Alcohol in Ancient Mexico Henry J. Bruman, 2000 Previously unpublished the research presented here retains its relevance today and the photographs offer a fascinating glimpse at a traditional world that has now almost vanished BOOK JACKET [Alcohol and Nationhood in Nineteenth-Century Mexico](#) Deborah Toner, 2015 Drawing on an analysis of issues surrounding the consumption of alcohol in a diverse range of source materials including novels newspapers medical texts and archival records this lively and engaging interdisciplinary study explores sociocultural nation building processes in Mexico between 1810 and 1910 Examining the historical importance of drinking as both an important feature of Mexican social life and a persistent source of concern for Mexican intellectuals and politicians Deborah Toner's *Alcohol and Nationhood in Nineteenth Century Mexico* offers surprising insights into how the nation was constructed and deconstructed in the nineteenth century Although Mexican intellectuals did indeed condemn the physically and morally debilitating aspects of excessive alcohol consumption and worried that particularly Mexican drinks and drinking places were preventing Mexico's progress as a nation they also identified more culturally valuable aspects of Mexican drinking cultures that ought to be celebrated as part of an authentic Mexican national culture The intertwined literary and historical analysis in this study illustrates how wide ranging the connections were between ideas about drinking poverty crime insanity citizenship patriotism gender sexuality race and ethnicity in the nineteenth century and the book makes timely and important contributions to the fields of Latin American literature alcohol studies and the social and cultural history of nation building

Drinking, Homicide, and Rebellion in Colonial Mexican Villages William B. Taylor, 1979 This study analyzes the impact of Spanish rule on Indian peasant identity in the late colonial period by investigating three areas of social behavior Based on the criminal trial records and related documents from the regions of central Mexico and Oaxaca it attempts to discover how peasants conceived of their role under Spanish rule how they behaved under various kinds of street and how they felt about their Spanish overlords In examining the character of village uprisings typical relationships between killers and the people they killed and the drinking patterns of the late colonial period the author finds no warrant for the familiar picture of sullen depredation and despair Landed peasants of colonial Mexico drank moderately on the whole and mostly on ritual occasions they killed for personal and not political reasons Only when new Spanish encroachments threatened their lands and livelihoods did their grievances flare up in rebellion and these occasions were numerous but brief The author bolsters his conclusions with illuminating comparisons with other peasant societies

to discover how the individual pleasures of consumption were shaped by social cultural economic and political forces Focusing on ingestible substances as a group which has not been done before in the scholarly literature the chapters in Substance and Seduction trace three key links between colonization and commodification First as substances that were taken into the bodies of both colonizers and colonized these foods and drugs participated in unexpected connections among sites of production and consumption racial and ethnic categories and free forced and enslaved labor regimes Second as commodities developed in the long transition from mercantile to modern capitalism each substance in some way drew its enduring power from its ability to seduce to stimulate bodies to alter minds to mark class social and ethnic boundaries and to generate wealth Finally as objects of scholarly inquiry each substance rewards interdisciplinary approaches that balance the considerations of pleasure and profit materiality and morality and culture and political economy
