The Tenderness of Silent Minds Martha C. Nussbaum, 2024 The Tenderness of Silent Minds presents Benjamin Britten's musical representations of the body amidst the brutality of war and their ability to transform consciousness by evoking potent non personal emotions It also highlights Britten's notions about the value and beauty of the body in correlation with his partnership with singer Peter Pears his lover Technical musicological analysis within philosophical accounts of the aesthetics of the musical portrayal of war and the ethics of pacifism allowed a compelling framework for critically assessing Britten's oeuvre Moreover the perspectives from Britten's letters help highlight the social and political backdrop of fear and homophobic disgust in mid twentieth century Britain The Tenderness of Silent Minds also focuses on how War Requiem confronted listeners with the reality of bodily experience in war eliciting compassion through its depiction of beauty vulnerability and eroticism

Children in Opera Andrew Sutherland, 2020-12-03 This book provides a musicological investigation into operas that include children Just over 100 works have been selected here for an in depth discussion of the composer the children and the productions and around 250 relevant works from around the world are also referenced Four composers to have most significantly proliferated the medium are discussed in even greater detail Cui Benjamin Britten Gian Carlo Menotti and Peter Maxwell Davies Since opera began it has been inextricably linked to society by reflecting and shaping our culture through music and narrative and as a result children have been involved Despite the contribution they played for several centuries their importance was overlooked By tracing the development of children's participation in opera this book uncovers the changing attitudes of composers towards them and how this was reflected in the wider society From the early productions of the seventeenth century to those of the twenty first century the operatic children's role has undergone a fundamental change It almost seems that contemporary composers of operas view the inclusion of children in some way as ubiquitous The rise of the children's opera chorus and the explosion of children's only productions attest to the changing view of the value they can bring to the art Some of the children to have characterised these roles are discussed in this book in order to redress the disproportionate lack of acknowledgement they often received for their performances

spread of music festivals were the agents of change Born in 1913 Benjamin Britten was well placed to take advantage of these market forces which he did consistently and skilfully from the 1930s onwards His relationships with Boosey and Hawkes Decca Covent Garden the Aldeburgh Festival the English Opera Group and the Arts Council had a huge influence on the music he wrote This book explores the effect of these commercial and national institutions on the music of one of the foremost British composers of the twentieth century
