Kooijman,2025-10-01 When rock star Bono told Oprah Winfrey that America is an ideal that is supposed to be contagious the talk show host was moved to tears Such an imagined America rather than the nation state USA is the topic of *Fabricating the Absolute Fake* Pop and politics become intertwined as Hollywood television and celebrities spread the American Dream around the world Using concepts such as the absolute fake and karaoke Americanism the book examines this global mediation as well as the way America is appropriated in pop culture produced outside of the USA as demonstrated by such diverse cultural icons as the Elvis inspired crooner Lee Towers and the Moroccan Dutch rapper Ali B This revised and extended edition includes a new chapter on Barack Obama and Michael Jackson as global celebrities and a new afterword on teaching American pop culture CANCER CURE AND MYSTRIES AND YOGA Dr. NITIN UNKULE,2010-08-01 In this book I have described significant patterns in the life histories and emotional responses of cancer patients which suggested to me the notion of a Cancer Personality and then I came to know where the real Cancer in our society is There should be a certain

resonance between therapist and patient as a decisive factor in psychotherapy which triggers the natural healing process Thus my basic interest is in paranormal phenomena while dealing with cancer and heart patients simply because evolution in Biology is outdated now the talk is about evolution of consciousness Changing the patient s belief system about cancer and the belief systems of the patient and the physician are crucial to the success of the therapy and can be used effectively to support the patient s potential for selfhealing

Very Brief Psychotherapy James P. Gustafson,2013-01-11 As the fields of psychiatry and clinical psychology are increasingly driven by the economics of the HMO or Mental Health Center practitioners in any setting whether it be private practice or university clinic are now forced to develop more concrete procedures and models in order to practice more efficiently This book presents a set of procedures for brief therapy that are based entirely on the four common dynamics of psychiatry By following the model set forth in this book psychiatrists psychologists social workers psychiatric nurses and mental health workers will be able to build an entire brief therapy program based upon the initial conditions for each patient In *Very Brief Psychotherapy* Dr James Gustafson provides the reader with the tools and techniques to make a discernable difference in a patient s life in only a few moments The majority of people seeking help from mental health professionals are not pathological but are most often stuck in self imposed cyclical patterns of behavior from which they cannot escape It is the first step in any situation that leads to the iteration of the familiar circle and it is in this single step that the clinician can effect decisive change Given a window of only five or ten minutes the practitioner armed with this approach can help a patient break out of the repeating pattern move around the impasse and take the first step onto a new trajectory *Very Brief Psychotherapy* can help the practitioner make meaningful interventions in real world time and in less than ideal circumstances will radically change the reader s concepts of what can be accomplished in a day in a clinical hour or even in a single moment
