudeman shows that the abyss and related concepts in Revelation are variously envisioned as the abode of evil creatures the place from which they exit and a prison that holds them captive In all of this John consistently demonstrates that God is in control of the activity of Satan and demonic beings and that their destruction is both planned and certain Original and convincing this volume sheds light on Revelation s message about how God responds to evil and advances our understanding of several interpretive problems related to the abyss and its inhabitants Biblical scholars especially will benefit from Gudeman s research

Revelation Craig R. Koester, 2014-09-30 In this landmark commentary Craig R Koester offers a comprehensive look at a powerful and controversial early Christian text the book of Revelation The author provides richly textured descriptions of the book s setting and language making extensive use of Greek and Latin inscriptions classical texts and ancient Jewish writings including the Dead Sea Scrolls Rather than viewing Revelation as world negating Koester focuses on its deep engagement with social religious and economic issues while addressing the book s volatile history of interpretation The result is a groundbreaking study that provides bold new insights and sets new directions for the continued appreciation of this text

40 Questions About the End Times Eckhard J. Schnabel, 2012-01-12 This contribution to the 40 Questions series continues the tradition of excellent research presented in accessible language and clear writing Designed for both students and general readers this resource helps them make sense of one of the Bible s most difficult topics Eckhard Schnabel a professor at a leading seminary and the author of several major works looks at the future of the world the church

and Israel the return of Jesus and the millennium and the final judgment He answers questions related to the rapture the 144 000 the identity of the two witnesses Armageddon how to interpret Revelation heaven and hell and so forth The result is an even handed treatment that avoids sensationalism and a newspaper headline approach to prophecy that is interpreting prophecy according to current events Rather Schnabel carefully studies the biblical text in light of its first century context and draws biblically based conclusions The Japan Christian Review ,1992 *A Heavenly Chorus* Justin Jeffcoat Schedtler,2014-10-30 The claim that Revelation s hymns function as did Classical tragic choral lyrics insofar as they comment upon or interpret the surrounding narrative has become axiomatic in studies of Revelation Justin Jeffcoat Schedtler marks an advance in this line of inquiry by offering an exegetical analysis of Revelation s hymns alongside a presentation of the forms and functions of ancient tragic choruses and choral lyrics Evaluating the hymns in light of the varieties and complexities of ancient tragic choruses he demonstrate that they are not best evaluated in terms of choral lyrics generally but in terms of dramatic hymns in particular insofar as they constitute mythological theological reflections on the surrounding narrative and function to situate the surrounding dramatic activity in a particular mythological theological contexts **Globalizing Asian Religions** Wendy Smith,Hirochika Nakamaki,Louella Matsunaga,Tamasin

Ramsay,2025-10-01 This book brings together the insights of theories of management and marketing to give an original view of the organizational dynamics of globalizing Asian New Religious Movements NRMs and established religions Seventeen authors in this collection have recast their data on individual Asian religions and social movements to focus on the way these organizations are managed in an overseas or global context by examining the structure organizational culture management style leadership principles and marketing strategies of the religious movements they had hitherto studied from the perspective of the sociology of religion or religious studies The book examines strategies for global proselytization and outcomes in a variety of local ethnographic contexts thus contributing to the scholarly work on the glocalization of religions

General Catalogue of Printed Books British Museum. Department of Printed Books,1971 **Revealing Masks** W. Anthony Sheppard,2001-02-01 W Anthony Sheppard considers a wide ranging constellation of important musical works in this fascinating exploration of ritualized performance in twentieth century music *Revealing Masks* uncovers the range of political didactic and aesthetic intents that inspired the creators of modernist music theater Sheppard is especially interested in the use of the exotic in techniques of masking and stylization identifying Japanese Noh medieval Christian drama and ancient Greek theater as the most prominent exotic models for the creation of total theater Drawing on an extraordinarily diverse and in some instances little known range of music theater pieces Sheppard cites the work of Igor Stravinsky Benjamin Britten Arthur Honegger Peter Maxwell Davies Harry Partch and Leonard Bernstein as well as Andrew Lloyd Webber and Madonna Artists in literature theater and dance such as William Butler Yeats Paul Claudel Bertolt Brecht Isadora Duncan Ida Rubenstein and Edward Gordon Craig also play a significant role in this study Sheppard poses

challenging questions that will interest readers beyond those in the field of music scholarship For example what is the effect on the audience and the performers of depersonalizing ritual elements Does borrowing from foreign cultures inevitably amount to a kind of predatory appropriation Revealing Masks shows that compositional concerns and cultural themes manifested in music theater are central to the history of twentieth century Euro American music drama and dance
