Herbert Lockyer's Major Themes of the New Testament Herbert Lockyer,2014-02-21 Unlocking the Truths of ScriptureBest selling author and legendary Bible teacher Dr Herbert Lockyer identifies and explains nineteen major themes found in the New Testament He explores and examines clearly some of the Bible s most basic doctrines such as The atmosphere of prayer The teaching of salvation The wondrous cross The features of judgment The second advent The purpose of suffering The rapture Whether you are a longtime follower of Jesus or new to the faith Herbert Lockyer s teachings will bring a fresh perspective to your understanding of the New Testament *Did it Really Happen?* Jonathan A. Wood,2019-09-04 The Bible makes remarkable claims about people and events in world history Creation Adam and Eve Israel s escape from Egypt the rise and fall of Israel s kingdom the birth of the Messiah Jesus Christ s life death and resurrection the growth of the church all points of interest by scholars for the historical veracity of the Scriptures Yet the Bible does not appear to present the acts of God in history for the purpose of vindicating historical accuracy of the text The Bible is a story

that reveals the living God through inspired writings that communicate the meaning of historical events In light of the Bible as the revelation of God and the high stakes of historical veracity for the claims of the Bible how should Christians approach the interpretation of the Scriptures in a faithful way Carl F H Henry offers guidance as a foremost theologian regarding God revelation and the Scriptures In Did it Really Happen Jonathan Wood engages the thought of Carl Henry in dialogue with the major alternatives to revelation history and the biblical text The value of Carl Henry s approach is shown to provide a path forward for affirming the historicity of the Bible while interpreting the text well *Revisioning Evangelical Theology* Stanley J. John Gerstner and the Renewal of Presbyterian and Reformed Evangelicalism in Modern America Jeff McDonald, 2017-11-09 John Gerstner 1914-96 was a significant leader in the renewal of Presbyterian and Reformed evangelicalism in America during the second half of the twentieth century Gerstner's work as a church historian sought to shape evangelicalism but also northern mainline Presbyterianism In order to promote evangelical thought he wrote, taught, lectured, debated, and preached widely In pursuing his aims he promoted the work of the great colonial theologian Jonathan Edwards He also defended and endorsed biblical inerrancy and the Old Princeton theology Gerstner was a sharp critic of theological modernism and what he considered its negative influence on the church Part of Gerstner's fame was his active participation in mainline Presbyterianism and in so many of the smaller Presbyterian denominations and in the wider evangelical movement His renewal efforts within the United Presbyterian Church USA later PCUSA were largely a failure but they did contribute to the surprising resurgence of Presbyterian and Reformed evangelicalism Evangelical marginalization in the mainline led Gerstner and other evangelicals to redirect their energy into new evangelical institutions, groups, and denominations Gerstner's evangelical United Presbyterian Church of North America (UPCNA) background influenced the young scholar and the legacy of the UPCNA's heritage can be detected in the popular forms of the Presbyterian and Reformed evangelical movement that exist today Moreover he was significant for the revival of Reformed teaching beyond the bounds of Presbyterianism This book establishes Gerstner's significance in American church history and provides a thorough analysis of the evangelical movement he sought to reinvigorate

The Mission and Death of Jesus in Islam and Christianity Mathias Zahniser, 2015-03-11 The common wisdom is that Christians and Muslims should dialogue only about what they agree on This book takes a different approach As the author observes If we focus only on our common ground we will miss some of the motivating force of our traditions because that force derives not only from what we hold in common but also from those convictions that keep us apart

Narratives of Tampering in the Earliest Commentaries on the Qur'ān Gordon Nickel, 2010-12-17 The Muslim accusation of the corruption or deliberate falsification of pre-Qur'anic scriptures has been a major component of interfaith polemic for a millennium or more The accusation has frequently sought attestation from a series of tampering verses in the Qur'an Investigation of the interpretation of these verses in the earliest

commentaries on the Qur'an however reveals a discrepancy between the confident polemical accusation and the tentative understandings of the first Muslims. Of greater interest to early commentators was a story of deception and obstinacy by the People of the Book in response to the truth claims of Islam. Focusing on the eighth century commentary of Muqatil ibn Sulayman and the great exegetical compendium of al-Jabarid 923, this book sketches the outlines of the earliest Muslim approach to pre-Qur'anic scriptures. The resulting discoveries provide a rare opportunity to peek behind the curtain of doctrinaire claim and polemical debate.

Apocalypse and Anti-Catholicism in Seventeenth-Century English Drama Adrian Streete, 2017-08-17 This book examines the many and varied uses of apocalyptic and anti-Catholic language in seventeenth-century English drama. Adrian Streete argues that this rhetoric is not simply an expression of religious bigotry nor is it only deployed at moments of political crisis. Rather, it is an adaptable and flexible language with national and international implications. It offers a measure of cohesion and order in a volatile century. By rethinking the relationship between theatre, theology, and polemic, Streete shows how playwrights exploited these connections for a diverse range of political ends. Chapters focus on playwrights like Marston, Middleton, Massinger, Shirley, Dryden, and Lee, and on a range of topics including imperialism, reason of state, commerce, prostitution, resistance, prophecy, church reform, and liberty. Drawing on important recent work in religious and political history, this is a major reinterpretation of how and why religious ideas are debated in the early modern theatre.

Evidence of God Nick Hawkes, 2012-03-23 Nick Hawkes looks at arguments for and against the existence of God and comes to the conclusion that faith can no more dispense with science than science can dispense with God. Both complete one another. He knows the terrain well and is able to explain complex ideas in ordinary language. Dr Hawkes concludes by saying that Christian theology, rather than undermining science, actually provides science with a solid ground of meaning on which to stand. P. 4 of cover.

A Return to the Heart Frank L. Bartoe, 2023-07-21

When we approach such men as St Bernard of Clairvaux and John Calvin, we are approaching two men who were not only significant figures of their time but figures standing on opposite shorelines of the influence and impact of Scholasticism, as well as a tumultuous decline in orthodoxy. Despite this reality, what is most compelling about these two men is the continuity of their developed thought, even though they were worlds apart, separated by time. This continuity is most assuredly grounded in their historical sources and, more importantly, their faithful handling of

God's word That continuity although not point for point was rather for the significant part of the structure and content sum and substance of the twofold knowledge of God and self For both of these men this doctrine was fundamental permeating the whole of their world and life philosophy Bernard and Calvin clearly saw the implications of this twofold knowledge These implications manifest in the realm of various doctrines and the network of their system of thought This book seeks to explore those various components of their twofold knowledge of God and self as well as the implications in the realm of experiential Christianity
