**Absolute MacInnes** Colin MacInnes, Tony Gould, 1985-01      Radical Fictions Nick Bentley, 2007 Nick Bentley takes a fresh look at English fiction produced in the 1950s By looking at a range of authors he shows that the novel of the period was far more diverse and formally experimental than previous accounts have suggested      **Absolute Beginners** Colin MacInnes, 1962      Worlds Gone Awry John J. Han, C. Clark Triplett, Ashley G. Anthony, 2018-08-30 Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as *The Lord of the Flies* *The Heart Goes Last* *The Giver* and *The Strain Trilogy* as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails      ,      *Whiteness and the Visual Appropriation of Race in 1980s Britain* Stephanie Polsky, 2025-10-16 This volume delves into the complex topic of race relations in 1980s Britain by examining the concept of whiteness and how it was portrayed visually in popular art and mass media Chapters explore pivotal moments in which the appropriation of race occurred during this critical decade as they relate to the nation's evolving postcolonial identity This book analyses pivotal cultural moments in print media fashion film television music video art and live events that exemplify how race gender and sexuality became operative in the way Britain imagined itself in this crucial decade It contends that the lens of its former colonial empire played a significant role in shaping Britain's self image throughout the 1980s despite its appearance as a postcolonial and multicultural nation The book will be of interest to scholars working in art history visual culture media studies cultural studies and critical race theory      **Absolute Beginners** Colin MacInnes, 2011-10-06 London 1958 In the smoky jazz clubs of Soho and the coffee bars of Notting Hill the young and the restless the absolute beginners are forging a new carefree lifestyle of sex drugs and rock n roll Moving in the midst of this world of mods and rockers Teddy gangs and trades and snapping every scene with his trusty Rolleiflex is MacInnes young photographer whose unique wit and honest views remain the definitive account of London life in the 1950s and what it means to be a teenager In this twentieth century cult classic MacInnes captures the spirit of a generation and creates the style bible for anyone interested in Mod culture and the changing face of London in the era of the first race riots and the lead up to the swinging Sixties      *Popular Postcolonialisms* Nadia Atia, Kate Houlden, 2018-07-04 Drawing together the insights of postcolonial scholarship and cultural studies *Popular Postcolonialisms* questions the place of the popular in the postcolonial paradigm Multidisciplinary in focus this collection explores the extent to which popular forms are infused with colonial logics and whether they can be employed by those advocating for change It considers a range of fiction film and non hegemonic cultural forms engaging with topics such as environmental change language activism and cultural imperialism alongside analysis of figures like Tarzan and Frankenstein Building on the work of cultural theorists it asks whether the popular is actually where elite conceptions of the

world may best be challenged It also addresses middlebrow cultural production which has tended to be seen as antithetical to radical traditions asking whether this might in fact form an unlikely realm from which to question critique or challenge colonial tropes Examining the ways in which the imprint of colonial history is in evidence interrogated mythologized or sublimated within popular cultural production this book raises a series of speculative questions exploring the interrelation of the popular and the postcolonial

**London's New Scene** Lisa Tickner, 2020-07-07 A groundbreaking and extensively researched account of the 1960s London art scene In the 1960s London became a vibrant hub of artistic production Postwar reconstruction jet air travel television arts programs new color supplements a generation of young artists dealers and curators the influx of international film companies the projection of creative Britain as a national brand all nurtured and promoted the emergence of London as a new capital of art Extensively illustrated and researched this book offers an unprecedented rich account of the social field that constituted the lively London scene of the 1960s In clear fluent prose Tickner presents an innovative sequence of critical case studies each of which explores a particular institution or event in the cultural life of London between 1962 and 1968 The result is a kaleidoscopic view of an exuberant decade in the history of British art

The Secret Public Jon Savage, 2025-02-04 Rolling Stone UK Best Music Books of the Year A monumental history of the gay influence on popular culture from the rise of Little Richard to the collapse of disco in 1979 award winning author Jon Savage takes us on a fast and captivating journey through the history of pop music as seen through the eyes of queer artists Jon Savage the author of the canonical *England's Dreaming* explodes new ground in this electrifying history of pop music from 1955 through 1979 In demonstrating that gay and lesbian artists were responsible for many of the greatest cultural breakthroughs in the last half of the twentieth century he shows that it was their secretly encoded music appealing to a closeted but greatly oppressed public which led to the historic dismantling of discriminatory gay laws and the fusion of queer and straight culture Fittingly Savage's kaleidoscopic work begins with the pomp and pompadour appearance of Little Richard whose relentlessly driving sound replete with gospel shrieks and sexual contortions enthralled a generation of 1950s stultified white teenagers Things soon went mainstream as Elvis enthralled a nation with his seductive low moans and bump and grind twists heavily derivative of Black music while James Dean and Rock Hudson became the face of 1950s Hollywood yet this explosion of queer expression remained covert and could not be accepted for what it was While music with supporting roles from cinema and fashion became the key medium through which homosexuality could be clandestinely enacted overt expressions of gay behavior were met with arrests and crackdowns While hippies reveled in 1967's Summer of Love gays remained harassed by police demonized by the media and politicians imprisoned simply for being who they were J Edgar Hoover himself a closeted homosexual continued to spy on homosexual deviants CBS's Mike Wallace aired an invidious show about homosexuality and the New York police continued to raid gay bars Yet the music itself produced a cultural eruption that simply could not be stanchd While Bette Midler sang Boogie Woogie Bugle Boys to a Continental Baths

audience of 600 gay men all naked except for towels David Bowie blew the whole topic wide open and became the most totemic pop star of his generation Even though roadblocks remained the gear grinding crunch of the music signaled that the gay civil rights movement could no longer be suppressed Ending the narrative with the sudden collapse of disco The Secret Public asserts then that the genie was out of the bottle that queer culture had finally entered the mainstream producing a transcendent vision of pop culture that could never be marginalized again     *The Road to Romance and Ruin* Jon Lewis,2013-12-04 This book analyses the teen film as the rare medium able to represent the otherwise chaotic and conflicting experience of youth The author focuses on six major issues alienation deviance and delinquency sex and gender the politics of consumption the apolitics of youth full rebellion and regression into nostalgia Despite the many differences within the genre this book sees all teen films as focused on a single social concern the breakdown of traditional forms of authority school church family Working with the theories of such diverse scholars as Kenneth Keniston Bruno Bettelheim Erik Erikson Theodor Adorno Simon Frith and Dick Hebdige the author draws an innovative and flexible model of a cultural history of youth Originally published in 1992     Interconnecting Music and the Literary Word Fausto Ciompi,Roberta Ferrari,Laura Giovannelli,2018-07-27 Dealing with the interconnections between music and the written word this volume brings into focus an updated range of analytical and interpretative approaches which transcend the domain of formalist paradigms and the purist assumption of music's non referentiality Grouped into three thematic sections these fifteen essays by Italian British and American scholars shed light on a phenomenological network embracing different historical socio cultural and genre contexts and a variety of theoretical concepts such as intermediality the soundscape notion and musicalisation At one end of the spectrum music emerges as a driving cultural force an agent cooperating with signifying and communication processes and an element functionally woven into the discursive fabric of the literary work The authors also provide case studies of the fruitful musico literary dialogue by taking into account the seminal role of composers singer songwriters and performers From another standpoint the music in literature and literature in music dynamics are explored through the syntax of hybridisations transcoding experiments and iconic analogies     **Graphic Design** Paul Jobling,David Crowley,1996 This is an inventive a well researched study which explores the production and consumption of graphic design in Europe     **Youth, Training and the Training State** Michael Neary,2016-07-27 This work uncovers the real history of modern youth providing an explanation of its predicament that goes beyond the mainstream accounts as perpetrated by the sociology of youth Tracing the development of training of young workers from 1814 the book reveals for the first time the creation by post war legislation of the modern category of youth The book concludes that with the prevailing conditions of employment there is no longer any future for youth as youth The recent history of youth is an attempt to recompose a sustainable existence for itself and society     **Postcolonial London** John McLeod,2004 This superb study explores the imaginative transformation of the city by African Asian Caribbean and South Pacific writers since the 1950s     **Songbooks** Eric Weisbard,2021-04-23 In

Songbooks critic and scholar Eric Weisbard offers a critical guide to books on American popular music from William Billings' 1770 New England Psalm Singer to Jay Z's 2010 memoir *Decoded*. Drawing on his background editing the Village Voice music section, coediting the Journal of Popular Music Studies and organizing the Pop Conference, Weisbard connects American music writing from memoirs, biographies, and song compilations to blues, novels, magazine essays, and academic studies. The authors of these works are as diverse as the music itself: women, people of color, queer writers, self-educated scholars, poets, musicians, and elites discarding their social norms. Whether analyzing books on Louis Armstrong, the Beatles, and Madonna, the novels of Theodore Dreiser, Gayl Jones, and Jennifer Egan, or varying takes on blackface minstrelsy, Weisbard charts an alternative history of American music as told through its writing. As Weisbard demonstrates, the most enduring work pursues questions that linger across time period and genre: cultural studies in the form of notes on the fly, on sounds that never cease to change meaning.

*Brit Cult* Andrew Calcutt, 2001. From Acid Jazz to Peter Sellers, a quick take who's who of British pop culture. From the Swinging 60s and the mods from the seventies and the punks to Generation E, Britpop, and Cool Britain, the past 50 years have seen a steady stream of world-sweeping movements, trends, and styles come out of the British Isles. In this hip, fast-paced look at who's who and what's what of British popular culture, cultist Andrew Calcutt explores more than 200 key people, products, and phenomena in British popular culture. Calcutt deftly deconstructs hundreds of Brit Cult icons such as Monty Python, J.G. Ballard, Nick Hornby, Martin Amis, Doc Martens, E-Type, Jaguars, glam and goth, Malcolm McLaren, Blur, Oasis, The Kinks, The Who, and the Stones, and identifies who or what they are, what they represent to us, and what they have in turn inspired. Each entry is a brief stand-alone essay providing biographical details, analysis, observation, and opinion, but taken together, the essays add up to a revealing portrait of the good, the bad, racist skinheads, and the ugly football hooligans of British pop culture in all its many facets.

**Body Parts** Hermione Lee, 2010-04-27. As readers, we seem to be increasingly fascinated by studies of individual lives. In this timely, unusual, and exhilarating collection, Hermione Lee is concerned in different ways with approaches to life writing: the relation of biography to fiction and history; the exploration of writers' lives in connection with their works; the new and changing ways in which biographies, memoirs, diaries, and autobiographies can be discussed. As the title suggests, she also unravels the complex links between physical, sensual details and the body of a work. Shelley's *Heart* and Pepys's *Lobsters*, for example, deal with myths, contested objects, and things that go missing. While Jane Austen's *Faints* takes five varied accounts of the same dramatic moment to ask how biography deals with the private lives of famous women, a theme taken up in Virginia Woolf's *Nose* on the way that the author's life stories have been transformed into fiction and film. Rich, diverting, and entertaining, these brilliant studies by a leading critic and internationally acclaimed biographer raise profound and intriguing issues about every aspect of writing and reading a life.

*Swinging City* Simon Rycroft, 2016-03-09. This book works with two contrasting imaginings of 1960s London: the one of the excess and comic vacuousness of Swinging London; the other of the radical and experimental

cultural politics generated by the city's counterculture. The connections between these two scenes are mapped looking firstly at the spectacular events that shaped post-war London then at the modernist physical and social reconstruction of the city alongside artistic experiments such as Pop and Op Art. Making extensive use of London's underground press, the book then explores the replacement of this seemingly materialistic image with the counterculture of underground London from the mid-1960s. *Swinging City* develops the argument that these disparate threads cohere around a shared cosmology associated with a new understanding of nature which differently positioned humanity and technology. The book tracks a moment in the historical geography of London during which the city asserts itself as a post-imperial global city. *Swinging London* it argues emerged as the product of this recapitalisation by absorbing avant-garde developments from the provinces and a range of transnational mainly transatlantic influences.
