## **Bomber Command:**

**Bomber Command** Max Hastings Sir, Max Hastings, 2013-09-09 DIV Bomber Command is Sir Max Hastings classic account of one of the most controversial struggles of World War II the British air offensive against the cities of Nazi Germany

div **The Bomber Command War Diaries** Martin Middlebrook, Chris Everitt, 2014-04-02 The essential WWII historical reference detailing RAF Bomber Command's extensive campaign of strategic bombings across occupied Europe The Royal Air Force Bomber Command's strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids Aviation historian Martin Middlebrook and his research colleague Chris Everitt were the first to compile a complete review of all the raids and their background stories The Bomber Command War Diaries not only documents every Bomber Command operation but also details their effects on the ground drawing on local archives from Germany Italy and the occupied countries It is a groundbreaking work on historical research bringing together the two sides of Bomber Command's war This edition includes retrospective observations and a new appendix

**A WAAF in Bomber Command** Pip Beck, 1989 A sensitively written true story by a RAF Bomber Command wartime R T operator who talked down the crews on their return from operations met them off duty and so often mourned their loss within days The book sparkles with anecdotes and humor yet has a very special poignancy as the author reiterates her deep admiration for these truly remarkable men of Bomber Command

1 Group Bomber Command Chris Ward, Greg Harrison, Grzegorz Korcz, 2014-06-18 A history of the British Royal Air Force's 1 Group Bomber Command during World War II During the period immediately before the Second World War the RAF modified its command structure to rationalize for rapid expansion Bomber Command was divided into six operational groups each flying the same type of aircraft including Wellingtons Sterlings and Lancasters Chris Ward presents us here with the history of 1 Group Bomber Command having previously acquainted us with the histories of three four five and six Groups in four highly acclaimed volumes published by Pen and Sword He continues with characteristic ease quality of research and narrative pace to present us with an operational record of the group's activities during a particularly dramatic period of aviation history The book contains individual squadron statistics their commanding officers stations and aircraft losses It provides an exhaustive reference for one of the RAF's most important operational groups

**Bomber Command** Martin Bowman, 2011-10-01 This massive work provides a comprehensive insight to the experiences of Bomber Command's pilots and aircrew throughout WWII From the early wartime years when the RAF's first attempts to avenge Germany's onslaught were bedeviled by poor navigation and inaccurate bombing to the last winning onslaught that finally tamed Hitler in his Berlin lair these volumes trace the true experiences of the men who flew the bombers Hundreds of firsthand accounts are punctuated by the author's background information that puts each narrative into wartime perspective Every aspect of Bomber Command's operational

duties are covered day and night bombing precision low level strikes mass raids and operations throughout all wartime theaters Contributions are from RAF personnel who flew the Command s different aircraft from the early Blenheims and Stirlings to the later Lancasters and Mosquitoes Each volume is full of accounts that tell of the camaraderie amongst the crews moments of sheer terror and the stoic humor that provided the critical bond The five volumes of this work provide the most vivid and comprehensive work on the outstanding part played by RAF Bomber Command and their vital role in the destruction of the Third Reich

*3 Group Bomber Command* Chris Ward, Steve Smith, 2009-04-21 During the immediate period before World War Two the RAF modified its command structure to rationalize for rapid expansion Bomber Command was divided into six operational groups each flying the same type of aircraft 3 Group had almost completely re equipped with the Wellington by 4 September 1939 to carry out the second bombing operation of the war which was against German warships off Brunsbttel In 1940 the first of the new four engined bombers the Short Stirling came into service with the Group being followed in 1942 by the Avro Lancaster On 3rd 4th November 1943 No 3 Group played a leading part in the first bombing attack in which heavy bombers made use of the radar bombing aid known as G H The target was Dsseldorf bombs were dropped blind and good results were obtained In July and August 1944 aircraft of this Group equipped with G H maintained an all weather attack against flying bomb sites Through the D Day build up the liberation of France and conquest of Germany formations of No 3 Group attacked railway junctions marshalling yards troop concentrations etc During the week ending 25th March 1945 Bomber Command made numerous attacks to prepare for the crossing of the Rhine

**Reaching for the Stars** Mark Connelly, 2001-02-16 *\_Reaching for the Stars\_* shows why Bomber Command in one of the largest and bloodiest campaigns of the war with 55 000 aircrew lost and more officer fatalities than in World War I has received so much attention and yet remains a lost and black sheep among British wartime achievements There has been little official recognition at the 50th anniversary of VE Day there was hardly a mention and the Bomber Command story has been dogged by the controversy over carpet bombing The role of Bomber Command in the Second World War is still shrouded in mystery This book provides a new and revisionary narrative of the campaign and is both a military history and an investigation of how the modern image of Bomber Command has developed There have been hundreds of books about the RAF and Bomber Command ranging from highly researched histories technical studies of the aircraft to popular works as well as countless films and plays and television and newspaper reportage Mark Connelly pulls all the strands together to produce a fascinating and entirely new perspective on this aspect of World War II

**RAF Bomber Command: 'Strike Hard, Strike Sure' 1936-1945** Ron Mackay, 2022-03-31 Historically rich in detail with previously unpublished photographs from private archives Researched and written by an aviation and military historian renowned author Essential for military historians modellers flight sim enthusiasts War Thunder IL 2 Sturmovik Great Battles and DCS and those interested in the complexities of aircraft design and production during the Second World War They sowed the wind and now they are going to reap the

whirlwind Arthur Bomber Harris The concept of an aerial campaign on a nation's industrial and military might was advocated by Britain before the start of the First World War however a stringent post war economy ensured that the creation of Bomber Command in 1936 witnessed a daunting disparity between the aim of striking at an adversary's ability to sustain itself and the means to do so From 1939 to 1942 Bomber Command was very weak in terms of human and material losses The navigational means with which to accurately guide bombers to targets was almost completely lacking while the enemy defensive network inflicted serious casualties Consequently the punishment handed out was minimal The resurgence of Bomber Command's fortunes coincided with the appointment of Sir Arthur Harris The advent of four engine designs such as the Avro Lancaster and Handley Page Halifax ensured that a greatly increased bomb tonnage could be delivered Also electronic aids such as Gee Oboe and H2S simplified the task in finding targets Therefore by 1944 1945 the RAF's bombers pulverised Hitler's Third Reich Although flak and night fighters took a heavy toll on the bombers the RAF's nocturnal offensive in conjunction with the USAAF's daylight assaults crippled Germany's ability to fight back

**Bomber Command, 1936-1968** Ken Delve, 2005-09-29 This is a comprehensive reference to the structure operation aircraft and men of Bomber Command from its formation on 1936 to 1968 when it became part of Strike Command It includes descriptions of many notable bombing raids the many types of aircraft used weapons and airfields The five main sections of the book include a general historical introduction and overview operations operational groups aircrew training and technical details of each aircraft type Lengthy Annexes cover personnel the squadrons in World War II accuracy of attacks orders of battle for each wartime year maps of airfields locations tonnage of bombs dropped and nuclear weapons carried in the post war years

*Bomber Command* Roddy MacKenzie, 2023-02-16 Roddy MacKenzie's father served in Bomber Command during the Second World War but like so many brave veterans who had survived the war he spoke little of his exploits So when Roddy started on his personal journey to discover something of what his father had achieved he uncovered a great deal about the devastating effectiveness of Bomber Command and the vital role it played in the defeat of Third Reich He realised that the true story of Bomber Command's achievements has never been told nor fully acknowledged Roddy became a man on a mission and this startlingly revealing and often personal study is the result Bomber Command Churchill's Greatest Triumph takes the reader through the early days of the Second World War and introduces all the key individuals who turned the Command into the war winning weapon it eventually became as well as detailing the men and machines which flew night after night into the heart of Hitler's Germany The main focus of his book is the destruction and dislocation wrought by the bombing to reduce and ultimately destroy Germany's ability to make war In his analysis Roddy dug deep into German archival material to uncover facts rarely presented to either German or English language readers These demonstrate that Bomber Command's continual efforts at appalling cost in aircrew casualties and aircraft losses did far more damage to the Reich than the Allies knew Roddy's father served with the Royal Canadian Air Force and Roddy naturally highlights its

contribution to Bomber Command's successes another aspect of this fascinating story which the author believes has not been duly recognized Bomber Command Churchill's Greatest Triumph will certainly raise the debate on the controversial strategy adopted by Bomber Harris and how he was perceived by many to have overstepped his remit But most of all this book will revise people's understanding of just how important the endeavours were of those men who flew through the dark and through the searchlights the flak and the enemy night fighters to bring the Second World War in Europe to its crushing conclusion Bomber Command: Reflections of War, Volume 1 Martin W. Bowman, 2011-12-01 This massive work provides a comprehensive insight to the experiences of Bomber Command's pilots and aircrew throughout WWII From the early wartime years when the RAF's first attempts to avenge Germany's onslaught were bedeviled by poor navigation and inaccurate bombing to the last winning onslaught that finally tamed Hitler in his Berlin lair these volumes trace the true experiences of the men who flew the bombers Hundreds of firsthand accounts are punctuated by the author's background information that puts each narrative into wartime perspective Every aspect of Bomber Command's operational duties are covered day and night bombing precision low level strikes mass raids and operations throughout all wartime theaters Contributions are from RAF personnel who flew the Command's different aircraft from the early Blenheims and Stirlings to the later Lancasters and Mosquitoes Each volume is full of accounts that tell of the camaraderie amongst the crews moments of sheer terror and the stoic humor that provided the critical bond The five volumes of this work provide the most vivid and comprehensive work on the outstanding part played by RAF Bomber Command and their vital role in the destruction of the Third Reich Bomber Command 1936-1968 Ken Delve, 2022-05 This is a comprehensive reference to the structure operation aircraft and men of Bomber Command from its formation on 1936 to 1968 when it became part of Strike Command It includes descriptions of many notable bombing raids the many types of aircraft used weapons and airfields The five main sections of the book include a general historical introduction and overview operations operational groups aircrew training and technical details of each aircraft type Lengthy Annexes cover personnel the squadrons in World War II accuracy of attacks orders of battle for each wartime year maps of airfields locations tonnage of bombs dropped and nuclear weapons carried in the post war years

Bomber Command Airfields of Yorkshire Peter Jacobs, 2017-05-30 As part of the Aviation Heritage Trail series the accomplished military author and former RAF Officer Peter Jacobs takes us to the county of Yorkshire and to its many bomber airfields of the Second World War From the opening day of hostilities RAF Bomber Command took the offensive to Nazi Germany and played a leading role in the liberation of Europe Yorkshires airfields played a key part throughout initially as home to the Whitley squadrons of No 4 Group and then to the four engine Halifax heavy bombers indeed Bomber Command's first night operation of the war was flown from one of the county's many bomber airfields Then as the bombing offensive gathered pace Yorkshire welcomed the new all Canadian No 6 RCAF Group after which all of Bomber Command's major efforts during the hardest years of 1943-44 against the Ruhr Hamburg and Berlin involved the Yorkshire based

squadrons Most of Yorkshires wartime bomber airfields have long gone but many have managed to retain the flying link with their wartime past For example the former RAF airfields of Finningley and Middleton St George and the factory airfield of Yeadon are now the sites of international airports while Brighton Burn Full Sutton Pocklington and Rufforth are still used for light aircraft flying or gliding and Elvington is home to the magnificent Yorkshire Air Museum From airfields such as these came countless acts of personal courage and self sacrifice with two men being awarded the Victoria Cross Britains highest award for gallantry Stories of both men are included as are tales of other personalities who brought these airfields to life The stories of thirty three airfields are told in total with a brief history of each accompanied by details of how to find them and what remains of them today Whatever your interest be it aviation history or more local the county of Yorkshire has rightly taken its place in the history of Bomber Command

**Before the Storm** Robert Jackson,1972 *100 Group (Bomber Support)* Martin W. Bowman,2006-11-27 A history of the British RAF division in Norfolk dedicated to radio countermeasures during WWII As part of the AHT series the airfields and interest in this book are concentrated in a particular area in this case Norfolk The growing importance of the electronic war in the air in 1943 caused the creation of 100 Group to fly both defensive and offensive sorties employing highly secret Radio Counter Measure equipment The Group flew from airfields at Foulsham Great Massingham Little Snoring North Creak Swannington and West Raynham The aircraft flown were Halifax Beaufighter Mosquito and Fortress The Group included RAF Squadron numbers 192 169 23 171 199 214 157 85 141 and 239 100 Group Bomber Support looks at the history and personalities associated with each base and what remains today exploring the favorite local wartime haunts where aircrew and ground crew would have sought well deserved entertainment and relaxation Other museums and places that are relevant will also be described and general directions on how to get them included

**RAF Bomber Command at War, 1939-1945** Craig Armstrong,2021-04-28 The Royal Air Force had placed a great deal of faith in its force of bombers Bomber Command in the event of a future war The belief in the ability of formations of bombers flying in daylight and unescorted protecting themselves from enemy fighter attack informed early tactics but led to bloody losses Hampered by government restrictions on targets by late 1941 Bomber Command was in crisis As a result and coupled the growing dire war situation a new and forceful commander Sir Arthur Harris was appointed and new strategies allowed Bomber Command to broaden its attacks despite some opposition The result was the area bombing strategy which focussed attacks upon enemy held towns and cities This Main Offensive period lasted throughout 1943 1944 and saw both victories and defeats It was also the period that saw a limited number of precision attacks on Augsburg Peenemunde and most famously the Ruhr dams Bomber Command also aided in tactical and strategic support for the invasion of Europe and the subsequent fight to push inland New technological developments allowed Bomber Command to hit V Weapons sites and to focus more on precision bombing but Harris remained determined to hit German towns and cities whenever possible while the Command s growing power allowed it to rain devastation upon its targets culminating at

Dresden Much has been written about Bomber Command but this book focusses largely on those who took part in the raids and on public attitudes towards the campaign in Britain Using accounts from national and local archives newspapers and existing historiography the book seeks to shed light on untold stories from Bomber Command's war

**Bomber Command's Forgotten Summer** Paul Tweddle, 2018-07-16 While the heroic exploits of The Few of Fighter Command are rightly lauded those of The Many of Bomber Command often remain overlooked Night after night the bomber crews ranged across Europe seeking out and attacking targets in an all out endeavour to undermine the German war effort against Britain and prevent invasion Bomber Command's Forgotten Summer tells the stories of the young men who carried out dangerous missions on a nightly basis battling against both the enemy and the elements relying on a mix of nerve skills and luck to hit their target and make it home Faced with flak and fighters exposed to the harsh weather conditions and operating at the edge of their capabilities for the young men of Bomber Command this was just as vital as the Battle of Britain

**Black Night for Bomber Command** Richard Knott, 2007-07-01 I am not pressing you to fight the weather as well as the Germans never forget that So wrote Winston Churchill to Arthur Harris the Commander in Chief of RAF Bomber Command after the terrible events of 16 December 1943 In the murky dusk almost five hundred heavy bombers almost entirely Lancasters set out for Berlin from their bases in eastern England from north Yorkshire to southern Cambridgeshire They lifted off at around 4 pm to bomb the target four hours later and were expected to return at midnight 328 aircrew lost their lives that night they were the victims of the weather not the Germans This book relates the tragic circumstances of individual crews as they struggled to find their home bases in low cloud and fog It also includes stories from the local people who remember hearing a low flying aircraft and all too often the frightful explosion as it struck unexpected high ground or even trees Some rescue attempts were successful but for most aircrew it was death in a blazing wreck Many of the crash sites have been explored by the author as he tried to imagine exactly how each aircraft came to grief It contains many photos of aircraft as they were and the remaining impact areas that remain to this day

**Bomber Boys on Screen** S. P. MacKenzie, 2019-08-08 Since the Second World War depictions of Royal Air Force operations in film and television drama have become so numerous that they make up a genre worthy of scholarly attention In this illuminating study S P MacKenzie explores the different ways in which the men of RAF Bomber Command have been represented in dramatic form on the big and small screen from the war years to the present day Bomber Boys on Screen is the first in depth study of how and why the screen drama image of those who flew those who directed them and those who provided support for RAF bomber operations has changed over time sometimes in contested circumstances Until now dramas that focus on Bomber Command have tended to be mentioned only in passing or studied in isolation despite the prevalence of surveys of both the British war film genre and of aviation cinema In Bomber Boys on Screen MacKenzie examines the development presentation and reception of significant dramas on a decade by decade basis Titles from the beginning of the war The Lion Has Wings 1939 to the start of new century Bomber's Moon 2014

are situated in the context of technical possibilities and limitations evolving social and cultural norms in the United Kingdom and elsewhere and the development of moral and utilitarian controversies surrounding the wartime bomber offensive directed against Nazi Germany While the focus is on feature films and television plays reference is also made to documentaries memorials veterans organizations book titles war comics and other representations of the war fought by Bomber Command     *The Bomber Command Handbook, 1939-1945* Jonathan Falconer,1998 Through six long years of war RAF Bomber Command s squadrons pounded away at the cities of Nazi Germany in an effort to bring down the Third Reich For Bomber Command to launch a maximum effort raid on the Ruhr by night or low level strike on an enemy target in occupied Europe by day a huge amount of planning was involved The book covers such details as who decided the policy why when and where the airfields were built and how the overall command structure was or organized
