Barbarians and Brothers Wayne E. Lee,2014 Historian Wayne Lee here presents a searching exploration of early modern English and American warfare including the English Civil War and the American Revolution He shows that in the end the repeated experience of wars with barbarians or brothers created an American culture of war that demands absolute solutions enemies are either to be incorporated or rejected included or excluded And that determination plays a major role in defining the violence used against them Historians on John Gower Stephen Henry Rigby,Siân Echard,2019 John Gower s poetry offers an important and immediate response to the turbulent events of his day The essays here examine his life and his works from an historical angle bringing out fresh new insights The late fourteenth century was the age of the Black Death the Peasants Revolt the Hundred Years War the deposition of Richard II the papal schism and the emergence of the heretical doctrines of John Wyclif and the Lollards These social political and religious crises and conflicts were addressed not only by preachers and by those involved in public affairs but also by poets including Chaucer and Langland Above all though it is in the verse of John Gower that we find the most direct engagement with contemporary events Yet surprisingly few historians have examined Gower s responses to these events or have studied the broader moral and philosophical outlook which he used to make sense of them Here a number of eminent medievalists seek to demonstrate what historians can add to our understanding of Gower s poetry and his ideas about society the nobility and chivalry the peasants and the 1381 revolt urban life and the law the Church the clergy papacy Lollardy monasticism and the friars gender masculinity and women and power politics political theory and the deposition of Richard II and science and astronomy The book also offers an important reassessment of Gower s biography based on newly discovered primary sources STEPHEN RIGBY is Emeritus Professor of Medieval Social and Economic History at the University of Manchester SIAN ECHARD is Professor of English University of

parliament gender and religion Edward the Black Prince is essential reading for all students and scholars concerned with society culture and power in medieval Europe Commercializing Cosmopolitan Security Andreas Krieg,2016-09-07 This book analyses two key topics within international politics the responsibility to protect R2P and the commercialization and privatization of security In a world of ungoverned spaces state failure and erupting humanitarian crises the international community is increasingly called upon to exercise its responsibility to protect communities under threat Here Krieg explains the civil military dynamics behind the state s failure to effectively intervene in humanitarian crises overseas using its serviceman The central question that follows is would the private military contractor be a better alternative agent of the state in humanitarian intervention This book demonstrates that given his professional identity and role towards client state and public the contractor can be employed effectively in humanitarian intervention to generate more ethical outcomes This volume is essential reading for researchers and post graduate students of R2P International Security Studies and privatization as well as Peace and Conflict studies and International Relations more broadly **Military Literature in the Medieval Roman World and Beyond** ,2024-05-21 What do the mysterious Roman author Vegetius the Byzantine emperor Leo VI and the Chinese general Li Jing all have in common They are three of the dozens of authors across the medieval Mediterranean world and beyond who wrote works of military literature sometimes called military handbooks manuals or treatises This book brings together a multidisciplinary international team of scholars who present cutting edge essays on diverse aspects of medieval military literature While some chapters offer novel approaches to familiar authors like Vegetius some present research on under valued topics like Byzantine military illustrations and others provide holistic studies on subjects like early modern treatises they all move the discussion of medieval military literature forward Contributors are Michael B Charles Georgios Chatzelis Pierre Cosme Maxime Emion Immacolata Eramo Michael Fulton David Graff John Haldon Catharine Hof John Hosler Savvas Kyriakidis ukasz R ycki Katharina Schoneveld Georgios Theotokis Conor Whately Michael Whitby and Nadya Williams Just Wars and Moral Victories David Whetham,2009-06-02 While recognising the sophistication of the practice of medieval warfare many people still have problems reconciling the widespread use of surprise and deception with the code of chivalric warfare Was chivalry really just a meaningless veneer If true perhaps more perplexing are the many cases where surprise or deception were not employed and advantages were therefore sacrificed This work argues that understanding these apparent inconsistencies requires an appreciation of the moral and legal context of medieval strategic thought Through taking this approach chivalric warfare can be seen for what it was a very real framework or system of rules that allowed a result or decision to be reached which could be accepted by both sides
