of thousands and thus improve people's living conditions and contribute to the development of the country. Major reason for Asian investors to shift their focus to Ethiopia are extremely low wages and the lower production costs involved. The Ethiopian textile industry has to deal with high rates of labor turnover and absenteeism. From the perspective of the mostly international managers, the reason for turnover and absenteeism is often attributed to the mindset of the predominantly female workforce. A research project financed by the German Bundesministerium für wirtschaftliche Zusammenarbeit und Entwicklung is looking at reasons and possible measures to solve this problem. Results of this project conducted at the University of Giessen by Michaela Fink and Reimer Gronemeyer together with Ethiopian colleagues are presented in this book. Experts from Ethiopia and Germany are presenting the history of the textile industry in Ethiopia and the coming development. All this is framed by the discussion of present crisis Covid 19, the war in Ethiopia. Parliamentary Debates.
