The Handbook of China's Financial System Marlene Amstad, Guofeng Sun, Wei Xiong, Darrell Duffie, 2020-11-17 The Chinese economy is now easily one of the most important and closely scrutinized economies in the world Relatively minuscule changes in predictions of how the Chinese economy will perform can drive up or down stocks and the price of oil and other commodities At the heart of how the Chinese economy works is its financial system but the Chinese financial system is vastly different than most people in the West can understand How do house prices work for example in a country where the very concept of property ownership is significantly different than our own This edited volume will serve as a standard reference guide to China's financial system With eighteen chapters the handbook features overviews on the banking sector the core of China's financial system and the key channel for implementing China's monetary policy China's ongoing

reforms and the quickly growing bond and money markets among other topics Each chapter is written by a leading expert in the field and as a whole the list of contributors represents an impressive mix of leading scholars and high level policy officials some with first hand knowledge of setting and carrying out Chinese financial policy The handbook will serve as the first real authoritative volume of literature in the field and will shed extensive new light on the links between China's financial system and the real economy

Introduction of IAS / IFRS by the BMW AG in 2000 Johannes-Cornelius Adari, Henrik Thrane, Pascale Taube, 2004-08-11 Inhaltsangabe Abstract This case study deals with an important financial aspect of multinational companies i e their obligation of accounting Until the year 2000 BMW used to prepare its annual external audits under German Commercial Code Standards HGB This tradition ended in 2000 when BMW accounted under International Accounting Standards IAS for the first time 7 years before Mercedes Benz was the first German automotive manufacturer adopting international Standards in 1993 But in Mercedes case US Generally Accepted Accounting Principles US GAAP were chosen because the objective was to become listed at the New York Stock Exchange NYSE At this time US GAAP were not accepted outside the North American Free Trade Association NAFTA esp not by the EU Commission but the US Principles were applied in the largest and most important stock market worldwide On the other hand US organizations like the Securities and Exchange Commission SEC did not accept any other accounting standards in these days Accordingly Mercedes Benz had to prepare two annual audits one under US GAAP and the other under HGB This treatment obviously was highly inefficient providing lots of encumbrances to US capital seeking European companies accounting and auditing took too much time personnel resources and money Another negative effect was that many US companies hesitated with urgently required investments in Europe But nevertheless multinational groups seemed to have several advantages by using international accounting standards even if they had to prepare more than one audit annually Within the 1st part this case study provides basic information dealing with accounting standards in particular reasons and objectives organizational patterns and the process of IAS becoming international

accepted by pointing out their most important differences compared to US GAAP and German HGB Standards The 2nd part deals with the reasons of changing BMW s accounting standards by looking at the Group s key markets and the impact of IAS adoption by examining their figures of non current assets inventories other current assets liabilities deferred incomes provisions equity as well as research development within a four years comparison At last the 3rd part gives an examination and summary of the results of IAS reception for BMW the effects on the stock market changes of rating on the global market and gives hints to future
