## **Album Of World War II:**

*World War II Home Fronts* Don Lawson, 1980      **Photograph Album of World War II.** Mediterranean Allied Air Forces, Allied Forces. Supreme Headquarters, 1944      **World War II for Kids** Richard Panchyk, 2005-11-01 Now more than ever kids want to know about our country's great struggles during World War II. This book is packed with information that kids will find fascinating from Hitler's rise to power in 1933 to the surrender of the Japanese in 1945. Much more than an ordinary history book, it is filled with excerpts from actual wartime letters written to and by American and German troops, personal anecdotes from people who lived through the war in the United States, Germany, Britain, Russia, Hungary, and Japan, and gripping stories from Holocaust survivors, all add a humanizing global perspective to the war. This collection of 21 activities shows kids how it felt to live through this monumental period in history. They will play a rationing game or try the butter extender recipe to understand the everyday sacrifices made by wartime families. They will try their hands at military strategy in coastal defense, break a code, and play a latitude and longitude tracking game. Whether growing a victory garden or staging an adventure radio program, kids will appreciate the hardships and joys experienced on the home front.

**Prologue**, 1990      *Diverse Voices in Photographic Albums* Mary Trent, Kris Belden-Adams, 2022-07-29 Through a variety of case studies by global scholars from diverse academic fields, this book explores photographic album practices of historically marginalized figures from a range of time periods, geographic locations, and socio-cultural contexts. Their albums' stories span various racial, ethnic, gender, and sexual identities, nationalities, religions, and disabilities. The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories. Essays examine the visual material and aural strategies that album makers have used to assert control over the presentation of their histories and identities and to direct what those narratives have to say, a point of special relevance as these albums move out of private domestic space and into public archives, institutions, and digital formats. This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self-expression and narrative building that co-evolved and were readily accessible. The book will be of interest to scholars working in art history, history of photography, visual culture, material culture, media studies, and cultural studies.
