The Fold Series Books 1-3 Nick Adams, 2021-01-29 This needs to be picked up by Netflix and made into a TV show Absolutely brilliant Goodreads In the vein of great writers like Harry Harrison and Robert A Heinlein Amazon Nick Adams is a storyteller of rare ability Goodreads I read a lot of sci fi and this is in the top percent Amazon Superb writing editing and excellent storytelling Kobo The best sci fi series I have read in a while Amazon The Initial Fold Book 1 What would you do if you materialised inside an alien starship It's 2049 and NASA sponsored physicist Edward Virr is on the cusp of man's greatest breakthrough the ability to fold space and travel faster than light He personally tests NASA's futuristic prototype fold ship with a hand picked crew But as disaster strikes the first mission Ed begins to suspect that he isn't the only one developing the new technology Discovering there's a lot more at stake than first contact Ed soon realises that Earth's very survival depends on his ability to solve a crime of galactic proportions Join Edward Virr and his rag tag crew as they undertake their first space adventure into the depths of the Milky Way The Andromedan Fold Book 2 The crew of your starship are being systematically slaughtered What do you do The galaxies ruling council have lost two ships thousands of light years distant on the outer fringe of the Milky Way A civilian exploration vessel and the military ship sent to find it have disappeared without a trace Edward Virr and the crew of the sentient starship Gabriel are tasked with a mission to discover

what happened They find not only the two misplaced ships but a secret to intergalactic travel the biggest invasion fleet ever assembled and a ruling alien race so cruel it could end all of humankind Join Ed and company for their second crusade into the depths of uncharted space Only this time the team are alone two and a half million light years from home they re being hunted and nothing it seems goes to plan The Messier Fold Book 3 To protect your family s secrets how many people would you murder Planet Earth s first maximum security jail break involving a cloaked spacecraft necessitates Edward Virr and the crew of the sentient starship Gabriel to give chase Emboldened by the addition of Andrew s father a retired FBI investigator they pursue their quarry over 250 million light years through a recently discovered galactic gateway and find themselves immediately fighting for survival Two races at war for millennia over lust for power and greed don t take kindly to strangers appearing in their midst and push our heroes abilities so far it culminates in an unspeakable tragedy Meanwhile their quarry have problems of their own The Fold Series The Initial Fold The Andromedan Fold The Messier Fold The Cygnus Fold The Acheron Fold The Medusa Fold The Halo Fold Author Note For the benefit of my awesome fans across the pond this novel is written in UK English and may include a few colloquialisms and spellings that you don t recognise There is understandably considering the circumstances a bit of swearing involved We do swear a bit in England just put it down to eccentricity or maybe our spirited Anglo Saxon heritage Another unusual trait of the Brits is to use humour in stressful situations Just ask anyone who s been on active service with the British Armed Forces It helps to keep one sane Now you re all prepared I hope you enjoy the yarns Cheers for now Nick Adams

Fascinating Facts About Phytonutrients in Spices and Healthy Food
Louis S. Premkumar, 2014-03-25 For centuries there have been claims that healthy food garnished with exotic spices and condiments provides vital nutrients that help ward off diseases especially preventable diseases such as diabetes and heart disease hypertension coronary artery disease and promote longevity The purpose of writing this book is to update the public about the health benefits of ingredients phytochemicals in spices and healthy food using existing scientific evidence The ultimate proof of health benefits will be deciphered by the isolation and identification of specific phytochemicals acting on specific receptors in the body exerting their biological effects The important point being emphasized is that if the physiological effect of an ingredient is glaring it is considered to elicit a significant response However when the effect of an ingredient is significant yet the effect is not readily perceivable then the usefulness goes unnoticed and can be questioned as a myth For example coffee has several ingredients but only caffeine acting on the adenosine receptors stimulates the central nervous system and promotes wakefulness Similarly the specific active ingredient in hot chili pepper capsaicin activates a member of a recently identified family of receptors called transient receptor potential TRP channels TRP vanilloid 1 TRPV1 which is involved in certain modalities of pain promotes the release of hormones in the gastrointestinal GI tract Although the bioavailability of the active ingredients is low it is important to realize that these ingredients can cause significant local effects in the GI tract by preventing cholesterol regeneration by subduing microbiota inhibiting precancerous growth by

promoting calcium influx and stimulating nerve endings to transmit information and to release of gut hormones that are involved in regulating a variety of functions including appetite and satiety **Cooking with Chiles** Clifford
