Wortzel, 2013-06-15 China has evolved from a nation with local and regional security interests to a major economic and political power with global interests investments and political commitments It now requires a military that can project itself around the globe albeit on a limited scale to secure its interests Therefore as Larry M Wortzel explains the Chinese Communist Party leadership has charged the People's Liberation Army PLA with new and challenging missions that require global capabilities Advances in technology and the development of indigenous weapons platforms in China combined with reactions to modern conflicts have produced a military force very different from that which China has fielded in the past Wortzel presents a clear and sobering picture of the PLA's modernization effort as it expands into space and cyberspace and as it integrates operations in the traditional domains of war This book will appeal to the specialist in security and foreign policy issues in Asia as well as to the person interested in arms control future warfare and global military strategies The book puts China's military growth into historical context for readers of recent military and diplomatic history Symbolic Insult in Diplomacy Alisher Faizullaev, 2018-07-17 In *Symbolic Insult in Diplomacy A Subtle Game of Diplomatic Slap* Alisher Faizullaev describes how states and their representatives may use manipulative practices for influencing the opponent The author distinguishes three forms of using symbolic insult in diplomacy by misrecognition diplomatic bypassing direct confrontation diplomatic punch and concealed verbal or nonverbal actions diplomatic slap The book focuses on diplomatic slap employing obscure symbolic insult as a means of tacit manipulation Analyzing historical and modern cases Alisher Faizullaev shows that implicit symbolic insult usually appears ambiguously and allows the offender to stay engaged with the victim This work reveals veiled aspects of diplomatic practices and represents a valuable source for students and practitioners of international politics and diplomacy *Russian Cultural Anthropology after the Collapse of Communism* Albert Baiburin, Catriona Kelly, Nikolai Vakhtin, 2012-06-25 In Soviet times anthropologists in the Soviet Union were closely involved in the state's work of nation building They helped define official nationalities and gathered material about traditional customs and suitably heroic folklore whilst at the same time refraining from work on the reality of contemporary Soviet life Since the end of the Soviet Union anthropology in Russia has been transformed International research standards have been adopted and the focus of research has shifted to include urban culture and difficult subjects such as xenophobia However this transformation has been and continues to be controversial with for example strongly contested debates about the relevance of Western anthropology and cultural theory to post Soviet reality This book presents an overview of how anthropology in Russia has changed since Soviet times and showcases examples of important Russian anthropological work As such the book will be of great interest not just to Russian specialists but also to anthropologists more widely and to all those interested in the way academic study is related to prevailing political and social conditions *Air University Library*

Lost Colony Tonio Andrade,2013-08-04 How a Chinese pirate defeated European colonialists and won Taiwan during the seventeenth century During the seventeenth century Holland created the world s most dynamic colonial empire outcompeting the British and capturing Spanish and Portuguese colonies Yet in the Sino Dutch War Europe s first war with China the Dutch met their match in a colorful Chinese warlord named Koxinga Part samurai part pirate he led his generals to victory over the Dutch and captured one of their largest and richest colonies Taiwan How did he do it Examining the strengths and weaknesses of European and Chinese military techniques during the period *Lost Colony* provides a balanced new perspective on long held assumptions about Western power Chinese might and the nature of war It has traditionally been asserted that Europeans of the era possessed more advanced science technology and political structures than their Eastern counterparts but historians have recently contested this view arguing that many parts of Asia developed on pace with Europe until 1800 While *Lost Colony* shows that the Dutch did indeed possess a technological edge thanks to the Renaissance fort and the broadside sailing ship that edge was neutralized by the formidable Chinese military leadership Thanks to a rich heritage of ancient war wisdom Koxinga and his generals outfoxed the Dutch at every turn Exploring a period when the military balance between Europe and China was closer than at any other point in modern history *Lost Colony* reassesses an important chapter in world history and offers valuable and surprising lessons for contemporary times

Rediscovering the Hidden World Hamba Wanzola,2012-11-30 When one has a purpose in life he shall find the means to achieve it and will not lose time to dream It requires determination God is the only who knows the destiny of each individual and we are very grateful to Him for creating me with a black skin and having filled me with His Spirit of truth and judgement to avoid doubt and fear which are the basis of all the troubles This Spirit has lived throughout our research and training in general That life has no draft Our research was painful because it is comparable to the pilgrimage of Jews on their way to the Promised Land The rains that fell on me are similar to the deluge Without realising it the distance I travelled across countries in search of knowledge before writing this book can be compared to a world tour on foot Writing a book is always the work of many hands and minds besides that of the authors This book is dedicated to the Lord God the Almighty source of all life Special thanks to my lovely wife and children for their amazing contributions to make part of the hidden worlds visible to everyone Thanks to the brothers and sisters in the Lord for their prayers to friends and to the extended family near and far for their valuable contributions to make the hidden worlds possible Special thanks to Hannah Cordle Ray Russell Miles Cole Sam Pochen Wanza Maya and Dr Milwood PhD who have given me valuable suggestions throughout my book In particular thanks to the Kongolese diaspora interviewed and authors for their copyrights To my uncles it is time for me to say a big thank you To my parents with regret Marie Pady and Simon Ngangoma who sowed

joy but are not alive to reap the harvest May their souls rest in eternal peace Vibrant tribute to all Kongoleses heroes who died and continue to die for the nation in memory of so many years we shared together in Kongo we love and miss them deeply and will carry their spirit with us until the time we meet again **Sharing the Light** Lisa Raphals,1998-07-30

Sharing the Light explores historical and philosophical shifts in the depiction of women and virtue in the early centuries of the Chinese state These changes had far reaching effects on both the treatment of women in Chinese society and on the formation of Chinese philosophical discourse on ethics cosmology epistemology and self cultivation Warring States and Han dynasty narratives frequently represented women as intellectually adroit politically astute and ethically virtuous these histories discourses and life stories portray women as active participants within their own society not inert victims of it The women depicted resembled sages ministers and generals as the mainstays and destroyers of dynasties These stories emphasized that sagacity intellect strategy and statecraft were virtues proper to women an emphasis that effectively disappeared from later collections and instruction texts by and for women During the same period there were also important changes in the understanding of two polarities that delineated what now is called gender Han correlative cosmology included a range of hierarchical analogies between yin and yang and men and women and the understanding of yin and yang shifted from complementarity toward hierarchy Similarly the doctrine of separate spheres inner and outer nei wai shifted from a notion of appropriate distinction between men and women toward physical social and intellectual separation and isolation
