Chinese Steles Dorothy C. Wong, 2004-09-30 Buddhist steles represent an important subset of early Chinese Buddhist art that flourished during the Northern and Southern Dynasties period 386 581 More than two hundred Chinese Buddhist steles are known to have survived Their brilliant imagery has long captivated scholars yet until now the Buddhist stele as a unique art form has received little scholarly attention Dorothy Wong rectifies that insufficiency by providing in this well illustrated volume the first comprehensive investigation of this group of Buddhist monuments She traces the ancient roots of the Chinese stele tradition and investigates the process by which Chinese steles were adapted for Buddhist use She arranges the known corpus of Buddhist steles into broad chronological and regional groupings and analyzes not only their form and content but also the nexus of complex issues surrounding this art form from cultural symbolism to the interrelations between religious doctrine and artistic expression economic production patronage and the synthesis of native and foreign art styles In her analysis of Buddhism's dialogue with native traditions Wong demonstrates how the Chinese artistic idiom planted the seeds for major achievements in figural and landscape arts in the ensuing Sui and Tang periods Black Belt, 1999-11 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known martial arts figure in the world *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature *The Russian Revolution and Civil War 1917 1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state *Art History as Social Praxis* David Craven, 2017-08-21 *Art History as Social Praxis* The Collected Writings of David Craven brings together more than thirty essays that chart the development of Craven's voice as an unorthodox Marxist who applied historical materialism to the study of modern art This book demonstrates the range and versatility of David Craven's praxis as a democratic socialist art historian who assessed the essential role the visual arts play in imagining more just and equitable societies The essays collected here reveal Craven's lifelong commitment to exposing interstices between western and non western cultures by researching the reciprocating influences between First and Third World artists critics and historians *Household Journal of Popular Information*,

Night in Eldorado Birkett addresses Autoicon as both an index of entangled social and material relations around Rodney a form of dispersed memory and a vector of critical creative production that continues to resonate with contemporary artistic practices and radical thought While attuned to late twentieth century discourse around the body s dissolution into the virtual and the technological potential for extending consciousness in its content and structure Autoicon locates these discourses of the human and posthuman in relation to the durable productive forces of post Enlightenment racialization and ableism The workings of the mind that Autoicon presents are intrinsically tied to Rodney s wider use in his work of bodily matter and genealogically bound to a Black history of displacement dispossession and resistance experienced physiologically socially and familiarly by the artist Autoicon offers up a counter manifestation of the subject as formed and multiplied through temporal disjuncture affectability and acts of preservation care and collectivity The Publishers' Trade List Annual ,1882

Supremacy Magda Teter,2023-05-16 Appalling events in recent years have brought home to us the pervasiveness of white supremacist views practices and structures in both the United States and in Europe This stunningly ambitious sweeping cultural and intellectual history explores their Christian origins It also argues for the enduring importance of these origins even if contemporary white supremacists do not always rely on explicitly religious rationales for their ideas Magda Teter s book traces modern day anti Jewish and anti Black prejudice back to pervasive notions of Christian superiority developed in the early Christian church She thus connects anti Jewish sentiments with anti Black racism without arguing that these are the same thing or that one led to the other Based on an examination of primary evidence across a wide geographical and historical array of sources theological legal artistic and philosophical Teter shows how the Christian claim of superiority emerged in a theological context in antiquity and was later implemented in a legal and political context when Christianity became a political power And in the early modern era when Europeans expanded their political reach beyond Europe with the establishment of commerce driven slaveholding empires Christian claims were transformed decisively into a racialized sense of superiority that became institutionalized in law and politics **Being Together Is Not Enough (striketrough)**
