Bonapartism After Sedan:

Post-Imperial Democracies Stephen E. Hanson, 2010-07-05 This book examines the causal impact of ideology through a comparative historical analysis of three cases of post imperial democracy the early Third Republic in France 1870-86 the Weimar Republic in Germany 1918-34 and post Soviet Russia 1992-2008 Hanson argues that political ideologies are typically necessary for the mobilization of enduring independent national party organizations in uncertain democracies By presenting an explicit and desirable picture of the political future successful ideologues induce individuals to embrace a long run strategy of cooperation with other converts When enough new converts cooperate in this way it enables sustained collective action to defend and extend party power Successful party ideologies thus have the character of self fulfilling prophecies by portraying the future polity as one organized to serve the interests of those loyal to specific ideological principles they help to bring political organizations centered on these principles into being

From Subject to Citizen Sudhir Hazareesingh, 2014-07-14 *From Subject to Citizen* offers an original account of the Second Empire 1852-1870 as a turning point in modern French political culture a period in which thinkers of all political persuasions combined forces to create the participatory democracy alive in France today Here Sudhir Hazareesingh probes beyond well known features of the Second Empire its centralized government and authoritarianism and reveals the political social and cultural advances that enabled publicists to engage an increasingly educated public on issues of political order and good citizenship He portrays the 1860s in particular as a remarkably intellectual decade during which Bonapartists legitimists liberals and republicans applied their ideologies to the pressing problem of decentralization Ideals such as communal freedom and civic cohesion rapidly assumed concrete and lasting meaning for many French people as their country entered the age of nationalism With the restoration of universal suffrage for men in 1851 constitutionalist political ideas and values could no longer be expressed within the narrow confines of the Parisian elite Tracing these ideas through

the books pamphlets articles speeches and memoirs of the period Hazareesingh examines a discourse that connects the central state and local political life In a striking reappraisal of the historical roots of current French democracy he ultimately shows how the French constructed an ideal of citizenship that was local in form but national in substance Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
