Wilson,2012-02-01 The Melancholy Android is a psychological study of the impulses behind the creation of androids Exploring three imaginative figures the mummy the golem and the automaton and their appearances in myth religion literature and film Eric G Wilson tracks the development of android building and examines the lure of artificial doubles untroubled by awareness of self Drawing from the works of philosophers Ficino Kleist Freud and Jung writers Goethe Coleridge Shelley and Poe and movies such as Metropolis The Mummy and Blade Runner this book not only offers a range of sites from which to analyze the relationship between mind and machine but also considers a pressing paradoxical dilemma loving machines we want to hate [Aporophobia and Punitive Power in Brazil](#) Ílison Dias Dos Santos,2025-09-30 This book provides a critical and reflective analysis of the criminological movement to establish aporophobia as a framework for examining punitive power It scrutinizes the theoretical methodological and political foundations of aporophobia a concept developed in a distinct sociopolitical reality and reveals the risks of uncritically applying it to Brazil s context It highlights how aporophobia fails to account for the central role of Brazil s history of slavery in shaping its abysmal penal selectivity which disproportionately targets marginalized groups perceived as social pariahs By obscuring these structural roots this movement inadvertently legitimizes Brazil s unchecked punitive power perpetuating the belief in criminal law as a solution to deeply embedded social issues ultimately reinforcing what is identified as a criminology of blindness that ignores the roots of the abysmal selectivity of punitive power in Brazil Rooted in critical criminology the book highlights the limitations of aporophobia as a critical criminological tool and proposes an alternative framework grounded in intersectionality and Southern epistemologies These perspectives emphasize the importance of delegitimizing criminal law as a mechanism for addressing social inequalities while constructing a more realistic and emancipatory critique of punitive power It also exposes the criminal policy of the other a caste based model that erodes the rule of law even under the punitive new left Ultimately the work calls for a criminological approach that engages directly with Brazil s historical and systemic inequalities offering a globally informed yet locally grounded analysis of the selective exercise of punitive power **Song of Harmony** Ganesh Prasad Kar Sharma,2022-07-14 Song of Harmony is my first collection of poems in English Some years ago I wrote some poems and a few of them were published in some English daily and monthly journals A poet can express his ideas and emotions in the language he knows Some thousands of Odia

poems I have written since my age of fifteen and three collections have been published yet and some are in the offing I use the Indian literature the Soviet literature the Chinese literature the Tatvaloka and the journals of our state literary academy for my comparative study which led me to do something more Besides Odia poems I use to write some English and Hindi poems for Facebook those brought me good response to inspire Our Indian literature has a special aesthetics and way of expression which are absent in the Western style It is somehow difficult to convert them to Western style of art Indian rhetoric is so vast and extensive that very often we face troubles to find equivalent expressions in other language In comparative study we can realise the truth Indian style of prose and poetry was invented some seven thousand years ago while the Western style was not thought of The Vedic hymns were composed both in prosaic and poetic style while the modern critics in doubt of their composition The prose verses are not new in ancient Indian literature The symbols similes and metaphors are found plenty in epic and mythology which can be utilised in the modern style of expression Some Indian English writers first think in their mother tongue and then express them in English But there are other who both think and write in English Very often I have followed both the ways At times I have also reproduced my best expressions into English as some specific human emotions are same worldwide and universal in nature I must convey my obligation to Late Prof Ananta Charan Sukla the then lecturer and guide during my honours classes in the 60s at Bhadrak College I also express my heartfelt thanks to Dr Golak Bihari Sahoo who was my dearest colleague once upon a time in the High School Service and now a retired professor of English from Bhadrak Auto College who has gone through the poems and gave necessary suggestions by investing his valuable time There might be some sort of errors both in grammatical and stylistic errors if found are left for the sympathetic learned readers to excuse

Explorations in Art, Theology and Imagination Michael Ridgwell Austin,2016-04-08 Christianity has repeatedly valued the Word over and above the non verbal arts Art has been seen through the interpretative lens of theology rather than being valued for what it can bring to the discipline Explorations in Art Theology and Imagination argues that art is crucially important to theology The book explores the interconnecting themes of embodiment and incarnation faith and imagination and the similarities and differences between art and theology Arguing for a critique that begins with art and moves to theology Explorations in Art Theology and Imagination offers a radical re evaluation of the role of art in Christian discourse

After Ethics Alejandro Haber,Nick Shepherd,2014-11-05 While books on archaeological and anthropological ethics have proliferated in recent years few attempt to move beyond a conventional discourse on ethics to consider how a discussion of the social and political implications of archaeological practice might be conceptualized differently The conceptual ideas about ethics posited in this volume make it of interest to readers outside of the discipline in fact to anyone interested in contemporary debates around the possibilities and limitations of a discourse on ethics The authors in this volume set out to do three things The first is to track the historical development of a discussion around ethics in tandem with the development and disciplining of archaeology The second is to examine the meanings consequences and efficacies of a discourse on ethics in contemporary worlds of practice in archaeology The third is to push beyond the language of ethics to consider other ways of framing a set of concerns around rights accountabilities and meanings in relation to practitioners descendent and affected communities sites material cultures the ancestors and so on
