Salmon, 2009 Brookgreen Gardens expansive property exhibits the finest outdoor collection of American figurative sculpture in the world It began in 1930 as a winter home for philanthropist Archer Milton Huntington and his wife sculptor Anna Hyatt Huntington When the Huntingtons founded Brookgreen Gardens in the following year they initially placed artworks from their own collection By 1932 they had begun to actively purchase sculpture and to commission prominent sculptors to create works for the gardens This volume portrays Brookgreens beginning as the first public sculpture garden in America and its rise as a respected museum of American sculpture In 1992 it was designated a National Historic Landmark recognizing Anna Hyatt Huntingtons status as an important sculptor and patron of the arts and Brookgreens significance as a site for womens history in America

Of Good Character James Arthur, 2015-10-19 There has been across the world a resurgence of interest in values education values education is known internationally by a number of names at school education research and policy levels In Australia the Australian Values Education projects led to the government initiating a number of large scale curriculum developments and resources projects as part of its expressed policy to introduce values education programmes in all schools UNESCO has its own values education programme entitled Living Values that functions in 84 countries In the United Kingdom the introduction of the National Curriculum in England has led to a major effort to develop what is variously described as a moral or ethical perspective In England the education of the moral child has been both an underpinning aspiration of the National Curriculum and a focus of particular curricular subjects most notably citizenship education The purpose of this book is to make a contribution to this emerging field and to do so in two ways First it presents a substantial body of empirical evidence the results of the largest UK study to date of what parents pupils and teachers are thinking and doing in the area of moral education and more specifically character education Second it seeks to elucidate more clearly what those involved in the debate mean by the terms used The terms used in relation to moral and character education are not fixed and are sometimes used apparently in different senses by different contributors and for different purposes As a result of these two features the present work offers some suggestions about possible ways forward in developing concrete

proposals for moral education in particular in identifying an appropriate language that can be used by practitioners in situations on the ground

Haunt Hunter's Guide to Florida Joyce Elson Moore, 1998-03 With its extensive and often turbulent history Florida is a fitting home to some restless spirits Author Joyce Moore has traveled around the state and gathered stories about strange happenings and ghostly presences Not only historic homes but also theatres parks and cultural centers are the focus of some hauntings You will find each sites history and character its haunt history which includes interviews with owners and caretakers and nearby attractions and facilities for those brave enough to explore these supernatural occurrences more closely

Archaism, Modernism, and the Art of Paul Manship Susan Rather, 1993 Archaism an international artistic phenomenon from early in the twentieth century through the 1930s receives its first sustained analysis in this book The distinctive formal and technical conventions of archaic art especially Greek art particularly affected sculptors some frankly modernist others staunchly conservative and a few who like American Paul Manship negotiated the distance between tradition and modernity Professor Susan Rather considers the theory practice and criticism of early twentieth century sculpture in order to reveal the changing meaning and significance of the archaic in the modern world To this end and against the background of Manship's career she explores such topics as the archaeological resources for archaism the classification of the non Western art of India as archaic the interest of sculptors in modern dance Isadora Duncan and Ruth St Denis and the changing critical perception of archaism Rather rejects the prevailing conception of archaism as a sterile and superficial academic style to argue its initial importance

as a modernist mode of expression The early practitioners of archaism including Aristide Maillol Andre Derain and Constantin Brancusi renounced the rhetorical excess overrefined naturalism and indirect techniques of late nineteenth century sculpture in favor of nonnarrative stylized and directly carved works for which archaic Greek art offered an important example Their position found implicit support in the contemporaneous theoretical writings of Emmanuel Lowy Wilhelm Worringer and Adolf von Hildebrand The perceived relationship between archaic art and tradition ultimately compromised the modernist authority of archaism and made possible its absorption by academic and reactionary forces during the 1910s By the 1920s Paul Manship was identified with archaism which had become an important element in the aesthetic of public sculpture of both democratic and totalitarian societies Sculptors often employed archaizing stylizations as ends in themselves and with the intent of evoking the foundations of a classical art diminished in potency by its ubiquity and obsolescence Such stylistic archaism was not an empty formal exercise but an urgent affirmation of traditional values under siege Concurrently archaism entered the mainstream of fashionable modernity as an ingredient in the popular and commercial style known as Art Deco Both developments fueled the condemnation of archaism and of Manship its most visible exemplar by the avant garde Rather s exploration of the critical debate over archaism finally illuminates the uncertain relationship to modernism on the part of many critics and highlights the problematic positions of sculpture in the modernist discourse The first book length study of archaism and the first critical study of Paul Manship this work will be important reading in several fields including American studies and twentieth century art history Numerous black and white illustrations complement the text
