Amihud Gilead, 2019-05-14 The relationship between the literary imagination literary possibilities and actual reality poses a major philosophical problem in the field of the metaphysics of literature This detailed analysis of some literary masterpieces by Proust Kafka Tolstoy Dostoyevsky Thomas Mann Virginia Woolf and William Faulkner demonstrates that actual reality actualizes or imitates literary pure possibilities As such these masterpieces should be treated not as romans a clef but instead as paradigm cases on whose basis we grasp and understand actual reality      *Old Haun, the Pawnbroker*, 1857      **Aesthetics and Ideology in Contemporary Literature and Drama** René Agostini, Madelena Gonzalez, 2015-09-10 The conviction that the development and promotion of the arts humanities and culture through the study of literature and the aesthetic are the fundamental constituents of any progress in society is at the heart of this volume The essays gathered here explore the role of the imagination and aesthetic awareness in an age when the corporatization of knowledge is in the process of transforming literary studies and political commitment is in danger of disappearing behind a supposedly post ideological late capitalist consensus The main focus of the volume is the mutual implication of aesthetics and ideology and the status and value of different types of art within the political arena Challenging issues in contemporary aesthetics are examined within the wider framework of current debates on the disappearance of the real the crisis in representation and the use of new media The wide range of examples collected here stretching from experimental poetry in post war Germany political commitment in twentieth century French theatre and countercultural Rumanian theatre under Ceau escu to Neo Victorian fiction Verbatim theatre in the UK and political theatre for the masses in Estonia vouchsafe unique insights into the intersection of aesthetics and ideology and the practical consequences thereof As such the volume opens up a space for a meaningful engagement with authentic forms of art from inside and outside the Anglosphere and ultimately uses these examples as a platform from which to imagine some form of aesthetics representing an ideal union of aesthetics and ideology This concept first coined by the French philosopher Philippe Lacoue Labarthe will prove to be relevant both within the parameters of the examples discussed here but also beyond for the contributors to this volume are unanimous in refusing to believe that aesthetics and ideology can exist one without the other and in recognizing the centrality of ethics in any discussion of these notions      *Changing the Story* Gayle Greene, 1991 The feminist fiction movement of the 1960s 1980s was and is as significant a movement as Modernism Greene argues here Focusing on the

Shaffer, 2025-10-03 Anna s Army is the true and deeply personal account of a mother s journey through every parent s worst nightmare When sixteen year old Anna suddenly faced a life threatening medical emergency her condition rapidly escalated placing her on the most advanced forms of life support and the lung transplant list What followed was a harrowing and faith filled journey of uncertainty heartbreak and hope Told through the eyes of Anna s mother this story is not only a testament to the resilience of a young girl but also a powerful reflection on the strength of a family a community and a mother s unshakable belief in the power of prayer Anna s Army is a story of courage love and unwavering determination in the face of unimaginable odds **Reforming Trollope** Deborah Denenholz Morse, 2016-04-01 Trollope the reformer and the reformation of Trollope scholarship in relation to gender race and genre are the intertwined subjects of eminent Trollopian Deborah Denenholz Morse s radical rethinking of Anthony Trollope Beginning with a history of Trollope s critical reception Morse traces the ways in which Trollope s responses to the political and social upheavals of the 1860s and 1870s are reflected in his novels She argues that as Trollope s ideas about gender and race evolved over those two crucial decades his politics became more liberal The first section of the book analyzes these changes in terms of genre As Morse shows the novelist subverts and modernizes the quintessential English genre of the pastoral in the wake of Darwin in the early 1860s novel *The Small House at Allington* Following the Second Reform Act he reimagines the marriage plot along new class lines in the early 1870s in *Lady Anna* The second section focuses upon gender In the wake of the Second Reform Bill and the agitations for women s rights in the 1860s and 1870s Trollope reveals the tragedy of primogeniture and male privilege in *Harry Hotspur of Humblethwaite* and the viciousness of the marriage market in *Ayala s Angel* The final section of *Reforming Trollope* centers upon race Trollope s response to the Jamaica Rebellion and the ensuing Governor Eyre Controversy in England is revealed in the tragic marriage of a quintessential English gentleman to a dark beauty from the Empire s dominions The American Civil War and its aftermath led to Trollope s insistence that English identity include the history of English complicity in the black Atlantic slave trade and American slavery a history Trollope encodes in the creole discourses of the late novel *Dr Wortle s School* *Reforming Trollope*

Illustrated with Portraits, and Numerous Steel Engravings** Robert Burns,1867      Creating and Recovering Experience Natasha Sankovitch,1998-03-01 The thesis of this book is that repetition is central to Tolstoy s art The author argues that Tolstoy uses this device or rather complex of devices to represent and examine the processes by which people structure and give meaning to their experience Repetition is shown to be essential to his style to his understanding of characters psychology to the structure of his work and to his interaction with readers In short it defines much of what is Tolstoyan about Tolstoy Following a discussion of the epistemological and psychological beliefs that shape Tolstoy s use of repetition the author explores the effects and implications of repeated verbal elements as they function in the discourse of characters and narrators She develops a concept of novels of length which are distinguished from ordinary long novels in that length is essential to their themes and purposes A complex dynamic of memory forgetting and reminders repetition structures both the characters evolving identities and the readers changing apprehension of the text The author next discusses Tolstoy s use of repetition to shape relationships among characters and considers the connection between these relationships and thematic development in his novels She concludes by exploring the intertextual repetitions in Tolstoy s oeuvre which are seen as part of a process by which allusions among works create a revealing sense of the author s developing career In examining the link between Tolstoy s repeated verbal elements and his broader concepts of structure and meaning the book combines close readings of key passages in the novels with an exploration of larger theoretical issues the dynamics of reading and sense making the ethics and aesthetics of memory and the function of language as a system of cognition and communication As a result the book contributes not only to studies of Tolstoy and the genre of the novel but to our understanding of the relations among rhetorical cognitive aesthetic and ethical aspects of great art generally      *The Complete Works of Leo Tolstoy: Novels, Short Stories, Plays, Memoirs, Letters & Essays on Art, Religion and Politics* Leo Tolstoy,2024-01-11 The Complete Works of Leo Tolstoy is an expansive collection that encapsulates the literary genius of one of the greatest novelists in history This anthology includes a rich tapestry of Tolstoy s novels short stories plays memoirs and profound essays that explore the human condition morality art and spirituality Recognized for his intricate narrative style and philosophical depth Tolstoy s works are imbued with a meticulous realism that reflects the social and political contexts of 19th century Russia challenging readers to confront ethical dilemmas and existential questions Leo Tolstoy a pivotal figure in literature and a moral thinker experienced profound personal transformations throughout his life leading to his exploration of faith pacifism and social justice His extensive travels and engagement with diverse cultures informed his worldview enabling him to address universal themes of suffering love and redemption These themes are interwoven throughout his writings providing insight into his evolution from aristocratic life to
