*Religiosity, Cosmology and Folklore* Therese E. Higgins, 2014-05-22 This book presents background information on the beliefs customs traditions and cosmologies of several of Africa s foremost peoples relates these findings to each of Morrison s seven novels by highlighting the connections between the African root and the African American product and elucidates how this connection helps to understand and to clarify many of Morrison s allusions to the culture out of which she writes It presents a new way of reading Morrison s work that has been previously overlooked and moves beyond just African American culture delving into Africa and its people

**Learning Jazz** Ken Prouty, 2023-11-27 Learning Jazz Jazz Education History and Public Pedagogy addresses a debate that has consumed practitioners and advocates since the music s early days Studies on jazz learning typically focus on one of two methods institutional education or the kinds of informal mentoring relationships long associated with the tradition Ken Prouty argues that this distinction works against a common identity for audiences and communities Rather what happens within the institution impacts and is impacted by events and practices outside institutional contexts While formal institutions are well defined in educational and civic contexts informal institutions have profoundly influenced the development of jazz and its discourses Drawing on historical case studies Prouty details significant moments in jazz history He examines the ways that early method books capitalized on a new commercial market commandeering public expertise about the music Chapters also discuss critic Paul Eduard Miller and his attempts to develop a jazz canon as well as the disconnect between the spotlighted great men and the everyday realities of artists Tackling race in jazz education Prouty explores the intersections between identity and assessment bandleaders Stan Kenton and Maynard Ferguson public school segregation Jazz at Lincoln Center and more He further examines jazz s public pedagogy and the sometimes difficult relationships between jazz people and the general public Ultimately Learning Jazz posits that there is room for both institutional and noninstitutional forces in the educational realm of jazz

Quiet As It's Kept J. Brooks Bouson, 2000-01-01 Focuses on the role of shame and trauma as it looks at issues of race class color and caste in the novels of Toni Morrison      **Narrative Conventions and Race in the Novels of Toni Morrison**

Jennifer Lee Jordan Heinert, 2012-11-12 This study analyzes the relationship between race and genre in four of Toni Morrison's novels *The Bluest Eye* *Tar Baby* *Jazz* and *Beloved* Heinert argues how Morrison's novels revise conventional generic forms such as bildungsroman folktales slave narratives and the formal realism of the novel itself This study goes beyond formalist analyses to show how these revisions expose the relationship between race conventional generic forms and the dominant culture Morrison's revisions critique the conventional roles of African Americans as subjects of and in the genre of the novel and re-write roles which instead privilege their subjectivity This study provides readers with new ways of understanding Morrison's novels Whereas critics often fault Morrison for breaking with traditional forms and resisting resolution in her novels this analysis shows how Morrison's revisions shift the narrative truth of the novel from its representation in conventional forms to its interpretation by the readers who are responsible for constructing their own resolution or version of narrative truth These revisions expose how the dominant culture has privileged specific forms of narration in turn these forms privilege the values of the dominant culture Morrison's novels attempt to undermine this privilege and rewrite the canon of American literature      Harlem, Mecca of the New Negro Alain LeRoy Locke, 1980 The contributors to this edition

include W E B Du Bois Arthur Schomburg James Weldon Johnson Langston Hughes and Countee Cullen *Harlem Mecca* is an indispensable aid toward gaining a better understanding of the Harlem Renaissance      **The Poetics of National and Racial Identity in Nineteenth-Century American Literature** John D. Kerkerling, 2003-12-11 John D. Kerkerling's study examines the literary history of racial and national identity in nineteenth-century America Kerkerling argues that writers such as DuBois Lanier Simms and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape Kerkerling explores poetry's formal properties its sound effects as they intersect with the issues of race and nation He shows how formal effects ranging from meter and rhythm to alliteration and melody provide these writers with evidence of a collective identity whether national or racial Through this shared reliance on formal literary effects national and racial identities Kerkerling shows are related elements of a single literary history This is the story of how poetic effects helped to define national identities in Anglo-America as a step toward helping to define racial identities within the United States This highly original study will command a wide audience of Americanists      *Delightful* Lee Jeffery S. McMillan, 2008 The story of

one of the most individual jazz stylists of his time      A Diary of the Underdogs Don Alberts, 2008-06-17 Historical documentation and perspectives on jazz music the social and political music environment of the period of the 1960s in San Francisco told by local musicians with their stories and interviews Back cover      *Toni Morrison* Pelagia
