Aleph And Other Stories:

The Aleph and Other Stories Jorge Luis Borges, 2004-07-27 Twenty fictional pieces survey the depth and range of the distinguished Argentine writer's forty year career as he journeys inside the minds of an unrepentant Nazi an imprisoned Maya priest fanatical Christian theologians a man awaiting his assassin and a woman plotting vengeance on her father's killer

Detecting Texts Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to *Detecting Texts* contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include Stephen Bernstein Joel Black John T Irwin Jeffrey T Nealon and others [Jorge Luis Borges' The Aleph & Other Stories \(ELL\)](#), 2009

Murder on the Einstein Express and Other Stories Harun Šiljak, 2016-06-14 This collection of stories touches upon many genres Normed Trek is a clever and witty Alice in Wonderland type narrative set in the realm of mathematical analysis The Cantor Trilogy is a dystopia about the consequences of relying upon computer based mathematical proofs In Search of Future Time bears the flavor of Tales from Arabian Nights set in the future and last but not least Murder on the Einstein Express is a short non technical primer on probabilities and modern classical physics disguised as a detective story Written primarily for an audience with some background or a strong interest in mathematics physics and computer science in particular artificial intelligence these stories explore the boundaries between science and fiction in a refreshingly unconventional fashion In the Afterthoughts the author provides some further insights and annotations

Games of Inheritance Yitzhak Lewis, 2025-05-13 Games of Inheritance explores the thought of Argentine author and public intellectual Jorge Luis Borges 1899 1986 on questions of authorship and literary tradition The book focuses on Borges's engagement with Jewish literary and intellectual traditions highlighting the role of this engagement in developing and expressing his views on these questions The book argues that the primary relevance of Borges's persistent reference to the Judaic is not for understanding his attitude toward Jews and Judaism but for understanding his position in contemporary Argentinian debates about nationalism and literature empire and postcolonialism and populism and aesthetics By broadening the frame of Borges and the Judaic this book shifts the scholarly focus to the poetic utility of Borges's engagement with Jewish literary and intellectual traditions This allows a better understanding of the nuance of his views on the issues that most animate his

man who could not forget Imagine the astonishment felt by neuroscientist Rodrigo Quian Quiroga when he found a fantastically precise interpretation of his research findings in a story written by the great Argentinian fabulist Jorge Luis Borges fifty years earlier Quian Quiroga studies the workings of the brain in particular how memory works one of the most complex and elusive mysteries of science He and his fellow neuroscientists have at their disposal sophisticated imaging equipment and access to information not available just twenty years ago And yet Borges seemed to have imagined the gist of Quian Quiroga s discoveries decades before he made them The title character of Borges s Funes the Memorious remembers everything in excruciatingly particular detail but is unable to grasp abstract ideas Quian Quiroga found neurons in the human brain that respond to abstract concepts but ignore particular details and spurred by the way Borges imagined the consequences of remembering every detail but being incapable of abstraction he began a search for the origins of Funes Borges s widow Mar a Kodama gave him access to her husband s personal library and Borges s books led Quian Quiroga to reread earlier thinkers in philosophy and psychology He found that just as Borges had perhaps dreamed the results of Quian Quiroga s discoveries other thinkers William James Gustav Spiller John Stuart Mill had perhaps also dreamed a story like Funes With Borges and Memory Quian Quiroga has given us a fascinating and accessible story about the workings of the brain that the great creator of Funes would appreciate

Humor in Borges René de Costa,2000 Humor in Borges studies the humor embedded in the fiction of the serious and metaphysical literary figure Jorge Luis Borges Jorge Luis Borges 1899 1986 an Argentine writer of serious avant garde poetry and prose often wrote of the humor in the works of contemporaneous authors such as Franz Kafka In response to this humor Borges created a comedic tradition all his own Humor in Borges studies the humor embedded in the fiction of a serious and metaphysical literary figure Ren de Costa shows how Borges was concerned with making the embedded humor in his work more apparent without abandoning the essential story line De Costa examines the ways in which Borges transformed established modes of writing the chronicle the book review the obituary the detective story into genre parodies He looks at Borges s canonical collections identifying the humor in such simple things as a footnote a false epigraph or a postscript Humor in Borges couples elegant scholarship with a comedic edge and is both accessible and enjoyable to read Scholars and students of twentieth century Spanish and Latin American literature will delight in this fascinating look at laughter in the work of Jorge Luis Borges

Writing the Apocalypse Lois Parkinson Zamora,1989-04-28 This is a comparative literary study of apocalyptic themes and narrative techniques in the contemporary North and Latin American novel Zamora explores the history of the myth of apocalypse from the Bible to medieval and later interpretations and relates this to the development of American apocalyptic attitudes She demonstrates that the symbolic tensions inherent in the apocalyptic myth have special meaning for postmodern writers Zamora focuses her examination on the relationship between the temporal ends and the narrative endings in the works of six major novelists Gabriel Garcia Marquez Thomas Pynchon Julio Cortazar John Barth Walker Percy and Carlos Fuentes Distinguished by its unique cross

cultural perspective this book addresses the question of the apocalypse as a matter of intellectual and literary history Zamora's analysis will enlighten both scholars of North and Latin American literature and readers of contemporary fiction *Step by Step* Jean François Augoyard, 2007 The street riots that swept through France in the fall of 2005 focused worldwide attention on the plight of the country's immigrants and their living conditions in the suburbs many of them call home These high density neighborhoods were constructed according to the principles of functionalist urbanism that were ascendant in the 1960s Then as now the disparities between the planners' utopian visions and the experiences of the inhabitants raised concerns generating a number of sociological studies of the new towns One of the most sophisticated and significant of these critiques is Jean François Augoyard's *Step by Step* which was originally published in France in 1979 and famously influenced Michel de Certeau's analysis of everyday life Its examination of social life in the rationally planned suburb remains as cogent and timely as ever *Step by Step* is based on in-depth interviews Augoyard conducted with the inhabitants of l'Arlequin a new town on the outskirts of Grenoble A resident of l'Arlequin himself Augoyard sought to understand how his neighbors used its passages streets and parks He begins with a detailed investigation of the inhabitants' daily walks before going on to consider how the built environment is personalized through place names and shared memories the ways in which sensory impressions define the atmosphere of a place and how through individual and collective imagination residents transformed l'Arlequin from a concept into a lived space In closely scrutinizing everyday life in l'Arlequin *Step by Step* draws a fascinating portrait of the richness of social life in the new towns and sheds light on the current living conditions of France's immigrants Jean François Augoyard is professor of philosophy and musicology and doctor of urban studies at the Center for Research on Sonorous Space and the Urban Environment at the School of Architecture of Grenoble David Ames Curtis is a translator editor writer and citizen activist Françoise Choay is professor emerita in the history and theory of architecture at the University of Paris VIII and Cornell University and the author of numerous books and essays *Sociology of the Visual Sphere* Regev Nathansohn, Dennis Zuev, 2013 This collection of original articles deals with two intertwined general questions what is the visual sphere and what are the means by which we can study it sociologically These questions serve as the logic for dividing the book into two sections the first Visualizing the Social Sociologizing the Visual focuses on the meanings of the visual sphere and the second New Methodologies for Sociological Investigations of the Visual explores various sociological research methods to getting a better understanding of the visual sphere We approach the visual sphere sociologically because we regard it as one of the layers of the social world It is where humans produce use and engage with the visual in their creation and interpretation of meanings Under the two large inquiries into the what and the how of the sociology of the visual sphere a subset of more focused questions is being posed what social processes and hierarchies make up the visual sphere How various domains of visual politics and visibility are being related or being presented as such What are the relations between sites and sights in the visual research What techniques help visual researcher to increase sensorial
