Congress. Senate. Committee on Armed Services,2002 *Belgium* International Monetary Fund. European Dept.,2014-03-10 The 2014 Article IV Consultation discusses economic developments and policies in Belgium It highlights that despite its resilience the Belgium economy has been losing competitiveness due to higher labor cost and lower productivity growths than peer countries The government has taken measures to close the wage gap but it is highlighted that the economy also needs to become more productive and adaptable through deeper product and labor market reforms The supervisory and regulatory frameworks are being strengthened with a new draft banking law that restrains trading activities and improves the recovery and resolution framework **Pensions at a Glance 2007 Public Policies across OECD Countries** OECD,2007-06-07 *Pensions at a Glance* presents a consistent framework for comparing public pension policies across OECD countries as well as reliable data **Nonfinancial Defined Contribution Pension Schemes in a Changing Pension World** Robert Holzmann,Edward Palmer,David Robalino,2012-11-01 *Nonfinancial Defined Contribution NDC* schemes are now in their teens The new pension concept was born in the early 1990s implemented from the mid 1990s in Italy Latvia Poland and Sweden legislated most recently in Norway and Egypt and serves as inspiration for other reform countries This innovative unfunded individual account scheme created high hopes at a time when the world seemed to have been locked into a stalemate between piecemeal reforms of ailing traditional defined benefit schemes and introducing pre funded financial account schemes The experiences and conceptual issues of NDC in its childhood were reviewed in a prior anthology Holzmann and Palmer 2006 This new anthology published in 2 volumes serves to review its adolescence and with the aim of contributing to a successful adulthood Volume 1 on Progress Lessons Implementation includes a detailed analysis

of the experience and the key policy lessons in the old and new pilot countries and the implementation of NDCs elements in other reform countries This volume 2 on Gender Politics Financial Stability includes deeper and new analyses of these issues that found little or no attention in the 2006 publication The gender perspective includes 5 chapters with perhaps the most complete discussion on gender and pension issues available to date The financial stability perspective addresses in 6 chapters critical micro and macroeconomic aspects such as the balancing mechanism the use of a reserve fund the handling of legacy costs and technicalities related to the management of the longevity risk when designing annuities While the 2 volumes address many issues it also opens a number of new questions for which good answers are not yet readily available
