Alaska Japan Perspectives Of Past:

The Alaska Journal, 1973 Alaska and Japan Tsuguo Arai, 1972 Collection of essays on the respective histories and cultures of Alaska and Japan The purpose is to compare and contrast the regions and to point out that geographic proximity and mutual economic need make Japan and Alaska natural trading partners *The Cross and the Rising Sun* A. Hamish Ion, 2006-01-01 Drawing on both Canadian and Japanese sources this book investigates the life work and attitudes of Canadian Protestant missionaries in Japan Korea and Taiwan the three main constituent parts of the pre 1945 Japanese empire from the arrival of the first Canadian missionary in East Asia in 1872 until 1931 Canadian missionaries made a significant contribution to the development of the Protestant movement in the Japanese Empire Yet their influence also extended far beyond the Christian sphere Through their educational social and medical work their role in introducing new Western ideas and social pursuits and their outspoken criticism of the brutalities of Japanese rule in colonial Korea and Taiwan the activities of Canadian missionaries had an impact on many different facets of society and culture in the Japanese Empire Missionaries residing in the Japanese Empire served as a link between citizens of Japan and Canada and acted as trusted interpreters of things Japanese to their home constituents Concord and Conflict Norman E. Saul, 1996 Between 1867 the year of the Alaskan purchase and the beginning of World War I Russian and American dignitaries diplomats businessmen writers tourists and entertainers crossed between the two countries in surprisingly great numbers Concord and Conflict provides the first comprehensive investigation of this highly transformational and fateful era in Russian American relations Excavating previously unmined Russian and American archives Norman Saul illuminates these fifty significant and open years of association between the two countries He explores the flow and fluctuation of economic diplomatic social and cultural affairs the personal and professional conflicts and scandals and the evolution of each nation's perception of the other

Global Ecology in Historical Perspective Kazunobu Ikeya, William Balée, 2023-03-10 This book primarily examines human animal and human plant interactions in Asian forests Southeast Asia and Japan and inland waters China For comparison cases from the Americas whales in the Arctic sea turtles in the Caribbean and plants in the Amazon and Central Asia are also included The relationship between plants animals and humans in Asia is quite unique from a global perspective For example satoyama in Japan means ecotone area or the boundary between a village and a forest There as the number of inhabitants declines bears wild boars and other animals increasingly ravage crops sometimes attacking humans as well By showing the regional nature of human animal and human plant interactions in Asia this book provides for the first time a framework for understanding the world's animal and plant human relationships It is assumed that the relationships between humans and animals and plants during this period were diverse including hunting taming semi domestication and full domestication At the same time for regions outside of Asia the extent to which these diverse relationships were adapted and how diversity was formed is explained from the perspective of historical ecology Customers can expect to derive perspectives

on the coexistence of human animal and plant animal relationships from this book in the near future The conservation of rare species diverse habitats and biodiversity is a central theme in considering the relationship between modern civilization and the global environment In post industrial Japan one focus has been the protection of iconic animals such as storks crested ibis dugongs and sea turtles while damage to crops and humans by deer wild boars monkeys bears and other common animals has become an important social issue How can the world s 7 7 billion plus people live in harmony with other species We would like to get some hints on how to solve the problems we are facing History of Alaska , Volume II Jonathan M. Nielson, Ph.D.,2018-03-01 The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska s strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska s strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada s West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska s military vulnerability Between 1933 and 1944 no one was more adamant than Alaska s Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one pacific base Hawaii while ignoring another Alaska Dimond s campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation s six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortuitously for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was

replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war *Oregon Historical Quarterly* Oregon Historical Society,1990 **Alaska at**
