dull for him Instead he turned to longer more difficult books containing far more interesting stories He enjoyed getting lost in fictional worlds designed by other people but eventually found it easier to lose himself in worlds of his own imagination This was especially true during the more challenging periods of his life His interest in science played an important role in developing believable worlds an interest which eventually led to studying for a master s degree in Chemistry but also opened his eyes to new possibilities for exploration of the stories trapped inside his head Putting the stories to paper began more as a hobby a time alone with his thoughts where he could let his imagination run riot The more he wrote the more he wanted to write During his exams in school he could use an offline computer to type his answers because of terrible handwriting and dyslexia Spending so much time writing helped enormously with his spelling difficulties through the sheer volume of repetition Now he is letting loose the stories from his imagination in the hopes others may get lost in his world as he did with others
