## **Bombs Away:**

**Bombs Away** John Vetto, 2023-12-29 To movie critics a bomb is unequivocally bad something that failed artistically failed at the box office or both John Vetto who describes himself as a cinephile but most assuredly NOT a professional movie critic defines the term more broadly To Vetto a bomb may have bombed at the box office or become a cult classic It may be genuinely terrible or merely silly The one thing all bombs have in common They re fun to watch In *Bombs Away Fifty Old Often Bad and Mostly Forgotten Films in No Particular Order* Vetto takes a deep dive into these works not to make light of them well not just to make light of them but to explore their history and themes draw connections provide insight into human nature and enlighten us as to how and why these cheaply made films were created So grab some popcorn dim the lights and settle back for an edifying entertaining journey through an underexplored corner of pop culture *Bombs Away!* John R. Bruning, 2011-05-22 *Bombs Away* covers strategic bombing in Europe during World War II that is all aerial bombardment of a strategic nature which took place between 1939 and 1945 In addition to American U S Army Air Forces and British RAF Bomber Command strategic aerial campaigns against Germany this book covers German use of strategic bombing during the Nazi s conquest of Europe the Battle of Britain Operation Barbarossa and the V 1 and V 2 where the Luftwaffe targeted Warsaw and Rotterdam known as the Rotterdam Blitz In addition the book covers the blitzes against London and the bombing of other British industrial and port cities such as Birmingham Liverpool Southampton Manchester Bristol Belfast Cardiff and Coventry bombed during the Battle of Britain The twin Allied campaigns against Germany the USAAF by day the RAF by night built up into massive bombing of German industrial areas notably the Ruhr followed by attacks directly on cities such as Hamburg Kassel Pforzheim Mainz Cologne Bremen Essen D sseldorf Hanover Dortmund Frankfurt and the still controversial fire bombing of Hamburg and Dresden In addition to obvious targets like aircraft and tank manufacturers ball bearing factories and plants that manufactured abrasives and grinding wheels were high priority targets Petroleum refineries were a key target with USAAF aircraft based in North Africa and later Italy bombing the massive refinery complexes in and around Ploesti Romania until August 1944 when the Soviet Red Army captured the area Other missions included industrial targets in southern Germany like Regensburg and Schweinfurt Missions to the Nazi capital Berlin started in 1940 and continued through March 1945 Throughout the war there were 314 air raids on Berlin All of this is covered in detail with authoritative text and hundreds of archival photographs many rare or never before published *Bombs Away!*, 2016-08-09 Prompted by recent challenges to and debates about the relative public silence concerning the effects of the Allied air war over Europe during World War II this collection of essays examines literary visual film and photography and institutional museums representations of the bombing of civilian targets predominantly in Germany The authors examine narrative strategies of both well known and relatively little known works as well as the moral and ideological presuppositions of the varied representations of the depredations of total war The introduction and afterword by the editors invite the readers to

expand the contours and historical context of the debates about the German public discourse on the bombing war beyond the narrow confines of perpetrators and victims The volume will be of interest to literary scholars historians and the general reading public interested in warfare and its effects on civilian populations **Bombs Away!** Wilfried Wilms, William Rasch, 2006 Prompted by recent challenges to and debates about the relative public silence concerning the effects of the Allied air war over Europe during World War II this collection of essays examines literary visual film and photography and institutional museums representations of the bombing of civilian targets predominantly in Germany The authors examine narrative strategies of both well known and relatively little known works as well as the moral and ideological presuppositions of the varied representations of the depredations of total war The introduction and afterword by the editors invite the readers to expand the contours and historical context of the debates about the German public discourse on the bombing war beyond the narrow confines of perpetrators and victims The volume will be of interest to literary scholars historians and the general reading public interested in warfare and its effects on civilian populations Bombs Away, Phoenix H. Year 4/P5** Karavis, Matthews, 2005-05-09 *Bombs Away!* Martin W. Bowman, 2010-06-15 This is a unique selection of wide ranging experiences of British and Commonwealth Bomber Command aircrew during World War II Their endearing bravery and fortitude and sometimes their despondency and cynicism shows through in these stirring daring often irreverent humorous and sometimes sardonic but memorable stories All reflect the ethos camaraderie fear and bravery of the largely ordinary men most of whom were plucked from civvy street and thrust into a frightening bitter conflict which was made even more dangerous by the lethal advance of technology Death would normally come from an anonymous assassin either in the black of night or from behind a cloud or out of the sun or simply from the Flak gunner on the ground And if all this was not enough

the often unmerciful weather was no respecter of mortality There was no escaping the all embracing shock wave that rippled through the bomber squadrons after a heavy mauling over enemy territory Nothing could be more poignant than the vacuous places at tables in the depleted mess halls the empty locker of the departed or the dog pining by the barracks for its missing master Each man had to deal with tragedy in his own inimitable way Some hid their feelings better than others did only for the pain to resurface months or even years later Some who had survived the physical pressures and who completed their tours then succumbed to the mental torture that had eaten away at their psyche during the incessant and interminable onslaught day after day night after night There was little respite The valorous men of Bomber Command were in turn the Light Brigade the stop gap the riposte the avengers the undefeated Always they were expendable

**WLA ,2002** **When the Lamps Go Out** Megan Spurgin,2012-09-25 Nazi Germany 1938 Hilda van Ostrand knows that war is imminent and though she is loyal to the Fatherland her worries for the future cannot be denied especially when it comes to her budding romance with Jesse Riker a dashing American pilot Caught between opposing brothers and delicate friendships she hopes only to survive But nothing prepares her for the arrival of a stranger with a secret that questions the only life she has ever known Fleeing to London Hilda soon becomes an important asset in British Intelligence but her past comes back to haunt her with Jesses sudden arrival as a volunteer in the Royal Air Force Their future together grows distant as Hildas lies threaten to destroy the last semblance of identity she clings to Her determination to protect Jesse from the truth does not stop the bombs that rain down on London and when the tide of war pulls them apart again it may be for the last time A tale of betrayal love forgiveness and Gods enduring faithfulness When the Lamps Go Out illustrates the trials and triumphs of the human spirit and the harsh understanding and beauty of life in World War II Europe

**Naval Firepower** ,1943 *Shot at and Missed* Jack R. Myers,2014-10-30 In this riveting narrative Jack R Myers recounts his experiences as a B 17 bombardier during World War II Commissioned a second lieutenant in 1944 at age twenty Myers began flying missions with the 2nd Bomb Group U S Fifteenth Air Force He learned firsthand the exhilaration and terror of being shot at and missed Based in Italy the Fifteenth Air Force flew strategic bombing raids over southern Germany Austria Hungary Rumania and Czechoslovakia Less celebrated than the Eighth Air Force which flew out of England the Fifteenth nevertheless was pivotal in dismantling the German industrial complex Myers offers an insider s view of these missions over southern and central Europe The reader goes with him into the highly exposed Plexiglas nose of the Flying Fortress flying with him through the flak filled skies of Europe and peering with him through his Norden bombsight at Axis targets On average a heavy bomber crewman survived only sixteen bombing missions Myers survived his allotted thirty five missions before being honorably discharged in 1945

**The King Arthur Myth in Modern American Literature** Andrew E. Mathis,2001-11-30 In American fiction two forms of the Arthurian myth are commonly found the use of the myth for political reasons and the use of the myth for the continuation of an aesthetic tradition that can be traced back to the earliest use of the Arthurian cycle by writers in the

British Isles This work traces the use of the legend from Mark Twain's *A Connecticut Yankee in King Arthur's Court* to Donald Barthelme's novel *The King*. It discusses how Twain used the myth to take a stand against England, how it served cultural and aesthetic purposes in John Steinbeck's writing, how Raymond Chandler used it in complex texts with less obvious Arthurian allusions that carried strong cultural and even political associations, how John Gardner used aspects of the myth to embellish already existing narrative structures and to underscore philosophic debates, and how Donald Barthelme suggests the continuing interest of American writers in the Arthurian legend today in his novels. Also discussed is the effect of World War II on American literature and the Arthurian myth and the Camelot image surrounding the Kennedys.

*Steel Fortress*  
Michael Sargent Martin, 2014-02-04

*Steel Fortress* is a story of survival about a flyboy aboard a B-17 bomber who is catapulted into the extraordinary experience of flying the heavies in the never-to-be-replicated arena of World War II air combat. He flies the gauntlet of Germany's defensive network in 1944, battling the demons of war in the European Theater and also in his mind. It is a commentary on the totality of the human experience of war, from the brutal realities of combat to the internal battle that goes on within each individual survivor. On a cold February morning in 1944, Harold leaves his new bride at an Iowa train platform and embarks on a stark and riveting journey where camaraderie is the key to survival and loss is the lesson learned. Heroism combined with humanism drives this compelling saga of the human spirit at its most triumphant and most vulnerable. *Steel Fortress* joins ranks with the most poignant of commentaries on war; it is a story for the ages and evidence of the universal spirit of man.
