Introduction to Medieval Theology Rik Van Nieuwenhove, 2022-03-24. The best introduction to medieval theology from the time of St Augustine to the 14th century in an expanded 2nd edition. This volume invites us to think along with major theologians and spiritual authors in order to understand how pre-modern thought can enrich and challenge us in a post-modern context.

Islamic Theology and Philosophy Michael E. Marmura, 1984-06-30. Some of the foremost living scholars in Islamic thought have come together to create a standard and definitive work on the subject of Islamic thought. Noted scholars from North America, Europe and the Middle East offer new and generative interpretations of major themes in the field. They address perennial theological and philosophical questions: the nature of the Godhead, the ultimate constitution of matter, the world's origin, causality, divine providence and the existence of evil, freedom and determinism, political wisdom and the reaches of human knowledge. The contributions include historical and analytical expositions of these issues in medieval Islam as well as discussions of individual thinkers, translations of Arabic texts with commentary, comparisons of Greek and Islamic thought and bibliographical and textual sources. As a whole, these essays offer a wealth of philosophical, theological, bibliographical, philological and historical information. Among the outstanding contributions are an article by Charles Butterworth on Aristotle's rhetoric and how it was understood by al-Farabi, Avicenna and Averroes; Richard M. Frank's essay on the concepts of atoms and bodies, one of the most complex subjects in Islamic theology; and an article by Shams Inati on Ibn Sina and single expressions that discuss how language relates to mental processes and the unknown. Michael E. Marmura develops a new perspective on the subject of efficient causality, emphasizing the paradigmatic position of God's relationship to the world. Muhsin Mahdi analyzes a treatise of Averroes that deals with the relationship between philosophy and law.

The result is a comprehensive account of Aquinas's formal view on the subject, supplemented by an exploration into Aquinas's commentary on Dionysius's *Divine Names*, including a comparison of his views with those of both Dionysius and those of Aquinas's mentor, Albert the Great. The book also highlights the tight connection in

Aquinas's thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow marrying objective and subjective aesthetic intuitions and charting a kind of via media between the common extremes *Animals in Greek, Arabic, and Latin Philosophy* ,2025-10-08 Non human animals are a topic of intense philosophical interest in the modern day It is often supposed that this is a recent development but in fact pre modern philosophers were intensely interested in animals Aristotle initiated a long standing zoological tradition but it was only part of the vast literature on animals in antiquity and the middle ages To do it justice this book gathers twenty five studies of animals in Greek Arabic and Latin philosophy Major themes include the cognitive capacities of animals the difference between humans and animals and the question of how humans should treat animals as well as God's relationship towards animals animal diet and mating language among animals animal suffering animals as ethical exemplars and reincarnation Contributors Peter Adamson Tommaso Alpina Hanif Amin Beidokhti Zack Candy Sophia M Connell Rachael Omari Kosta Gligorijevic Guy Guldentops Rotraud Hansberger Paloma Hernandez Rubio Tuija Korhonen Behnam Khodapanah Philip Line Thornton Lockwood Ruizhi Ma Janne Mattila Robert Mayhew Michele Meroni Bahodir Musametov Giulio Navarra Maril Papandreou Nicolas Payen Michael Payne Jens Ole Schmitt John Skalko and Miira Tuominen Routledge Encyclopedia of Philosophy: Index Edward Craig,1998 Volume seven of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are
