Labaune-Demeule,2016-01-14 Whether one thinks of the modern world or of more remote times both seem to have been affected if not moulded by the interaction between the concepts of authority and displacement Indeed political and social sources of authority have often been the causes of major geographical displacements as can be illustrated by the numerous waves of migration which have been observed in the past and which are still present today such as the transportation of slaves from African to American coasts in colonial times If displacement can often be understood as spatial displacement it can also be synonymous with psychological social and even aesthetic displacement for instance through different artistic means or through the use of stylistic discursive devices Displacement also entails displacement dislocation as well as dislocation or chaos This suggests that the etymological meaning of the term authority auctoritas has to be highlighted thus referring to the author of a particular work and to the different manifestations of the authorial persona in a work of art This collection of essays in two volumes examines the relationships between the concepts of authority and displacement in the English speaking world without restricting the analysis to a particular area or to the field of literature Some essays do indeed deal with literature from different spatial areas and temporal eras while others look into these concepts from a more cultural or aesthetic point of view Volume Two Exploring American Shores includes essays on the place of famous fugitives in American culture notably through the story of Bonnie and Clyde as well as on the links between displacement authority and sculpture on the one hand Placing and Replacing the Capitol Sculptures and on the links between displacement and photography on the other through a study of Joel Sternfeld's Walking the High Line In addition to investigations of Louise Erdrich's novel Books and Islands in Ojibwe Country Canadian landscapes in transit will be studied to highlight the displacement of the Western landscape tradition in English Canada The volume concludes with a study of some literary works by several writers of Guyanese origin first with an essay comparing Martin Carter's and L on Gontran Damas's literary productions and then with an essay devoted to Fred D Aguiar's novel The Longest Memory 1994 *QUIZSHEETS* Graham Redman,2013-11 These sheets should be useful to anybody who writes pub quizzes or a quiz for a charity fund raising event or they can be used as a bank of questions or even just to challenge yourself They are designed to be photocopied as a written quiz and hence they have spaces for the answers and team names There are 80 sheets with an average of about 25 questions on each that's over 2000 questions They are called Half Time Quiz because you can use them for the written part of the quiz which is usually handed in at half time or the interval for marking This is the part of the quiz that can take much longer to compile *Chambers Book of Facts* ,2007 Nowhere else can such a wealth of facts and figures be found in one
