Accounting As Social And Institutional Practice:

Accounting as Social and Institutional Practice Anthony G. Hopwood, 1994-10-06 Accounting as Social and Institutional Practice is the first major collection of critical and socio historical analyses of accounting It gathers together work by scholars of international renown on the social and institutional nature of accounting to address the conditions and consequences of accounting practice Challenging conventional views that accounting is a technical practice and that it comprises little more than bookkeeping this collection demonstrates the importance of analysing the multiple arenas in which accounting emerges and operates As accounting continues to gain in importance in so many spheres of social life an understanding of the conditions and consequences of this calculative technology is vital Its relevance extends far beyond the discipline of accounting This book will be of considerable interest for specialists in organisational analysis sociologists and political scientists as well as the general reader interested in understanding the increasing significance of accounting in contemporary society

Accounting as Social and Institutional Practice Anthony G. Hopwood, Peter Miller, 1994
Accounting as Social and Institutional Practice Peter Miller, 2004 **Management Accounting as Social and Institutional Practice** Anne Loft, Jan Mouritsen, Carsten Rohde, 2003 **Handbook of Accounting in Society** Hendrik Vollmer, 2024-05-02 The Handbook of Accounting in Society invites readers to consider the ways in which accounting affects organizations institutions communities professions and everyday life Diverse in its reach this Handbook campaigns for the need to reconsider our understanding of what accounting is and crucially what it can become

Feminism in Public Debt Juan Pablo Bohoslavsky, Mariana Rulli, 2024-05-16 EPDF and EPUB available open access under CC BY NC ND licence As many developing countries are facing increasingly higher levels of debt and economic instability this interdisciplinary volume explores the intersection of sovereign debt and women s human rights Through contributions from leading voices in academia civil society international organizations and national governments it shows how debt related economic policies are widening gender inequalities and argues for a systematic feminist approach to debt issues Offering a new perspective on the global debt crisis this is an invaluable resource for readers who seek to understand the complex relationship between economics and gender

Banking Across Boundaries Brett Christophers, 2013-01-07 This compelling contribution to contemporary debates about the banking industry offers a unique perspective on its geographical and conceptual placement It traces the evolving links between the two revealing how our notions of banking productiveness have evolved alongside the shifting loci of banking activity An original contribution to the urgent debates taking place on banking sparked by the current economic crisis Offers a unique perspective on the geographical and social concept of placement of the banking industry Combines theoretical approaches from political economy with contemporary literature on the performativity of economics Details the globalization of Western banking and analyzes how representations of the banking sector s productiveness have shifted throughout the evolution of Western economic theory Analyzes the social conceptualization of the nature and value of

the banking industry illuminates not only how economic ideas perform and shape the economic world but how those ideas are themselves always products of particular economic realities *Charlotte Riddell's City Novels and Victorian Business* Silvana Colella, 2016-03-22 In spite of the popularity she enjoyed during her lifetime Charlotte Riddell 1832 1906 has received little attention from scholars Silvana Colella makes a strong case for the relevance of Riddell's novels as narrative experiments that shed new light on the troubled experience of Victorian capitalism Drawing on her impressive knowledge of commerce and finance Riddell produced several novels that narrate the fate of individuals manufacturers accountants entrepreneurs City men and their female companions who pursue the liberal dream of self-determination in the unstable world of London business Colella situates novels such as *Too Much Alone* *George Geith* *The Race for Wealth* *Austin Friars* and *The Senior Partner* in the broader cultural context examining business manuals commercial biographies and essays to highlight Victorian constructions of the business ideal and the changing cultural status of the City of London Combining historicist and formalist readings Colella charts the progression of Riddell's imaginative commitment to the business world focusing on the author's gendered awareness of the promises and disenchantments associated with the changing dynamics of capitalist modernisation Her book enriches our understanding of Victorian business culture the literary history of capitalism and the intersections of gender genre and economics *The Oxford Handbook of the Sociology of Finance* Karin Knorr Cetina, Alex Preda, 2012-11-29 Recent years have seen a surge of interest in the workings of financial institutions and financial markets beyond the discipline of economics which has been accelerated by the financial crisis of the early twenty-first century The Oxford Handbook of the Sociology of Finance brings together twenty-nine chapters written by scholars of international repute from Europe North America and Asia to provide comprehensive coverage on a variety of topics related to the role of finance in a globalized world and its historical development Topics include global institutions of modern finance types of actors involved in financial transactions and supporting technologies mortgage markets rating agencies and the role of financial economics Particular attention is given to financial crises which are discussed in a special section as well as to alternative forms of finance including Islamic finance and the rise of China The Handbook will be an indispensable tool for academics researchers and students of contemporary finance and economic sociology and will serve as a reference point for the expanding international community of scholars researching these areas from a broadly defined sociological perspective

Inside Accounting David Leung, 2016-05-23 Based on a study covering a one-year financial reporting cycle at a commercial subsidiary of a well-known scientific research organization *Inside Accounting* examines how accountants and non-accounting managers construct their company's earnings Addressing issues in both internal management accounting such as budgeting performance evaluation and control as well as external financial accounting such as book-keeping monthly year-end accounts and auditing David Leung focuses on how people classify transactions make professional judgments and use computer software for accounting and prepare for and facilitate the auditing process He also looks at accountancy training

and the impact of people's affiliations to the accounting profession or other professions on their accounting and on their perceptions of financial statements. Other contingent or contextual factors that influence the choice of accounting method such as time pressure, reward structures, management authority and institutions are also considered. David Leung's research employs an innovative blend of theory and practice that redresses the imbalance between ethnographic studies of financial accounting and management accounting and helps close the gap between the academic curriculum and the experiences of practitioners. His research leads the author to conclude that no act of accounting classification is ever indefeasibly correct; that the accounting community's institutions and authority are central to the accounting process and to the truth and fairness of accounting numbers; that accounting training involves extensive use of learning by doing; and that both accountants and non-accounting managers have goals and interests that often result in no better than good enough accounting. This book will appeal to accounting and finance professionals and academics in finance as well as to sociologists and academic researchers interested in research methods and science studies.

Adoption of Anglo-American models of corporate governance and financial reporting in China

Huiying Wu, Christopher Patel, 2015-01-16. This monograph examines the adoption of Anglo-American models of corporate governance and financial reporting in China. It shows how the loose coupling between regulations and actual operations is shaped by the interplay between institutional pressures and organizations' conflicts of interest and power dependence within the local context.

International Encyclopedia of Economic Sociology Jens Beckert, Milan Zafirovski, 2006. Dealing with the multiple and complex relations between economy and society, this encyclopedia focuses on the impact of social, political and cultural factors on economic behaviour. It is useful for students and researchers in sociology, economics, political science and also business organization and management studies.

The Real Life Guide to Accounting Research

Christopher Humphrey, Bill H.K. Lee, 2007-11-29. The Real Life Guide to Accounting Research is a book that goes behind the more official presentations and accounts of research methods to explore the lived experiences, joys and mistakes of a wide range of international researchers principally working in the fields of accounting and finance but also in management, economics and other social sciences. The authors of the articles in this book address a wide range of issues and obstacles that they have confronted at various stages in their respective research careers. In reflecting on their personal experiences, they provide practical guidance on how to overcome the types of problems that typically confront researchers in their day-to-day work. Practical tips on how to undertake research and get findings published. Research project management skills. International and interdisciplinary perspectives.

The People's Game? Stephen Morrow, 2023-01-24. The beautiful game is big business. Football leagues worldwide are being dominated by clubs which are becoming richer and more powerful. Since the first edition of this book was published in 2003, much has changed in the industry. However, the central challenge remains: how best football, its leagues and clubs, can navigate a path between the logic of the market and the logic of community/social, while also remaining focused on a sporting logic. In this second edition, author Stephen Morrow

offers a critique of football's economic structure prevalent models of club ownership and governance and new approaches to regulation that have emerged The book also reflects on the Covid 19 pandemic and on ways in which it has illuminated many of the structural weaknesses inherent in football It also offers an insight into the woman's game and its financial development in some countries as well discussing issues such as football's response to environmental challenges Drawing on theory and new literature from across relevant academic disciplines this book seeks to make sense of the current challenges while also putting forward solutions as to how football can continue to harness and build on its social and community significance
