Book Of Elegiac Geography:

The Book of Elegiac Geography Sam Hamill, 1978 **Contesting Europe**, 2019-12-09 While the term Europe was used sporadically in ancient and medieval times it proliferated between the fifteenth and sixteenth centuries and gained a prevalence in the seventeenth and eighteenth centuries which it did not possess before Although studies on the history of the idea of Europe abound much of the vast body of early modern sources has still been neglected Assuming that discourses tend to transcend linguistic historical and generic boundaries this book has gathered experts from various fields of study who examine vernacular and Latin negotiations of Europe from the late fifteenth to the early eighteenth century This multi angled approach serves to identify similarities and differences in the discourses on Europe within their different national and cultural communities Contributors are Ovanes Akopyan Volker Bauer Piotr Chmiel Nicolas Detering Stefan Ehrenpreis Niels Gr ne Peter Hanenberg Ulrich Heinen Ronny Kaiser Niall Oddy Katharina N Piechocki Dennis Pulina Marion Romberg Lucie Storchov Isabella Walser B rgler Michael Wintle and Enrico Zucchi *Geography of Time, Place, Movement and Networks, Volume 5* Stanley D. Brunn, 2024-05-27 This book investigates both early as well as recent accounts of journeys by women and families in African Asian East European North and Latin American contexts It discusses how places place settings and transport routes whether by land sea or air were and remain important in the impacts these newcomers have on states and regions The contributions to this book provide insight in laws and regulations related to women s and refugees rights They highlight the importance of place and location in defining rights and implementing reforms such as the importance of the politics and the state in identifying rights in global contexts of refugee resettlement cross border employment security and reshaping human institutions as well as the changing legal landscape related to for instance women participating in the Olympic Games and in national sports The book also touches on the worlds of family landscapes mapping family trees family cemeteries and redefining immigrant city mixes As such the book offers readers to explore past present and future issues faced by women and families regardless of place or country *Latin Elegy and the Space of Empire* Sara H. Lindheim, 2021 This book explores the ways in which Latin poets of the late Republic and the Augustan Age participate in a new cultural preoccupation with the dramatically expanding geographical space of empire *Propertius* A.M. Keith, 2008-11-10 Explores Propertius elegiac poetry in the context of early imperial Roman society Examining a variety of themes associated with both Propertian poetics and the poet s social context within the early Augustan principate this work offers an overview of Propertius achievement in his four books of elegies *Cartographic Humanism* Katharina N. Piechocki, 2021-09-13 Piechocki calls for an examination of the idea of Europe as a geographical concept tracing its development in the 15th and 16th centuries What is Europe and when did it come to be In the Renaissance the term Europe circulated widely But as Katharina N Piechocki argues in this compelling book the continent itself was only in the making in the fifteenth and sixteenth centuries Cartographic Humanism sheds new light on how humanists negotiated and defined Europe s boundaries

at a momentous shift in the continent's formation when a new imagining of Europe was driven by the rise of cartography. As Piechocki shows, this tool of geography, philosophy, and philology was used not only to represent but more importantly also to shape and promote an image of Europe quite unparalleled in previous centuries. Engaging with poets, historians, and mapmakers, Piechocki resists an easy categorization of the continent, scrutinizing Europe as an unexamined category that demands a much more careful and nuanced investigation than scholars of early modernity have hitherto undertaken.

Unprecedented in its geographic scope, *Cartographic Humanism* is the first book to chart new itineraries across Europe as it brings France, Germany, Italy, Poland, and Portugal into a lively interdisciplinary dialogue. **Library of Congress Subject Headings**

Roman Love Elegy and the Eros of Empire Phebe Lowell Bowditch, 2023-05-22 This book explores Roman love elegy from postcolonial perspectives, arguing that the tropes, conventions, and discourses of the Augustan genre serve to reinforce the imperial identity of its elite metropolitan audience. Love elegy presents the phenomena and discourses of Roman imperialism in terms of visual spectacle, the military triumph, literary genre, epic, in relation to elegy, material culture, art, and luxury goods, and geographic space, as intersecting with ancient norms of gender and sexuality in a way that reinforces Rome's dominance in the Mediterranean. The introductory chapter lays out the postcolonial frame, drawing from the work of Edward Said, among other theorists, and situates love elegy in relation to Roman Hellenism and the varied Roman responses to Greece and its cultural influences. Four of the six subsequent chapters focus on the rhetorical ambivalence that characterizes love elegy's treatment of Greek influence: the representation of the domina or mistress as simultaneously a figure for captive Greece and a trope for Roman imperialism; the motif of the elegiac triumph with varying figures playing the triumphator as suggestive of Greco-Roman cultural rivalry; Rome's competing visions of an Attic and an Asiatic Hellenism. The second and the final chapter focus on the figures of Osiris and Isis, respectively, as emblematic of Rome's colonialist and ambivalent representation of Egypt, with the conclusion offering a deconstructive reading of elegy's rhetoric of orientalism. **Library of Congress Subject Headings**

Library of Congress. Subject Cataloging Division, 1988 **A Companion to Poetic Genre** Erik Martiny, 2011-10-13 A COMPANION TO POETIC GENRE A COMPANION TO POETIC GENRE This eagerly awaited Companion features over 40 contributions from leading academics around the world and offers critical overviews of numerous poetic genres. Covering a range of cultural traditions from Britain, Ireland, North America, Japan, and the Caribbean, among others, this valuable collection considers ancient genres such as the elegy, the ode, the ghazal, and the ballad, before moving on to Medieval and Renaissance genres originally invented or codified by the Troubadours or poets who followed in their wake. The book also approaches genres driven by theme, such as the calypso and found poetry. Each chapter begins by defining the genre in its initial stages, charting historical developments, and finally assessing its latest mutations, be they structural, thematic, parodic, assimilative, or subversive. *Gray's Elegy, and Goldsmith's Traveller and Deserted village, with notes by F.
