The Colonial Era in America George Park Fisher, 1892

Volume 1 Family and Mormon Church Roots: Colonial Period to 1820 JOHN J HAMMOND, 2011-07-27 This is the first volume of a multi volume work entitled *The Quest for the New Jerusalem Mormon Generational Saga* and it ends with a listing of the titles of all sixteen volumes in this series which have been written to this point Before discussing the first volume it is necessary to describe the entire series Around the year 2000 the author began a

thorough investigation of his genealogical roots and to his surprise discovered that many of his ancestors had played significant roles in the early history of America and central roles in the history of Mormonism. Wherever he looked his ancestors were there during the colonial King Phillip's and French and Indian Wars in New England at the Battle of Bunker's Hill and on a prison ship for two years on the Hudson River during the American Revolution on whaling ships in the south Atlantic and northern Pacific during the 1840s at Mormon Kirtland Far West and Nauvoo during the turbulent and often bloody events of the 1830s and 1840s in the earliest Mormon experiments with polygamy almost all of the author's ancestors were polygamists in San Francisco and Sacramento during the earliest stages of the California Gold Rush in the immigrant ships filled with Mormon converts crossing the Atlantic in the wagon trains carrying the saints across the plains to Salt Lake City during the establishment of the Mormon Church in Hawaii in the early 1850s in the first halting steps toward elementary and higher education in Utah during the Mormon War with the U.S. army in Utah in 1857-58 in the operation of the early Salt Lake Theater in the building of the transcontinental railroad across Utah in 1869 in the settlement of the wild four corners area during the 1880s and 1890s in the rather secret and somewhat underhanded process by which Utah became a state and in the pioneer settlement of southern Idaho in the early 1900s. The author felt impelled to tell these wonderful ancestral stories and it became obvious that this could not be done without giving an account of the history of the Mormon Church the two subjects were intimately interwoven. Furthermore telling the linked ancestral Mormon story beginning in the American colonial period could not be adequately undertaken without giving an account of significant events in the larger American story. In recent years a number of writers have given us fascinating generational family stories. Alex Haley's *Roots* is a well known example. Haley traced his African American family all the way back to a slave taken from a village in Africa. In 1991 Chinese American Jung Chang's in her *Wild Swans Three Daughters of China* told a wonderful story of three generations of Chinese women her great grandmother grandmother and mother reaching back to China. Adele Logan Alexander's *Homelands and Waterways The American Journey of the Bond Family* is an account of several generations of the author's African American family. Concerning another example James Fox's *The Langhorne of Virginia* reviewer Robert Skidelsky wrote "It was a clever idea to use family history to write about social and political history. What Fox does is to use the Langhorne sisters as a peg on which to hang the story of the decline of the British aristocracy or Empire or both." John Hammond's multi volume *Mormon Generational Saga* evolved into something very similar to Fox's but he utilizes family history to write about religious as well as social and political history. In fact what has emerged is a very detailed examination of the early history of the Mormon Church with a special focus upon how that history affected his ancestors. The series opens in the earliest years of colonial New England with an account of four of the author's ancestral families and the early lives and ancestors.

A History of Boston Daniel Dain, 2024-09-19 Dain's *A History of Boston* helps the reader understand how land use and environment contribute to shaping a community. Dain's *Boston* is the go to book. R. J. Lyman *Boston* is today one of the

world's greatest cities first in higher education hospitals life science companies and sports teams It was the home of the Great Puritan Migration the American Revolution the Industrial Revolution the first civil rights movement the abolition movement and the women's rights movement But the city that gave us the first use of ether as anesthesia the telephone technicolor film and the mutual fund the city where Martin Luther King Jr and Coretta Scott founded their world changing partnership was also the hub of the anti immigration movement the divisive busing era and decades of self inflicted decay Boston has the most important history of any American city Yet its history has never been given a comprehensive treatment until now Join Dan Dain as he acts as your tour guide from the arrival of First Peoples up to the election of Boston's first woman and person of color as mayor Dain's masterful work explores the policies and practices that took Boston from its highest heights to its lowest lows and back again and examines the central role that density diversity and good urban design play in the success of cities like Boston A Catalogue of the Library of the Morse Institut, Natick, Mass Morse Institute, Natick, Mass.
