Econoclasts Brian Domitrovic, 2023-10-03 The history we can t afford to forget At last the definitive history of supply side economics an incredibly timely work that reveals the foundations of America s prosperity when those very foundations are under attack In the riveting groundbreaking book Econoclasts historian Brian Domitrovic tells the remarkable story of the economists journalists Washington staffers and ultimately politicians who showed America how to get out of the 1970s stagflation and ushered in an unprecedented quarter century run of growth and opportunity Based on the author s years of archival research Econoclasts is a masterful narrative history in the tradition of Amity Shlaes s The Forgotten Man and John Steele Gordon s An Empire of Wealth **Shelbourne FC - the 2005 Season in verse** Peter Goulding, 2013-09-15 The 2005 League of Ireland season was another epic Champions Shelbourne had a mid season slump despite having strengthened the squad arch rivals Shamrock Rovers were deducted 8 points for being millions in debt Cork lost Dolan but gained Rico and snatched the title from Derry on the last day of the season the Superdrogs won the Cup and Rico lost his hat All these events and more were recorded by Peter Goulding in verse form at the time Sadly he has now decided to publish them *British Art in the Nuclear Age* Catherine Jolivet, 2017-07-05 Rooted in the study of objects British Art in the Nuclear Age addresses the role of art and visual culture in discourses surrounding nuclear science and technology atomic power and nuclear warfare in Cold War Britain Examining both the fears and hopes for the future that attended the advances of the nuclear age nine original essays explore the contributions of British born and gr rtists in the areas of sculpture textile and applied design painting drawing photo journalism and exhibition display Artists discussed include Francis Bacon John Bratby Lynn Chadwick Prunella Clough Naum Gabo Barbara Hepworth Peter Lanyon Henry Moore Eduardo Paolozzi Peter Laszlo Peri Isabel Rawsthorne Alan Reynolds Colin Self Graham Sutherland Feliks Topolski and John Tunnard Also under discussion is new archival material from Picture Post magazine and the Festival of Britain Far from insular in its concerns this volume draws

upon cross cultural dialogues between British and European artists and the relationship between Britain and America to engage with an interdisciplinary art history that will also prove useful to students and researchers in a variety of fields including modern European history political science the history of design anthropology and media studies **Class Dismissed** John Marsh,2011-07-01 In Class Dismissed John Marsh debunks a myth cherished by journalists politicians and economists that growing poverty and inequality in the United States can be solved through education Using sophisticated analysis combined with personal experience in the classroom Marsh not only shows that education has little impact on poverty and inequality but that our mistaken beliefs actively shape the way we structure our schools and what we teach in them Rather than focus attention on the hierarchy of jobs and power where most jobs require relatively little education and the poor enjoy very little political power money is funneled into educational endeavors that ultimately do nothing to challenge established social structures and in fact reinforce them And when educational programs prove ineffective at reducing inequality the ones whom these programs were intended to help end up blaming themselves Marsh s struggle to grasp the connection between education poverty and inequality is both powerful and poignant The Philosophy of Taxation and Public Finance Robert W. McGee,2011-06-27 Most public finance books are texts which are aimed at undergraduate or graduate students They are overly technical in nature and appeal only to a narrow range of bureaucrats and academics Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients Philosophy books on taxation or public finance simply do not exist The Philosophy of Taxation and Public Finance is different It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights He discusses questions such as What arguments have been used to justify taxation When is tax evasion unethical Are some taxes better than others What are the proper functions of government How much is enough Is the ability to pay concept valid When can punitive taxes be justified **Fundamental Tax Changes Needed to Unleash America's Small Businesses** United States.
