were considered at least during part of the war as Germany's allies or satellites. In particular it shows how representations and responses have been conditioned by national and political trends and constraints. As historical background to the issues of postwar collective memory and public discourse it includes references to and short descriptions of major manifestations of collaboration chiefly in regards to the Jews in each of these countries during the war. Whether they were Communist or democratic regimes the book shows how the sudden burden of the past was suppressed, denied or distorted in various periods. Covering a wide area of both Eastern and Western Europe from different specialist perspectives this comprehensive study of collaboration in the Holocaust and its aftermath will be a valuable tool for teachers and students in the field of modern European history and Holocaust studies.

The Communist Quest for National Legitimacy in Europe, 1918-1989 Martin Mevius, 2013-09-13

There are two popular myths concerning the relationship between communism and nationalism. The first is that nationalism and communism are wholly antagonistic and mutually exclusive. The second is the assertion that in communist Eastern Europe nationalism was oppressed before 1989 to emerge triumphant after the Berlin Wall came down. Reality was different. Certainly from 1945 onwards communist parties presented themselves as heirs to national traditions and guardians of national interests. The communist states of Central and Eastern Europe constructed socialist patriotism, a form of loyalty to their own state of workers and peasants. Up to 1989 communists in Eastern Europe sang the national anthem and waved the national flag next to the red banner. The use of national images was not the exception but the rule. From Cuba to Korea all communist parties attempted to gain national legitimacy. This was not incidental or a deviation from Marxist orthodoxy but ingrained in the theory and practice of the communist movement since its inception. The study of communist national legitimacy is an exciting new field. This book presents examples of communist attempts to co-opt nationalism from both sides of the iron curtain and lays bare the striking similarities between such diverse cases as the socialist patriotism of the Bulgarian Communist Party and the national line of the Portuguese communists between Romanian communist nation building and the national ideology of the Spanish Communist Party. This book was published as a special issue of *Nationalities Papers*.

The Brides of March Beren DeMotier, 2007

The bride was covered in cracker crumbs but didn't care. The Brides of March drove mini vans, paid taxes, bought braces and joined the PTA, never expecting the phone call in March 2004 that would send them leaping through the suddenly opened window of same sex marriage with their kids along for the raucous ride. *The Brides of March* is a bride's eye view of same sex marriage at a moment's notice with a bevy of brides, their coterie of children, donuts, newspaper reporters, screaming protesters, mothers of the brides who never thought they'd see the day white wedding cake and a houseful of happy heterosexuals toasting the marriage. But that was only the beginning as these private declarations of love became public fodder fueling social commentary, letters to the editor and the fires of political debate when all the brides wanted was the opportunity to say "I do" in this candid, poignant and frequently funny tale of lesbian moms getting to the church on time in Multnomah County. DeMotier opens your eyes to the heart and

soul of this generation's civil rights battle Diane M Linn former Multnomah County Chair a beautifully written quirky look at the pros and cons of same sex marriage from the inside out smart without being preachy funny without being bitter emotional without being maudlin Anne Mini Ph D
