Literatures of Alchemy in Medieval and Early Modern England Eoin Bentick, 2022 Explores the myriad ways in which alchemy was conceptualised by adepts and sceptics alike from those with recourse to a fully functioning laboratory to those who did not know their pelican from their athanor The language of alchemy the art of transmuting metals and manufacturing pharmaceutical medicine is defined by obscure imagery authorial play and dense knottiness tempting curious readers to unpick its

impenetrable promises From the fourteenth to the seventeenth century alchemical literature was read interpreted and reimagined both by those with recourse to a fully functioning laboratory and those who did not know their pelican from their athanor Recent studies by historians of science have succeeded in decoding the difficult language of these texts revealing the replicable chemical procedures behind their metaphors However as a literary investigation of alchemy this book explores more fluid understandings of the art in the period Through an analysis of medieval and early modern texts and manuscript cultures the volume explores the myriad ways in which alchemy was conceptualised in this period by adept and sceptic alike From Geoffrey Chaucer s mockery of the impotence of alchemical pryvetee in *The Canterbury Tales* and John Gower s macrocosmic hope for societal amelioration in the *Confessio Amantis* to Elias Ashmole s angelic alchemy in the *Theatrum chemicum britannicum* it explores the natural philosophy that underpinned such diverse representations of this sliding science proffering a theory of alchemical hermeneutics as a conspiratorial way of reading that sees alchemy in all

The Production of Personal Life Joel

Pfister,1991 This book aims both to demystify and to reconstitute Hawthorne as an object of study by rereading Hawthorne's fictions mainly those from the early 1840s to 1860 in the context of the emergence of a distinctively middle class personal life the domestic emotional revolution that accompanied the industrial revolution Recent histories of middle class private life gender the body and sexuality now enable us to bring a more encompassing grasp of history to our reading of the psychological in Hawthorne's writing Rather than taking the conventional view that Freud explains Hawthorne's psychological themes the author draws on the history of personal life to suggest that mid century psychological fictions help historically to account for the surfacing of a bourgeois Freudian discourse later in the century The production of Personal Life also asks why it was that women in mid century fiction especially that written by men were represented as psychological targets of male monomaniacs in the home By connecting the enforcement of middle class feminine roles to psychological tension between the sexes Hawthorne's fiction at times implicitly critiques the sentimental construction of gender roles on which the economic and cultural ascendancy of his class relied

Helvetius Price and Semler and much more Ranging over two millennia of alchemical history Mr Holmyard shows how like astrology and witchcraft alchemy was an integral part of the pre scientific moral order arousing the cupidity of princes the blind fear of mobs and the intellectual curiosity of learned men Eventually however with the advent and ascension of the scientific method the hopes and ideas of the alchemists faded to the status of pseudo science That transformation as well as alchemy s undeniable role as a precursor of modern chemistry are brilliantly illuminated in this book Students of alchemy chemistry the history of science and the occult plus anyone interested in the origin and evolution of one of mankind s most enduring and influential myths will want to have a copy of this masterly study *Light on the Cloud; Or, Hints of Comfort for Hours of Sorrow* Minot Judson Savage, 1876
