In its first part, this book summarizes the evolution and features of these successive sets of European regulations. Among others, it covers the UCITS eligible assets, the key parties involved in UCITS funds operations, their reporting and information requirements, taxation, and many other useful related subjects to give a short but useful understanding of the UCITS world. Beside the UCITS IV directive, the new Risk Measurement and the Calculation of Global Exposure and Counterparty Risk for UCITS, the famous ref 10 788 Guidelines of the Committee of the European Securities Regulators (CESR). The Guidelines require some technical skills. The second part of this book reproduces the CESR's Guidelines punctuated with comments and prerequisites of quantitative finance to help for a better understanding of the content and significance of this UCITS IV objective.
