Research Issues applies the building blocks of informing science described in Volume One Concepts and Systems to design and research questions. It begins by looking at alternative approaches to informing system design. These include structured methodologies, agile approaches, effectuation, and emergent models. A series of chapters follows that present research findings related to a series of topics that have played an important role in the development of informing science as a research area. These include the relationship between rigor and research methods, threats to informing such as misinformation and disinformation, the nature of informing, impact, information cascades, the relationship of culture to informing, and the research practice gap. The book concludes with a chapter that considers possible extensions to the current informing science research agenda and an afterword that presents the author's reflections on the development of the series and its long-term future.

Timescapes of Modernity Barbara Adam, 2005-08-18 Timescapes of Modernity explores the relationship between time and environmental and socio-cultural concerns. Using examples such as the BSE crisis, the Sea Empress oil pollution, and the Chernobyl radiation, Barbara Adam argues that environmental hazards are inescapably tied to the successes of the industrial way of life. Global markets and

economic growth large scale production of food the speed of transport and communication the 24 hour society and even democratic politics are among the invisible hazards we face With this unique timescape perspective the author dislodges assumptions about environmental change enables a rethinking of environmental problems and provides the potential for new strategies to deal with environmental hazards

Challenges to Authority Peter Elmer, 2000-01-01 The evolution and reception of the Renaissance was mediated by developments in various other spheres of early modern life and culture Foremost among these were the religious changes initiated by the Protestant Reformation which are discussed in the opening chapters of this book Religious and cultural developments in Germany are contrasted with sixteenth century Spain and are further explored through the study of the picaresque novel Lazarillo de Tormes Subsequent chapters explore the Renaissance fascination with witchcraft and demonology in both learned discourse Pico's *Strix* and popular drama *The Witch of Edmonton* The volume concludes with a study of one of the most influential and provocative writers of the sixteenth century Michel de Montaigne whose *Essays* provide stimulating material for a reassessment of the impact of the Renaissance on contemporary thought
