Аннотация. В статье рассматриваются проблемы современной философской антропологии. Несмотря на огромный накопленный материал в сфере антропологического знания, до сих пор остается открытой проблема постижения сущности человека. Ответ на вопрос о провозглашении и предмете философской антропологии на сегодняшний день остается открытым. Еще одна проблема современной философской антропологии – это классификация антропологических дисциплин. Однако вполне возможна подлинная наука, сводящая знания о человеке в некую систему более высокого уровня обобщения и абстракции. Философия как всеобщая наука выявляет принципиальные основания существования всякого объекта, в том числе объектов всех частных наук. Вопросы о сущности объектов частных наук находятся за пределами сфер компетенции этих наук. В рамках сферы своей компетенции частные науки не могут решать вопросы принципиального характера. Если специалист вплотную подходит к сущностным вопросам, у него нет иного пути, как мыслить по-философски, ибо он оказывается в сфере философских вопросов своей науки. Все науки, можно сказать, соединяются философскими вопросами вокруг основного вопроса философии – вопроса о мире, человеке и месте человека в мире.

Ключевые слова: антропологическая парадигма XXI века, предмет философской антропологии, единая наука о человеке.

ACTUAL PROBLEMS OF MODERN PHILOSOPHICAL ANTHROPOLOGY

lecturer, chair of philosophy

Abstract. The article deals with the problems of modern philosophical anthropology. Despite the huge accumulated material in the field of anthropological knowledge, the problem of understanding the essence of man is still open. The answer to the question of the origin and the subject of philosophical anthropology remains open till nowadays. Another problem of modern philosophical anthropology is the classification of anthropological disciplines. However, it is possible to have a genuine science that reduces knowledge of a person to a system of a higher level of generalization and abstraction. Philosophy as a universal science reveals the fundamental basis for the existence of any object, including the objects of all the special sciences. Questions about the nature of the objects of private sciences are outside the competence of these sciences. Within the scope of its competence, private sciences cannot solve fundamental issues. If an expert closely approaches the essential issues, he has no other way than to think philosophically, because he finds himself in the sphere of the philosophical questions of his science. All sciences, one may say, are connected by their philosophical questions around the main question of philosophy - the question of the world, man and the place of man in the world.

Keywords: anthropological paradigm of the 21st century, the subject of philosophical anthropology, the unified science of man.

Введение. Углубляя познание до оснований той или иной сферы реальности, самые разные науки приходят к тому, что так или иначе ставят вопрос о человеке. Сказанное относится не только к наукам, непосредственно имеющим человека в качестве объекта, но и к «наукам о природе». Прогнание по пути познания ускоряется в той мере, в какой человек начинает выстраиваться в объект познания, преобразовывая его. В результате природные объекты, вовлеченные в сферу преобразования, приобретают человеческую размерность. Специфика познания такого объекта, как человек, в том, что он, как целостность, не может быть постигнут по какому-то одному или даже по нескольким измерениям. Важнейшая методологическая трудность состоит в том, что приходится иметь дело не просто с меняющимся объектом, но с объектом, который, преобразовывая среду, изменяет и себя, развивая в процессе преобразования свою собственную сущность. Не случайно многочисленные попытки определить «человеческую природу» в различных учениях философской антропологии не только не дали общепризнанных результатов, но возбудили закономерные сомнения в состоятельности философской антропологии, как дисциплины, способной интегрировать разрастающееся многомерное знание о человеке.

Основная часть. Если философская антропология будет традиционно пониматься как философская дисциплина, предмет которой – «природа человека», то философская антропология не только не сможет выступить в роли интегратора знаний о человеке, то есть как знание о целостном человеке, но и вообще будет вынуждена перманентно доказывать обоснованность своего существо-

вания, как особой дисциплины.

Вопрос о том, что такое человек, не тождественен вопросу о человеческой природе, и поэтому на него нельзя ответить формально-логическим способом – путем перечисления признаков. Говоря о человеке, мы имеем дело с универсальным объектом. Удавая мир в ходе преобразующей деятельности, человек создает «вторую природу» – искусственную среду и социальный мир, обретает способность к научному, объективному мышлению, к тому, чтобы усматривать сущность любого объекта, и открывает в себе внутреннее идеальное удвоение-сознание.

Несмотря на огромный накопленный материал в сфере антропологического знания, до сих пор остается открытой проблема постижения сущности человека. Невозможность постижения сущности человека традиционно-научным путем и путем философского анализа отмечали многие, как в прошлом, так и в современности. Человек, являясь загадкой для самого себя, не останавливаясь на достигнутом, продолжает свой путь постижения собственной сущности, своей природы.

В результате значительной дифференциации процесса познания и углубления специализации в сфере философии и науки возникает необходимость разработки проблемы понимания человека, как уникальной биосоциокультурной системы в ее целостном бытии. Современная организация социального бытия человечества, а также современный тип культуры требуют научного осознания места человека в мире. На сегодняшний день, человечество все так же далеко от завершения построения единой системы знаний о человеке. Однако
