Baseball's Pivotal Era, 1945-1951 William Marshall, 2021-11-21 With personal interviews of players and owners and with over two decades of research in newspapers and archives Bill Marshall tells of the players the pennant races and the officials who shaped one of the most memorable eras in sports and American history At the end of World War II soldiers returning from overseas hungered to resume their love affair with baseball Spectators still identified with players whose salaries and off season employment as postmen plumbers farmers and insurance salesmen resembled their own It was a time when kids played baseball on sandlots and in pastures fans followed the game on the radio and tickets were affordable The outstanding play of Joe DiMaggio Stan Musial Ted Williams Bob Feller Don Newcombe Warren Spahn and many others dominated the field But perhaps no performance was more important than that of Jackie Robinson whose entrance into the game broke the color barrier won him the respect of millions of Americans and helped set the stage for the civil rights movement Baseball's Pivotal Era 1945-1951 also records the attempt to organize the Pittsburgh Pirates and the Mexican League's success in luring players south of the border that led to a series of lawsuits that almost undermined baseball's reserve clause and antitrust exemption The result was spring training pay uniform contracts minimum salary levels player representation and a pension plan the very issues that would divide players and owners almost fifty years later During these years the game was led by A B Happy Chandler a hand shaking speech making singing Kentucky politician Most owners thought he would be easily manipulated unlike baseball's first commissioner the autocratic Judge Kennesaw Mountain Landis Instead Chandler's style led one owner to complain that he was the player's commissioner the fan's commissioner the press and radio commissioner everybody's commissioner but the men who pay him

Smart Ball Robert F. Lewis II,2010-03-05 Smart Ball follows Major League Baseball s history as a sport a domestic monopoly a neocolonial power and an international business MLB s challenge has been to market its popular mythology as the national pastime with pastoral populist roots while addressing the management challenges of competing with other sports and diversions in a burgeoning global economy Baseball researcher Robert F Lewis II argues that MLB for years abused its legal insulation and monopoly status through arrogant treatment of its fans and players and static management of its business As its privileged position eroded eroded in the face of increased competition from other sports and union resistance it awakened to its perilous predicament and began aggressively courting athletes and fans at home and abroad Using a detailed marketing analysis and applying the principles of a smart power model the author assesses MLB s progression as a global business brand that continues to appeal to a consumer s sense of an idyllic past in the midst of a fast paced and often violent present
