*Alberta's Local Governments: Politics and Democracy* Jack Masson, Edward C. LeSage, 1994 During the last decade Alberta municipalities have endured hardships they have not faced since the Great Depression Changes in the province s political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities yet surprisingly few municipal politicians have resisted the province s financial policies **High River and the Times** Paul Voisey, 2004-01-30 Founded in 1905 the High River Times served a community of small town advertisers and an extensive hinterland of ranchers and farmers in southern Alberta Under the ownership of the Charles Clark family for over 60 years the Times established itself as the epitome of the rural weekly press in Alberta Even Joe Clark the future prime minister worked for the family business While historians rely heavily on local newspapers to write about rural and small town life Paul Voisey has studied the influence of the Times on shaping the community of High River Foreword by Rt Hon Joe Clark PC CC An Administrative History of the Government of Alberta, 1905-2005 Alberta, Provincial Archives of Alberta, 2006 **Microlog, Canadian Research Index** , 1987 An index and document delivery service for Canadian report literature **Publications Catalogue** Alberta. Congress. House. Committee on Small Business. Subcommittee on Regulation, Business Opportunities, and Energy, 1992 **Report [s] Submitted to the Government of Saskatchewan** Saskatchewan. Royal Commission on Agriculture and Rural Life, 1955 **A Good War** Seth Klein, 2020-09-01 This is the roadmap out of climate crisis that Canadians have been waiting for Naomi Klein activist and New York Times bestselling author of *This Changes Everything* and *The Shock Doctrine* One of Canada s top policy analysts provides the first full scale blueprint for meeting our climate change commitments Contains the results of a national poll on Canadians attitudes to the climate crisis Shows that radical transformative climate action can be done while producing jobs and reducing inequality as we retool how we live and work Deeply researched and targeted specifically to Canada and Canadians while providing a model that other countries could follow Canada needs to reduce its greenhouse gas emissions by

50% to prevent a catastrophic 1.5 degree increase in the earth's average temperature assumed by many scientists to be a critical danger line for the planet and human life as we know it. It's 2020 and Canada is not on track to meet our targets. To do so we'll need radical systemic change to how we live and work and fast. How can we ever achieve this? Top policy analyst and author Seth Klein reveals we can do it now because we've done it before. During the Second World War Canadian citizens and government remade the economy by retooling factories transforming their workforce and making the war effort a common cause for all Canadians to contribute to. Klein demonstrates how wartime thinking and community efforts can be repurposed today for Canada's own Green New Deal. He shares how we can create jobs and reduce inequality while tackling our climate obligations for a climate neutral or even climate zero future. From enlisting broad public support for new economic models to job creation through investment in green infrastructure Klein shows us a bold practical policy plan for Canada's sustainable future. More than this *A Good War* offers a remarkably hopeful message for how we can meet the defining challenge of our lives. COVID-19 has brought a previously unthinkable pace of change to the world one which demonstrates our ability to adapt rapidly when we're at risk. Many recent changes are what Klein proposes in these very pages. The world can actually turn on a dime if necessary. This is the blueprint for how to do it. **Alberta's Local Governments** Walter Walchuk, 1987 **Out of Place** Luann Good Gingrich, 2016-01-01 In *Out of Place* Luann Good Gingrich explores social inclusion and exclusion in relation to the approximately 60,000 Low German speaking Mennonites who have migrated from isolated agricultural colonies in Latin America to rural areas of Canada. *The Canadian Encyclopedia* James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest most comprehensive book ever published in Canada for the general reader. It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here. It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE. Every entry is compiled by an expert. Equally important every entry is written for a Canadian reader from the Canadian point of view. The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian Home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to

national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants, the roughly 4 000 Contributors, all experts in the field they describe, and the scores of researchers, editors, typesetters, proofreaders, and others who contributed their skills to this massive project. The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words, making it the largest, some might say the greatest Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the 23 major Canadian cities, maps of our cities, a variety of tables and photographs, and finely detailed illustrations of our wildlife, not to mention the colourful, informative endpapers. But above all, the book is encyclopedic, which the Canadian Oxford Dictionary describes as embracing all branches of learning. This means that, with rare exceptions, there is satisfaction for the reader who seeks information on any Canadian subject. From the first entry, *A mari usque ad mare* (from sea to sea), which is Canada's motto, and a good description of this volume's range, to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy, there is the required summary of information, clearly and accurately presented. For the browser, the constant variety of entries and the lure of regular cross references will provide hours of fascination. The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge. Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known. Yet now Canada's finest scientists, academics, and specialists have distilled their knowledge of our country between the covers of one volume. The result is a book for every Canadian who values learning and values Canada.
