Airman At The Helm:

Airman at the Helm Eric Blackman, 2006-07 Bombing up a Catalina flying boat I was promoted to deck hand on bomb scow 34 During bad weather aircraft were towed into the shelter of the harbour mouth and moored to replenish depth charges On one such occasion scow 34 was completing delivery of four charges under the instruction of two bomb armourers As the charge was winched and secured to its rack under the aircraft's wing the fusing device was connected This looked like a large wire paper clip When the charge was released a plunger in the shape of a car piston and piston rod was left hanging under the wing on the end of the paper clip the charge falling seaward fully armed Moments before the last charge was secured in the rack it slipped off the winch wire onto the chest of an attendant armourer The crew watched charge and armourer disappear over the side with a splash and became aware of the piston rattling loose overhead They cringed for a few seconds awaiting the expected explosion beneath their feet **Airman** ,1995 **Airman's Guide** ,1946 *Once in a blue moon : airmen in theater command...* , *Popular Mechanics* ,1933-07 *Popular Mechanics* inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **Airmen and air theory a review of the sources** Phillip S. Meilinger, 2001 This part of the book reviews the state of American airpower biography and autobiography I have set certain parameters to define the boundaries of my discussion I discuss biographies and autobiographies anthologies and oral histories of military officers who served in senior positions Thus although the stories of great aviators like Eddie Rickenbacker Charles Lindbergh and Chuck Yeager are important those men did not command large forces either in combat or in peace they had only a temporary effect on the development of strategy and doctrine Similarly excluded are civilian political leaders and industrialists like Stuart Symington and Donald Douglas even though they played key roles In their own spheres What follows are the stories some published some not of America's greatest military airmen some told by themselves others by biographers The order of presentation is roughly chronological according to the time during which these men served The fact that a surprising number of air luminaries do not appear here means that much work remains to be done **Burroughs Clearing House** ,1946 **Air Bridge** United States.
